Patient's Reported Condition

III-WORSENING PAIN IN JOINTS SWELLING AND RASH

Case Summary**Pathways Disposition: Dx05**

To Contact A Local Service Within 2 Hours

Consultation Summary:

Illness - 'WORSENING PAIN IN JOINTS SWELLING AND RASH'

Warm to touch

Problem involves only wrist, hand or fingers

Arm pain and swelling

Fever at time of assessment or in last 12 hours

Very severe, deep limb pain

Advice Given:

Drink lots of fluids, such as water or squash - take small sips if feeling sick.

Wear light clothing, don't try to cool down by cold sponging or fanning.

Feeling faint, about to pass out or collapse - CALL 999.

Becoming severely ill WITH new marks, like bruising or bleeding under the skin - CALL 999.

Unless advised not to take, paracetamol or ibuprofen can be used to relieve pain or fever. Follow the instructions in the pack. If in doubt ask a pharmacist.

Remove any jewellery or tight clothing from around the swelling.

If there are any new symptoms, or if the condition gets worse, changes or you have any other concerns call 999.

Remember to take a list of any current medications if you go to the out of hours surgery.

Special Patient Notes

Risk Reason: Green History Marker - 999

Risk Notes:

GREEN: The code is 9999 for the main vehicular access gate.
