Hi David. I hope you are keeping well. I'm just getting in touch to see if you would be free for a quick chat on the phone please as we've had a request from the Redress Panel for additional information to help them reach their decision for your application. Kind regards, Deanna - Aiker Legal Support

Hi David. Sorry to bother you again. I've tried calling a couple of times so hopefully you're out and about enjoying the day. It's just to let you know I'm working until 5pm today then on leave tomorrow but if you call the office on **0203 004 6549** and I'm not available then one of the team should be able to help. They're aware of why I tried to reach you. The office is closed Monday due to the Bank Holiday so we'll all be back in work next Tuesday in case you can't call tomorrow. If I don't manage to speak with you before 5pm I hope you have a lovely weekend and we'll catch up next week. Kind regards, Deanna

Hi David. Hope you are well. It's Arnella. We are at a crucial stage of your Redress case. This is time sensitive and we do not want this to put back in a queue for waiting. It is important that we discuss this please. Are you free now for a follow up to get this to the panel today. Thanks. Aiker Legal

David we are unable to take calls on whatsapp. can I call you back on **0203 004 6549** /

13:30 ✓

Yes 13:32

You have confirmed that the medical records would unlikely provide any evidence to support your time in these institutions, as they were purposefully not recorded to cover up the abuse being experienced by young offenders and were very much notorious for these behaviour with children under their care. There were numerous others who were treated the same way, and nothing was ever recorded. We were never seen by a medical person, instead their behaviour was one way of shutting you up. This was about threatening and intimidation, use of power to create fear and control. I still to date have a lump at the back of my head and scars that is still visible. You learn to live with the physical scars as well as coping with mental scars that have impacted me for a lifetime.
