Your statement for additional care settings

In Part 1, you will have already provided information about the care settings you were abused in. By providing this information here, your case worker can join together the name of the care setting with your statement of abuse.

Q1 | What is the name or location of the relevant care setting you were abused in?

(For example, the name of the care home, or the city or region where you lived in foster care or while boarded out).

Wallacewell Children's Home / Residential Children's Unit

Do not worry if you are uncertain about dates or time. Please provide your best estimate.

Q2 | When were you abused?

For example: a single date, an age, or an approximate time or time range.

1984-1986

You do not have to provide names, if you cannot remember or do not feel comfortable doing so. If you do provide a name it will be passed to Police Scotland.

Q3 | Who was involved in your abuse?

For example: a member of staff, a peer or someone outside the care setting.

The information you provide will be used by Redress Scotland to make a decision about your application. Redress Scotland will use the "Assessment framework" to help them do this, available on [gov.scot](https://www.gov.scot). Please be aware that it contains graphic descriptions of abuse.

Q4 | On the next page, please provide as much information as you can about:

- the abuse you experienced while living in this care setting
- what life was like for you during this time
- how the people responsible for your care and welfare failed to carry out that duty (within or beyond your care setting)

You can continue on additional pages if you need to.

Part 2 of the application form provides more information about what you may want to include.

Your statement for additional care settings

When I was placed here I was 11 years old. At first this setting was ok, I kept myself to myself and then I started to make friends to make my time better here.

I gathered a friend group here and then there were times the staff members would see me as a target for some reason.

I was physically abused by these staff members. I was out of place, I didn't like being in care and I certainly didn't like the way these staff members treated me and others, therefore I did answer back and was a little unsettled but this would be due to being a young boy away from my family.

I remember a staff member grabbing me and lift me up, took me to my room and threw me in my room and I wacked my head on the radiator. Fortunately this didn't cause me to bleed. I then remember shouting "you've just hit my head off the radiator" in which i was told to "shut the **** up".

I just didn't like how we was treated or handled here, I used to run away from here a lot and every time I was brought back I would then be manhandled and thrown in to my room.

My window was also locked shut moving forward so I was then not able to even open my window.

To this day this gives me nightmares still and my son has come in and asked me if I was ok due to me shouting in my sleep "leave me alone". This has left me restless and unsettled. I'm unable to sleep well since I left the care system.
