Examination	O/E - pulse rate	68 bpm	
Examination	O/E - blood pressure reading	138 / 64 mm Hg	
Examination	O/E - respiratory rate	18 /minute	
Examination	O/E - temperature level	36.9 degC	
Administration (P3)	Consultation Longstanding neck and back problems caused by accident 30 years ago. Feels the burning feeling in her left leg is getting worse, particularly at night. also complaining of ongoing neck and left shoulder discomfort with tingling in fingers on occasion. No urinary or bowel issues. No saddle paresthesia. Co-codamol helps a bit. Previous referral to physio many years ago but didn't really engage with services OE: Looks well, normal gait, obs stable. Tender over left trapezius. Good ROM in neck. No parasthesia noted in upper limbs. Radial/median/ulnar nerve intact. Decreased power and sensation in left leg 4/5 vs 5/5 right leg. Patient states no worse than normal. Pain likely neuropathic - couldn't remember having amitriptyline before but happy to try again. Also complaining of chronic sinus tenderness affecting left side of face. Has a discharge occasionally. No fevers. Tender over frontal and maxillary sinus otherwise well. Will try nasal spray as symptoms appear chronic.

10-May-2018	Examination	Eosinophil count x10 ⁹ /L:		
		Eosinophil count x10 ⁹ /L	0 10 ⁹ /L	(No range available)
10-May-2018	Examination	Serum ferritin: Above high reference limit		
		Serum ferritin	236.2 ng/mL	(Range: 14 - 186)
10-May-2018	Examination	Serum folate: Below low reference limit		
		Serum folate	2.4 ng/mL	(Range: 3.9 - 26.8)
10-May-2018	Examination	Haemoglobin estimation:		
		Haemoglobin estimation	14.2 g/dL	(Range: 11.5 - 16.5)
10-May-2018	Examination	Mean corpusc. haemoglobin(MCH): Above high reference limit		
		Mean corpusc. haemoglobin(MCH)	33.4 pg	(Range: 27 - 32)
10-May-2018	Examination	Mean corpusc. Hb. conc. (MCHC):		
		Mean corpusc. Hb. conc. (MCHC)	33.5 g/dL	(Range: 32 - 36)
10-May-2018	Examination	Mean corpuscular volume (MCV):		
		Mean corpuscular volume (MCV)	99.8 fL	(Range: 80 - 100)
10-May-2018	Examination	Monocyte count x10 ⁹ /L:		
		Monocyte count x10 ⁹ /L	0.4 10 ⁹ /L	(Range: 0.2 - 0.8)
10-May-2018	Examination	Neutrophil count x10 ⁹ /L:		
		Neutrophil count x10 ⁹ /L	3.3 10 ⁹ /L	(Range: 2 - 7.5)
10-May-2018	Examination	Platelet count x10 ⁹ /L:		
		Platelet count x10 ⁹ /L	215 10 ⁹ /L	(Range: 140 - 450)
10-May-2018	Examination	Red blood cell (RBC) count x10 ¹² /L:		
		Red blood cell (RBC) count x10 ¹² /L	4.25 10 ⁻²	(Range: 3.9 - 5.6)
10-May-2018	Examination	Nucleated red blood cell count x10 ⁹ /L:		
		Nucleated red blood cell count x10 ⁹ /L	0 10 ⁹ /L	(No range available)
10-May-2018	Examination	Total white blood count x10 ⁹ /L:		
		Total white blood count x10 ⁹ /L	5 10 ⁹ /L	(Range: 4 - 11)
10-May-2018	Examination	Lymphocyte count x10 ⁹ /L:		
		Lymphocyte count x10 ⁹ /L	1.3 10 ⁹ /L	(Range: 1 - 4)
10-May-2018	Examination	B12/folate level <none>:		
		B12/folate level <none>		(No range available)
10-May-2018	Examination	Full blood count - FBC	B12 and Folate results to follow.	
		Full blood count - FBC	B12 and Folate results to follow	(No range available)
10-May-2018	Examination	Haematocrit:		
		Haematocrit	0.424 L/L	(Range: 0.37 - 0.47)
10-May-2018	Examination	Basophil count x10 ⁹ /L:		
		Basophil count x10 ⁹ /L	0 10 ⁹ /L	(No range available)
10-May-2018	Examination	Red blood cell distribution width:		
		Red blood cell distribution width	12 %	(Range: 11 - 16)

10 May 2005

To whom it may concern

Joan Meighan (30.09.49)
12 Morven Avenue, Blantyre

The above named is a registered patient with our practice. Due to a number of health issues the patient herself feels she is unable to attend to her garden.

I believe South Lanarkshire Council has a facility to aid such patients.

I would therefore hope that you could address her problem.

Yours faithfully

DR M ASHRAF

Dear Miss Meighan,

As it has been brought to our notice that your current address lies out with our practice boundary we will sadly have to ask you to register with another practice within your local area.

The partners have asked me to contact you to advise you of this and to also inform practitioner services to remove your name from the practice patient list.

Should you experience difficulty in registering with another doctor, please call practitioner services on 0141 300 1300 and they will assist you.

We wish you well for the future.

Kind regards

Anne Clark
Office Manager

DEAR DR DUNN

RE: JOAN MEIGHAN, (30/9/49), 12 MORVEN AV, BLANTYRE

This 53 year old lady had a direct access exercise tolerance test on 21 June 2002.

She exercised for 9 minutes under a Bruce protocol. Her heart rate went from 69 beats per minute at rest, up to a maximum of 146 beats per minute which was 87% of maximum predicted and a workload of 10 METS. Resting blood pressure was 180/100 and maximum BP was 220/100.

The resting ECG was normal. The Technician reports that the patient complained of breathlessness and chest pain, but there was no evidence of reversible ischaemia which gives an electrically negative exercise test. She nearly achieved her target heart rate with no evidence of reversible ischaemia.

Yours sincerely

Dear Dr Dunn

JOAN MEIGHAN 30/9/49
C/O 12 MORVEN AVENUE BLANTYRE

Thank you for your letter regarding this pleasant 50 year old lady who has been having hot flushes and very heavy periods for a year or so. I understand that she had HRT for about two years about 6 years ago and then it was stopped. The periods are quite regular, coming every 28 days and lasting for about four days, but are very heavy for the first two days with the passage of clots sometimes. In the past her periods have been quite normal. The hot flushes are worst just before her periods. Her smear in 1999 was normal. She is para 1 + 1 and had her baby 19 years ago by Caesarean section because of high blood pressure and foetal distress.

On examination today her general condition was good. Her abdomen was soft with no masses. On speculum examination the cervix looked healthy, the uterus was anteverted and normal and the adnexae showed no abnormality. I managed to take an endometrial biopsy in the cavity at 8cms. We will write to you with the results of the biopsy.

Yours sincerely

Dear Doctor

This lady has been complaining of menorrhagia and dysmenorrhoea during her periods, which is a new event. She has also had intermittent intermenstrual bleeding. We examined her last year and could feel no major abnormalities. She is now flushing and sweating and is probably a candidate for HRT but I thought that I should check out her irregular symptoms prior to starting HRT.

Many thanks for seeing her.

Yours sincerely

GP

Dear Sir/Madam

JOAN MEIGHAN (30.09.49)
13 FARM ROAD, BLANTYRE G72 9AH

The above patient has presented me with an MF17A (Ref No YM600891A) requesting a doctor's medical certificate from 27.07.86 to 16.06.97.

I can confirm that in the summer of 1986 she was sent for an x-ray of her cervical spine which showed degenerative changes. Although she was not certified as unfit for work at that time she has continued to have symptoms relating to this problem throughout the subsequent decade.

When I saw her on 11.06.97 the symptoms were sufficiently severe for her to be certified as unfit for work. At this distance of time I find it difficult to ascertain from the notes whether she was unfit for work throughout this whole period of time and I would request that an independent medical examination be conducted to give judgement in this complex and difficult matter.

Yours sincerely

Dear Helen

Many thanks for seeing Mrs Meighan who complains of long standing neck pain. Known to have cervical spondylosis. The pain can radiate down her arms and back. A cervical spine x-ray was done on 16 June 1997 the result of which is as follows:

"No loss of vertebral body height or of disc space. Early posterior osteophyte formation with widespread neuro-central and early apophyseal joint narrowing is observed."

I much appreciate your assessment and advice.

Yours sincerely

DR M J SOMMERVILLE

Dear Dr. Milne,

JOHN MURPHY: D.O.B. 30.9.49
12 Morven Avenue, Blantyre.
UNIT NO: 270003

This lady attended the ENT Clinic on 7th May 1987. Thank you for your letter. About five weeks ago she had a foul smelling discharge from her left nostril and slight swelling of the cheek and left lower eyelid which she says improved after a course of antibiotics given by yourself. Since then she has had no recurrence and she is quite asymptomatic.

She is a house wife and non smoker. In the past she had a tonsillectomy at age 17 and Caesarian section seven years ago.

On examination nothing of note was found. Her nose, oral cavity, pharynx, larynx and ears were normal. There was no evidence of tenderness in the sinuses.

I have arranged x-ray of the sinuses and will let you know the results once they are through.

Yours sincerely,

12.2.85.

Dear Dr. Sullivan,

Joan Meighan,
12 Morven Ave,
Blantyre.

Patient says her symptoms
have improved after a short course of
I. R. & exercises. She will now
continue with them at home.
She was discharged today.

Yours faithfully
Helen A. Peck.

HAEMATOLOGY *Normal Values*

HAEMOGLOBIN

Men	135 - 180 g/l.
Women	115 - 165 g/l.

HAEMATOCRIT (Packed cell volume, PCV)

Men	0.40 - 0.54 l/l
Women	0.35 - 0.47 l/l

RED CELLS

Men	$4.5 - 6.5 \times 10^{12}/l$
Women	$3.9 - 5.6 \times 10^{12}/l$

MEAN CORPUSCULAR HAEMOGLOBIN CONCENTRATION (MCHC)

Adults	320 - 360 g/l
--------	---------------

MEAN CORPUSCULAR VOLUME (MCV)

Adults	80 - 100fl.
Infants (Full Term Cord Blood)	106fl. (Mean)
Children 3 months	95fl. (Mean)
Children 1 year	70 - 86fl.
Children 3 - 6 years	73 - 89fl.
Children 10 - 12 years	77 - 91 fl.

M.C.H.

28 - 32 pg.

RETICULOCYTES

Adults	$10 - 120 \times 10^9/l$
--------	--------------------------

LEUCOCYTES

Adults		$4.0 - 11.0 \times 10^9/l$
Infants (Full Term 1st Day)		$10.0 - 26.0 \times 10^9/l$
Infants 1 year		$6.0 - 18.0 \times 10^9/l$
Children 4 - 7 years		$5.0 - 15.0 \times 10^9/l$
Children 8 - 12 years		$4.5 - 13.5 \times 10^9/l$

DIFFERENTIAL LEUCOCYTE COUNT

Adults	Neutrophils	$2.0 - 7.5 \times 10^9/l$
	Lymphocytes	$1.0 - 4.0 \times 10^9/l$
	Monocytes	$0.2 - 1.2 \times 10^9/l$
	Eosinophils	$0.04 - 0.4 \times 10^9/l$
	Basophils	$0.01 - 0.1 \times 10^9/l$

PLATELETS

$150 - 400 \times 10^9/l$

SEDIMENTATION RATE (method of Westergren)

Age dependant

Men	$\frac{\text{Age of Patient}}{2}$	= Top of Normal Range
Women	$\frac{\text{Age of Patient plus 10 years}}{2}$	= Top of Normal Range

Address

Physiotherapy Department
Blantyre Health Centre
Victoria Street, Blantyre
Tel: 01698-727864

Dear Doctor, Ashraf

Your Patient Joan Maighan

D.O.B.

of 12 Monach Ave. Blantyre

has received treatment from the physio

Department

on an Outpatient / domiciliary basis from 23.10.03

to 24.11.03

Condition hx a.sialia

No. of Treatments 3

Cost

☐ Patient requires further treatment: please sign if in agreement.

Signature

Please return to above address

The outcome of Treatment is as follows:-

1. ☒ Symptom Free Satisfactory

2. ☐ Improved to limit

3. ☐ Minimal Improvement

4. ☐ No benefit from Treatment

5. ☐ Unwilling/Unable
to co-operate

6. ☐ Failed to attend
Failed to complete

Comments:

☐ Report Enclosed

has ↑ range of lumbar spine extension & only
minimal leg pain. Discharged to do
main an a regular programme of exercise
a back care.

Yours Sincerely

J. Macgregor

Dear Ms Meighan

I am pleased to tell you that your recent breast X-ray examination carried out on 08/10/2004 was satisfactory.

You will be invited for your next screening in about 3 years time. If you change your address, please inform your doctor - we do not want your next appointment to go astray.

If you will be 70 or older in 3 years time, you will not automatically be invited for screening, but you could make an appointment then by contacting the centre (Tel: 0141-572-5800).

It is important to remember that the screening procedure detects changes but does not prevent any changes in the future, and therefore, whatever your age, should you notice any change of any kind in your breasts, please contact your doctor.

Yours sincerely

Dr Hilary M Dobson FRCP (Glasg) FRCR

Notes for patient: PREGNANCY RISK

these antibiotic tablets can cause FAILURE of your contraceptive pill.

To prevent this -

* keep taking your pill as normal

* ALSO use CONDOMS during the antibiotics

* AND for 7 DAYS AFTER

* If this takes you past the END of your pack of contraceptive pills

* then start the next pack STRAIGHT AWAY, WITHOUT TAKING your week's break.

SPEAK TO YOUR GP or PRACTICE NURSE if if you need any further advice Dr Mobeen Ashraf

23rd March 2010

Dear Patient,

You failed to attend an appointment today at 11.40 to have your smear. This is a very important test which enables cervical cancer to be detected and treated at an early stage. Early treatment greatly improves the likelihood of success of treatment. The doctors would strongly recommend you to have a smear test. I would also like to remind you that 10 minutes of the nurses time was wasted as you failed to cancel the appointment. If you do not wish to have a smear please call the surgery and a disclaimer form can be provided.

Yours truly,

Dr J.M Simpson

Dear Dr. D Simpson

PATIENT: Ms Joan Meighan
13 Morgan Street
Hamilton
ML36RJ

Your patient has not attended the Breast Screening Centre, after having been sent two invitation letters. Please file this letter in her case notes. If she changes her mind, we would be pleased to see her at any time **up to 30 months** after her original appointment, which was scheduled for 12/08/2010.

Otherwise, she will be invited again in three years' time.

Yours sincerely

SHOULD THE PATIENT BE TREATED WITH MILITARY VETERAN PRIORITY : No
Is Patient Transport Required: No

CLINICAL INFORMATION**History of presenting complaint / examination findings / investigation results****Presenting complaint**

Main presenting Complaint: Visual field defect

Reason for Referral: This 65 year old lady has had a left eye upper outer quadrant filed defect detected by her optician. She has a history of hypertension but no previous strokes or stroke like events. She denies any symptoms suggestive of this. I would be grateful for your assessment. She also has flame haemorrhages in her right eye and I am arranging blood tests to exclude diabetes.

PATIENT HEALTH QUESTIONNAIRE (PHQ-9)

NAME: OWEN MCGILVER DATE: 28/9/11

Over the last 2 weeks, how often have you been bothered by any of the following problems?
(use "✓" to indicate your answer)

	Not at all	Several days	More than half the days	Nearly every day
1. Little interest or pleasure in doing things	✓			
2. Feeling down, depressed, or hopeless	0	1		
3. Trouble falling or staying asleep, or sleeping too much	0	1	✓	
4. Feeling tired or having little energy	0	1	✓	
5. Poor appetite or overeating	0	1	✓	
6. Feeling bad about yourself—or that you are a failure or have let yourself or your family down	0	1	✓	
7. Trouble concentrating on things, such as reading the newspaper or watching television	✓			
8. Moving or speaking so slowly that other people could have noticed. Or the opposite—being so fidgety or restless that you have been moving around a lot more than usual	✓	1		
9. Thoughts that you would be better off dead, or of hurting yourself in some way	✓			

add columns: 10

TOTAL: 10

10. If you checked off any problems, how difficult have these problems made it for you to do your work, take care of things at home, or get along with other people?

Not difficult at all _____
Somewhat difficult _____
Very difficult _____
Extremely difficult _____

Dear Dr. D Simpson

PATIENT: Ms Joan Meighan
13 Morgan Street
Hamilton
ML36RJ

Your patient has not attended the Breast Screening Centre, after having been sent two invitation letters. Please file this letter in her case notes. If she changes her mind, we would be pleased to see her at any time **up to 30 months** after her original appointment, which was scheduled for 28/10/2013.

Otherwise, she will be invited again in three years' time.

Yours sincerely

Visual Fields

Abnormal

LE Disc Appearance

Healthy

Reason for Referral: Field Defect, Other

Mrs Meighan attended for a routine sight test. On exam a small flame haemorrhage was noted inferior to the disc in the RE. This may be indicative of diabetic retinopathy so I have advised Mrs Meighan to attend yourself to be tested for diabetes. A left sided superior field defect was also picked up with screening fields. This may have been caused by a stroke but Mrs Meighan did not report any previous problems. Further investigation is indicated. Many thanks.

Yours Sincerely,

Fiona Wedlock

GOC/GMC No.: 01-22154

Bowel Screening
Helpline Number: 0800 0121 833

Dear Doctor,

Your patient **3009495005**, **JOAN MEIGHAN**, **13 MORGAN STREET**, **HAMILTON**, . . . **ML3 6RJ**
was invited to participate in the Bowel Screening Programme on **29/09/2014**

It is 3 months since your patient was sent a bowel screening invitation and bowel screening test kit. As of today's date your patient has not participated. At 6 months your patient will return to re-call and be invited again in two years time.

Anything your GP Practice can offer to help your patient's awareness and understanding of the benefits and risks of the Bowel Screening Programme would be appreciated - this will help them to reach an informed decision regarding participation.

If your patient no longer has their screening kit, it is possible to request another by calling the Scottish Bowel Screening Helpline on 0800 0121 833

Yours sincerely

Professor Steele
Clinical Director

Additional Administrative Information
Name of person making referral : P Massetti
SHOULD THE PATIENT BE TREATED WITH MILITARY VETERAN PRIORITY : No
Is Patient Housebound?: No
Is Patient Transport Required: No

CLINICAL INFORMATION**History of presenting complaint / examination findings / investigation results****Presenting complaint**

Main presenting Complaint: Left sided back and buttock pain

Reason for Referral: Longstanding neck and back problems caused by accident 30 years ago. Feels the burning feeling in her left leg is getting worse, particularly at night and also complaining of neck and left shoulder discomfort with tingling in fingers on occasion. No urinary or bowel issues. No saddle paresthesia. Co-codamol helps a bit. Previous referral to physio many years ago but didn't really engage with services OE: Looks well, normal gait, obs stable. Tender over left trapezius. Good ROM in neck. No parasthesia noted in upper limbs. Radial/median/ulnar motor function intact in upper limbs. Tender on deep palpation of left buttock with decreased power and sensation in left leg 4/5 vs 5/5 right leg. She is happy to try further exercises to try and improve current symptoms and has agree to physio.

Investigations

Has the patient severe unremitting pain?: No -
Is the patient off work as a result of the present condition?: No -
Is the patients sleep disturbed by the condition?: Yes -

Reason for referral

Care type requested: Out Patient
Expected outcome: Investigate

Dear Dr McElroy,
 Date: 06/09/2022
 Enquiries: 01698 687442

Patient Name: Joan Meighan
Patient date of birth: 30/09/1949
Patient Address: 23 James Murdie Gardens, Hamilton, ML3 0RT

Presenting Complaint

Neck pain

Outcome

- | | |
|--|---|
| ☐ Symptom free | ☐ Treated and discharged with advice |
| ☒ Reduction in symptoms | ☐ Triaged and discharged with advice |
| ☐ Minimal improvement | ☒ Treated – open appointment, no further treatment sought |
| ☐ No benefit | ☐ Triaged – open appointment, no further treatment sought |
| ☐ Failed to Opt in | ☐ Referred to GP / consultant / other |
| ☐ Failed to attend initial assessment | ☐ Equipment supplied |
| ☐ Failed to complete treatment | ☐ Met agreed goals |

Additional Information

Ms Meighan attended one physiotherapy session for longstanding neck pain. We discussed further management strategies which the patient was happy to self-manage with. The patient has not rebooked therefore discharged from physiotherapy.

If you require any further details of this patient's condition, treatment programme or response to treatment, please email MSKHUB@lanarkshire.scot.nhs.uk including the patient's CHI number.

Kind regards,

Jessica Watt
Physiotherapist
