Settings

Good afternoon,

Dark mode

Thank you for your request received 15<sup>th</sup> April 2026.

About

Your request has been passed on to the HSCP Information Team who as part of this request will carry out searches on our HSCP Case Management and Electronic Document Management Systems (CareFirst and Comino)

Logout

It is important to highlight that other organisations may independently hold your clients' records. You can approach any organisation that you believe may hold your clients' records and request to access them.

On occasions the volume of files that we hold is large or complex we have the right to extend the timescales up to an additional two months (please see URL link below for further details). Generally, we do not have to do this, but we will advise if this is the case.

[What to expect after making a subject access request | ICO](#)

Kind Regards,

**Information Team**

West Dunbartonshire Health and Social Care Partnership  
Strategy and Transformation
