Dear Colleague

Re: MRS KATRINA MARGERY DoB: 24/05/1967

I would be grateful if you could see Mrs Margery who was referred to me with regards a sharp shooting pain in the right V2 distribution. This apparently started three months following a dental extraction. No local cause could be found and I suspect this is trigeminal neuralgia.

Unfortunately, Mrs Margery was unable to tolerate an MRI scan due to claustrophobia. As her General Medical Practitioner is unable to refer her to undergo this investigation in an open scanner, I would be grateful if you could assess and treat this patient accordingly.

Yours sincerely
