Dear Dr IGWE

Mrs Margery was seen previously seen in neurology clinic in October 2023 for her trigeminal neuralgia. I was pleased to see that her CT head scan + CT angiogram in December 2023 came back entirely normal. She is on Pregabalin 50mg twice a day and tells me that she could not get hold of Carbamazepine in pharmacies. I suspect at that it was because of the national shortage at that time. I have given to her another prescription for Carbamazepine 100mg twice a day to increase to 200mg twice a day after 2 weeks if necessary. In the meantime she is to increase the Pregabalin to 50mg three times a day. I shall see her in 6 months for a follow up.

Yours sincerely
