Case No. 12/2202

Name ANDREW JONES Date of Birth 26.12.69
 Address 36 Ashmore Street, Dundee
 Stepfather's Name (where appropriate) Harry Jones
 Address 36 Salton Crescent, Dundee
 Mother's Name (where appropriate) Ann Mill
 Address 36 Ashmore Street, Dundee
 Admitted to Care 4.8.80, Sec 15 Parental Rights Assumed 14.3.83
 Date of Supervision Requirement 25.1.82, Sec 44 (1)(b)
 Brief Summary of case including reason for referral:
 Andrew was originally admitted to care in August 1980, together with younger sister Sarah (currently in Ann Street) when mother was admitted compulsorily to Liff Hospital suffering from schizophrenia.

Andrew went home to live with his mother finally in January 1984 and has been there since, although still under a parental rights resolution. He has finally decided recently to move into his own home and has been allocated a house in Whitfield from 24 August 1987. Andrew's parental rights resolution will lapse in December 1987 when he is eighteen.

I have known him since October 1986 and he has been basically reluctant to have any regular contact. He has however been friendly and has been able to ask for help at this point. Family Helper has been closely involved over last two months, giving practical advice re housing, grants, etc.

Reason for referral is request for money to help Andrew set up at home - detailed estimate attached. Plan is for ILST to take over case and provide ongoing support.

Recommendation:

That Andrew receive £475 to cover basic costs of setting up home at 132 Dunbar Crescent, Dundee from 24 August 1987.
