Dear Sir/Madam,

We act on behalf of the above-named individual and submit this request under Article 15 of the UK General Data Protection Regulation and the Data Protection Act 2018.

Scope of Request

We request a complete copy of the patient's full medical records, including all data held in electronic, paper, and archived formats.

This specifically includes:

Full GP records (not a summary printout)
Consultation notes and free-text entries
Historical paper records (including Lloyd George records where applicable)
Coded clinical data
Correspondence to and from hospitals, specialists, and external providers
Mental health records held within the GP file
Safeguarding concerns or alerts
Referral records and outcomes

JAC	Comment : Laura thx Please ask him to attend an appt with gp to explain his needs thanks Sohrab CAROL PLEASE THESE MEMOS ON EMIS -----Original Message----- From: Blatchford Laura <redir.aspx?C=2e23e7392f9248f69943d56641637457&URL=mailto%3alaura.blatchford%40cpft.nhs.uk> Sent: 20 March 2009 14:37 To: Panday Sohrab (PETERBOROUGH PCF) Subject: Richard Dean Dear Dr Panday Richard Dean attended an appointment @ Peterborough Drug Services this morning. He has recently been housed at Fairview court. He was requesting a supporting letter in reference to his ongoing anxiety and social phobia. I have referred him to our anxiety management group which will be running in the near future, however he feels that he has become significantly worse since discovering a dead body in recent months. I wonder whether you would be able to assist in anyway. I look forward to hearing from you. Kind regards, Laura Laura Blatchford Substance Misuse Practitioner Peterborough Drug Services

AH	US COMPRESSION VENOGRAPHY LOWER LIMB: Clinical History : tender swollen right calf, previous right femoral DVT, previous IVDU, 4cms difference in calf circumference ENTERED BY: Jayne Sansby Ext 4301 BLEEP: 7779 US Compression venography lower limb Rt : This was a difficult scan due to the damage that the patient has caused with his previous history. Suboptimal images were produced. There was no doppler flow in the right common femoral vein and partial flow in the proximal superficial femoral vein. There was flow in the left common femoral vein. Therefore I cannot exclude the presence of a thrombus. CONCLUSION: Evidence of a DVT was seen on the scan. This examination has been reported by Sandra Booth, Advanced Practitioner - Ultrasound. Reported by: BOOTH SANDRA / RGN5R1 tender swollen right calf, previous right femoral DVT, previous IVDU, 4cms difference in calf circumference ENTERED BY: Jayne Sansby Ext 4301 BLEEP: 7779 Clinical Information: This is a courtesy copy of a request originated by NAGUMANTRY SK and requires no action US COMPRESSION VENOGRAPHY LOWER LIMB Report, Abnormal, but expected. No Further Action. Review not applicable
Thu 06 Sep 2012	10:55 - Surgery: Dr Amar Hussain (Clinical Practitioner Access Role)
AH	History: with sister at DVT clinic, another confirmed dvt, was on long term tinz for recurrent dvt but stopped 2 m ago 7mo reason, will start tinz again, also last seen in aspire on methadone and sasy no heroin 8/12
Thu 06 Sep 2012	11:04 - Surgery: Dr Amar Hussain (Clinical Practitioner Access Role)
