Your statement for additional care settings

In Part 1, you will have already provided information about the care settings you were abused in. By providing this information here, your case worker can join together the name of the care setting with your statement of abuse.

Q1 | What is the name or location of the relevant care setting you were abused in?

(For example, the name of the care home, or the city or region where you lived in foster care or while boarded out).

Glenavon Children's Home

Do not worry if you are uncertain about dates or time. Please provide your best estimate.

Q2 | When were you abused?

For example: a single date, an age, or an approximate time or time range.

1989-1990

You do not have to provide names, if you cannot remember or do not feel comfortable doing so. If you do provide a name it will be passed to Police Scotland.

Q3 | Who was involved in your abuse?

For example: a member of staff, a peer or someone outside the care setting.

The information you provide will be used by Redress Scotland to make a decision about your application. Redress Scotland will use the "Assessment framework" to help them do this, available on [gov.scot](https://www.gov.scot). Please be aware that it contains graphic descriptions of abuse.

Q4 | On the next page, please provide as much information as you can about:

- the abuse you experienced while living in this care setting
- what life was like for you during this time
- how the people responsible for your care and welfare failed to carry out that duty (within or beyond your care setting)

You can continue on additional pages if you need to.

Part 2 of the application form provides more information about what you may want to include.

Your statement for additional care settings

When I was placed in Glenavon, it was me and my brother. We were young boys and being away from my parents, me and my brother had to stick together.

At the start of this placement, the people around us were ok with ourselves but as we settled things turned horrible.

We would randomly get attacked by others, getting physically beaten up - punched, kicked, slapped and I suffered some bruising from these attacks.

These attacks would happen at least 2-3 times a month. It wasn't nice to experience at all, especially when it was at random, I never knew when to expect it or when the next time it was going to happen.

The staff members in this care setting never bothered to break these attacks up, not just with me but with any fights that broke out. They would turn a blind eye and walk away, they would say they never seen anything happen. It was very tough to go through this, especially when in them moments you wish you could rely on these staff members to come and rescue you.
