

Scotland's Redress Scheme

Application form **Part 2**

Additional statement pages

Name

Antony Cashmore

Date of birth

Day 10 Month 10 Year 1981

Your statement for additional care settings

In Part 1, you will have already provided information about the care settings you were abused in. By providing this information here, your case worker can join together the name of the care setting with your statement of abuse.

Q1 | What is the name or location of the relevant care setting you were abused in?

(For example, the name of the care home, or the city or region where you lived in foster care or while boarded out).

Newfield assessment Center Johnstone

Do not worry if you are uncertain about dates or time. Please provide your best estimate.

Q2 | When were you abused?

For example: a single date, an age, or an approximate time or time range.

1995

You do not have to provide names, if you cannot remember or do not feel comfortable doing so. If you do provide a name it will be passed to Police Scotland.

Q3 | Who was involved in your abuse?

For example: a member of staff, a peer or someone outside the care setting.

The information you provide will be used by Redress Scotland to make a decision about your application. Redress Scotland will use the "Assessment framework" to help them do this, available on [gov.scot](https://www.gov.scot). Please be aware that it contains graphic descriptions of abuse.

Q4 | On the next page, please provide as much information as you can about:

- the abuse you experienced while living in this care setting
- what life was like for you during this time
- how the people responsible for your care and welfare failed to carry out that duty (within or beyond your care setting)

You can continue on additional pages if you need to.

Part 2 of the application form provides more information about what you may want to include.

Your statement for additional care settings

While I was at Newfield, I regularly abused solvents in my room and was high much of the time. Looking back, I believe staff either knew, or should have recognised, what was happening because my behaviour changed significantly. When I was intoxicated, I became involved in fights and my thinking was affected. Rather than investigating why my behaviour had changed or helping me with the substance misuse, I was often made to stand alone in the corridor as a punishment. I felt that the underlying problem was ignored.
