Your statement for additional care settings

In Part 1, you will have already provided information about the care settings you were abused in. By providing this information here, your case worker can join together the name of the care setting with your statement of abuse.

Q1 | What is the name or location of the relevant care setting you were abused in?

(For example, the name of the care home, or the city or region where you lived in foster care or while boarded out).

Foster Home - Falkirk

Do not worry if you are uncertain about dates or time. Please provide your best estimate.

Q2 | When were you abused?

For example: a single date, an age, or an approximate time or time range.

1992

You do not have to provide names, if you cannot remember or do not feel comfortable doing so. If you do provide a name it will be passed to Police Scotland.

Q3 | Who was involved in your abuse?

For example: a member of staff, a peer or someone outside the care setting.

The information you provide will be used by Redress Scotland to make a decision about your application. Redress Scotland will use the "Assessment framework" to help them do this, available on [gov.scot](https://www.gov.scot). Please be aware that it contains graphic descriptions of abuse.

Q4 | On the next page, please provide as much information as you can about:

- the abuse you experienced while living in this care setting
- what life was like for you during this time
- how the people responsible for your care and welfare failed to carry out that duty (within or beyond your care setting)

You can continue on additional pages if you need to.

Part 2 of the application form provides more information about what you may want to include.

Your statement for additional care settings

I was required to sleep on the sofa in the living room because the house did not have suitable space for me. I do not believe the property was large enough for the foster carer to accommodate me appropriately.

I slept very poorly throughout the placement. I was woken at approximately 6:00 a.m. every day because the foster carer would be awake with her baby and would make me get up as well.

The foster carer was often too busy to give me any time or attention. I received no emotional support and frequently felt ignored.

She would regularly shout at me, and I felt that she directed her frustration towards me because of the stress she was experiencing.

I told my social worker about the situation, but I felt that my concerns were ignored and no action was taken.
