Plan Number: 5509023

Dear Mr Millar

I am pleased to enclose your Pension Review Statement.

About the Statement

Your Pension Review Statement is intended to show you:

- how much your Plan is worth
- how your Plan is progressing towards your retirement goals
- what you need to do to keep your pension on track

It also shows what your pension could be worth 'in today's terms'. This takes inflation into account, which makes it easier to compare your retirement income with your current income. The figures are not guaranteed.

What you need to do

The more up to date the information you give us the more relevant your Statements will be for you. Please ring us on 0345 741 3002 whenever such things as your earnings or target retirement income change so that we can update your future Statements.

Please also ring us on 0345 741 3002 whenever you wish to vary your contribution to reflect changes in your earnings or lifestyle. Remember that any contribution increases you make qualify for tax relief.

Important Information

The value of tax relief depends on your personal financial circumstances and may be affected by future changes in legislation. You should remember if you stop or reduce your contributions, your pension will be lower than you originally planned for, perhaps significantly. The value of investments can fall as well as rise and is not guaranteed.

Beware of pension scams

It's important to understand how pension scams work, how to avoid them and what to do if you suspect a scam. Don't let a scammer enjoy your retirement. Visit royallondon.com/pensionscams to find out more. You can also find more information about pension scams at fca.org.uk/scamsmart
