

Scotland's Redress Scheme

Application form **Part 2**

Additional statement pages

Name

Corriena Mckenna

Date of birth

Day 05

Month 08

Year 1980

Your statement for additional care settings

In Part 1, you will have already provided information about the care settings you were abused in. By providing this information here, your case worker can join together the name of the care setting with your statement of abuse.

Q1 | What is the name or location of the relevant care setting you were abused in?

(For example, the name of the care home, or the city or region where you lived in foster care or while boarded out).

Foster Care

Do not worry if you are uncertain about dates or time. Please provide your best estimate.

Q2 | When were you abused?

For example: a single date, an age, or an approximate time or time range.

1994

You do not have to provide names, if you cannot remember or do not feel comfortable doing so. If you do provide a name it will be passed to Police Scotland.

Q3 | Who was involved in your abuse?

For example: a member of staff, a peer or someone outside the care setting.

Rigley Family

The information you provide will be used by Redress Scotland to make a decision about your application. Redress Scotland will use the "Assessment framework" to help them do this, available on [gov.scot](https://www.gov.scot). Please be aware that it contains graphic descriptions of abuse.

Q4 | On the next page, please provide as much information as you can about:

- the abuse you experienced while living in this care setting
- what life was like for you during this time
- how the people responsible for your care and welfare failed to carry out that duty (within or beyond your care setting)

You can continue on additional pages if you need to.

Part 2 of the application form provides more information about what you may want to include.

Your statement for additional care settings

My time in this placement was very up and down. I have some good memories, but I also have some very difficult ones. The woman who cared for me was lovely, but the man was not. He drank a lot and would often go to the pub. There were a few occasions when I woke up to find his hands underneath the covers, close to my private areas. I remember waking up and realising what was happening. I completely froze. I did not tell him to stop because I was scared and did not know what to do. I felt unable to move or react, so I just lay there. I was a child and did not understand how I was supposed to respond to what was happening to me. This was extremely distressing for me. I remember crying myself to sleep every night, and I was left traumatised by what happened. When my mum came out of hospital, she took me out of the placement. As I got older, I began drinking. When I was 15, my sister died as a result of the effects the abuse she had experienced had on her. My brother was also in and out of care throughout his life, and by the time I was 21, he had also died. I feel that the system failed all of us. We were vulnerable children who needed to be protected and supported, but instead we were left with experiences that had devastating consequences. I have had to carry the impact of everything that happened throughout my life.
