Dear Doctor

Re: Single Point of Access referral

A patient registered at your practice has recently been in touch with the Single Point of Access team at Kent and Medway NHS and Social Care Partnership Trust (KMPT).

Please find details of the Referral Screening Form below for your information.

Name:	Katrina MARGER Y
Date of Birth:	24 May 1967
NHS No:	4000670514
Gender:	F
Address:	1 Wing House Wing Road Sheerness Kent ME12 4QR
Date of Screening:	29 May 2018

Referral:	
Client Type	Mental health
Reason for Referral	Katrina was referred by her GP (Dr Ota) ON 22/05/2018 for an assessment with concerns about her deteriorating mental state and risk to self. She is reported to have "self-harmed by cutting her left wrist. Katrina said she was told to self-harm by voices. Karina took an overdose of Co-codamol last week and this was because of the voices. The voices laugh at her when she hurts herself and tell her to hurt herself more. Suicidal ideation but no current plans. Katrina has started to drink alcohol to try get rid of the voices. No drugs". SPoA made several attempts to contact Katrina on her mobile number " 07851395901 without success. I contacted GP surgery (St George's medical centre) today (29/05/2018) and I spoke to Becky. She confirmed the number we already have as correct and she did not have any other alternative numbers. She said that since the referral Katrina has not made any contact with the GP surgery. Plan Referral transferred to Swale CMHT for follow up as per DNA policy
Planned outcome	
Result of screening	Accepted and placed on app waiting list
Details of result	
Does the client agree to the referral?	No
Perceived or reported risk	
Perceived risks to staff	
Current treatment	
Access issues including problems entering the premises	
What has been done so far by the referrer?	
What is wanted from our service?/Summary	

Yours sincerely
