Medical History

04/07/2022 SMS text message sent to patient Unfortunately, due to staff illness and booked annual leave, we are shorter on Clinical Staff this week than we would like. We remain open and are still able to provide a safe service and urgent medical cover. If your problem can wait until next Monday, there will be more GPs available then to call you back and arrange to see you for assessment as required. Thank you for your understanding. Wester Hailes Medical Practice. {Patient Group All Patients} Ms Tracey Herriot

23/05/2022 SMS text message sent to patient To help safely manage demand for our service, we have reviewed our appointment system. From Monday the 30th May 2022, you will still phone and speak to a patient care advisor, who will arrange a callback with a member of our clinical staff. When we have reached full capacity for the morning slots, we will move to urgent requests only and ask you to call back after 13:30pm for a routine callback in the afternoon. We will be closed between 12:30 and 13:30 Thank you for your understanding/cooperation, Wester Hailes Medical Practice {Patient Group Active Patients Aged 16 And Over Who Have Consented} Ms Tracey Herriot

29/04/2022 Administration NOS Universal Credit form posted to them. AN/GC Dr Anna Noble

30/03/2022 Administration Universal Credit form dated 23/3/22. Received 29/3/22. Scanned and passed to AN on 30/3/22 Ms Liana Kontou

03/03/2022 Administration ext to sickline requested - passed to cm for scanning Mr Gordon Senior

10/02/2022 SMS text message sent to patient Dear Patients, This week and next week we are unfortunately really short staffed. As always, we will try to help as many patients as possible, as quickly as possible, however, we ask if you can please bare this in mind when contacting us or awaiting a reply. We are trying our absolute best to provide the best service we can given the current situation. Thank you for your understanding. Wester Hailes Medical Practice Team {Patient Group All Patients} Miss Samantha Dorans

08/02/2022 SMS text message sent to patient Our online E Consult service will be unavailable from Friday 11th February from 4pm and will be available again from Monday 21st February. We apologise for any inconvenience. Kind regards WHMP {Patient Group All Patients} Miss Samantha Dorans

03/02/2022 Administration missing sick line - duplicate issued patient will come to front desk Ms Dawn King

02/02/2022 Telephone encounter Phone follow up, has yet to attend walking group, has had things on but intends to try next week. Didn't wish to consider any further activity, tells me he feels he is doing ok. On waiting list for counselling, no further CLW input Ms Julie Roxburgh

19/01/2022 Administration NOS Med3 request 28/1/22 for 42 days - Endogenous depression. Passed to Colin for processing. Ms Jennifer Fergusson

12/01/2022 Telephone encounter Phone appointment- feeling very low in mood and unmotivated, spends most of his time in the house alone. Lost job in april last year, doesn't feel ready to go back to work but doesn't wish to spend the next 7 years unemployed before retiring. Discussed activities, something to help get William out the house, agreed to consider walking group- will refer active steps and ask Kim to call to introduce herself. Also discussed counselling, referred to THA. Further discussion around ACES and mental health, William finding this really helpful to aid understanding of why he feels the way he does. Agreed f/u in 3 weeks and hopes to join walking group next week Ms Julie Roxburgh

06/01/2022 Consultation Mood still feels flat, nil SI but observes disrupted sleep and being more withdrawn and socially isolated. Problems with numb legs and fears that he might have an accident prevents him from making journey to Lanark to see his daughter. However her regularly drives in town without incident. Suggest making journey which he has agreed to plan. Overall think focus should be on behaviour activation. Ha agreed to have contact from Julie CLW to discussions of activities which may help improve wellbeing. Mr Paul Novak

23/12/2021 Administration DNA for appt, nil contact. Mr Paul Novak

21/12/2021 Immunisation course maintain protection against SARS-CoV-2 MAINT C-19 Booster Moderna (J Brown)

21/12/2021 SMS text message sent to patient Due to the new Omicron variant as always we encourage our patients to have a PCR test with any new symptoms. Our reception team will ask if you have had a PCR test (not a lateral flow test) when calling with COVID related symptoms. Please have this important information when calling the practice, WHMP {Patient Group All Patients} Miss Samantha Dorans

17/12/2021 SMS text message sent to patient To provide safe cover to our patients over the festive period, econsults have been turned off temporarily, and will recommence week beginning 17th January 2021. Thank you for your understanding, WHMP {Patient Group All Patients} Miss Samantha Dorans

17/12/2021 Administration NOS Med 3 posted. Mrs Irene Scott

10/12/2021 Alert received from telehealth monitoring system SICKLINE: ive been seeing the mental health nurse for depression, and having numbness in my feet and hands, im struggling to sleep or concentrate and dont think im fit for looking or actually working. "Thank you for your recent eConsult request. Your request has been passed on to one of our doctors and will be posted to your home address. This can take up to 7 days to process. Mr Colin McBain

10/12/2021 SMS text message sent to patient Dear patients Over the festive period we will be open the following days; Friday 24th December 2021 Open Wednesday 29th December 2021 Open Thursday 30th December 2021 Open Friday 31st December 2021 Open Wednesday 05th January 2022 Open Thursday 06th January 2022 Open Friday 07th January 2022 Open Monday 10th January 2022, Normal Business Hours. 09/12/2021 Telephone encounter 2nd consult. Mood dropped again lethargic, anhedonia and hopeless. Lost job let go. Confusing as to why didn't seem interested in reason for being let go. Not enthusiastic or asking enough questions. Seemed uninterested in exploring this further. Unusual outlook suggest inc Fluoxetine to see if efficacy dropped off and invited in for F2F picture becoming more complicated. Mr Paul Novak

17/11/2021 SMS text message sent to patient Good Morning Today we are very short of GP's. As a result we are offering a reduced service. We appreciate your patience and understanding at this time. Our practice website will give you information of what services are available from your local pharmacy. Kind regards WHMP. {Patient Group All Patients} Miss Samantha Dorans

11/11/2021 Telephone encounter Missed next appointment, made appt to let me know has responded to Fluoxetine huge improvement in wellbeing and has returned to work. Agreed remain on current dose and review in 4 weeks by phone. Mr Paul Novak

04/11/2021 SMS text message sent to patient Hi I tried to call today. Please contact the practice if you would like to speak to me. Paul Novak Mental Health Nurse. Mr Paul Novak

15/10/2021 Telephone encounter Denies any improvement in mood but tolerating and concordant reports nil SE. Reassured regarding delayed response worthwhile waiting. Review in a few weeks. Mr Paul Novak

08/10/2021 SMS text message sent to patient Dear Patients, Unfortunately during the month of October 2021 we are short staffed due to a combination of factors including clinical and administrative staff illness, leave and covid restrictions. As always, we will endeavour to help as many patients as safely and quickly as possible. We ask for your understanding when contacting us or awaiting a reply. We are trying our absolute best to provide a safe service under extreme pressure. We also need to advise you that prescriptions are taking between 7-10 working days to process so please be mindful of this and request your medication via the pharmacy with this in mind. Our whole team including our reception team are doing all we can in a really difficult situation. Our Patient Care Advisors on the phones and at reception desk are experiencing a high level of patient frustration, which is understandable (we are frustrated too!), however this has a serious impact on their working day and own health, so we are asking you to please be kind. We know people are worried and feeling unwell. We want to help. Your understanding and co-operation is greatly appreciated. Wester Hailes Medical Practice {Patient Group All Patients} Miss Samantha Dorans

04/10/2021 Consultation Presenting with low mood, insomnia, loss of appetite, anhedonia and hopelessness. Denies SI but often wishes he didn't wake up. Recently made redundant and finds it difficult to maintain relationships with his children and grandchildren. Feels these issues are life long but has never before asked for help. Intuitively makes links with childhood trauma step father was physically and verbally abusive for years. Mother did not protect him and only escaped abuse when left home to join RAF. Spent time doing psychoed around depression and emotional development in context of ACES. Agreed worthwhile trialing AD and will have f/u to discuss further Tx options likely some form of talking therapy. Plan call in 2/52. Mr Paul Novak

28/09/2021 SMS text message sent to patient Unfortunately due to last minute staff sickness we have no Emergency doctor this afternoon. Please only call the practice if you have a medical emergency. Kind Regards Wester Hailes Medical Practice {Patient Group All Patients} Miss Samantha Dorans

06/08/2021 SMS text message sent to patient Dear Patients, Unfortunately during the month of August 2021 we are short staffed due to a combination of factors including clinical and administrative staff illness, leave and covid restrictions. As always, we will endeavour to help as many patients as safely and quickly as possible. We ask for your understanding when contacting us or awaiting a reply. We are trying our absolute best to provide a safe service under extreme pressure. We also need to advise you that prescriptions are taking between 7-10 working days to process so please be mindful of this and request your medication via the pharmacy with this in mind. Our whole team including our reception team are doing all we can in a really difficult situation. Our Patient Care Advisors on the phones and at reception desk are experiencing a high level of patient frustration, which is understandable (we are frustrated too!), however this has a serious impact on their working day and own health, so we are asking you to please be kind. 15/07/2021 On repeat dispensing system Lloyds.WH Ms Alison Wallace

15/07/2021 Other medication management Review of notes for suitability for MCR SRxAs below ramipril added to rpt

31/05/21 see entry. 5+ issues remain of items on rpt, transferred to 56wk MCR SRxNb 6/12 of statin issued since March '21, suggest pt has sufficient supply at home to synchronise with htn medication Ms Alison Wallace

29/06/2021 SMS text message sent to patient Due to a number of staff having to self isolate, Wester Hailes Medical Practice will be running a reduced service this week. Patient and staff safety is our highest priority. If your call is not urgent, we may ask you to contact us again in a week or so. You will be seen at the practice if needed, we are not closed. We will continue to safely assess and manage your health problems over the phone as appropriate. Please remember Pharmacies and other community services can provide support for a number of health issues. We apologise for any inconvenience this may cause and we appreciate your continuing support at this time. We will keep you informed of any changes. Many thanks, Tracey Herriot, Practice Manager. {Patient Group All Patients} Ms Tracey Herriot

17/06/2021 SMS text message sent to patient Help stop the spread of Covid-19 in your community. Get tested even if you don't have symptoms and help protect your community. Wester Hailes Library, 1 Westside Plaza Monday 21st June to Saturday 26th June 9am-6pm. Call 0131 200 2306 for self-isolation support. [Edinburgh.gov.uk/communitytesting](https://www.edinburgh.gov.uk/communitytesting) {Patient Group All Patients} Miss Samantha Dorans

03/06/2021 SMS text message sent to patient We would like to advise you that we are changing our on the day routine call back system as from Monday 7th June 2021. Instead of calling at 8am and 2pm, patients are advised to call in the morning or use econsult. There will be a maximum call capacity. Due to high demand we strongly advise patients to call as close to 8 o'clock as possible. Our Patient Care Advisors may ask you to call back another day depending on availability. If you require urgent medical attention please contact the practice at any time, as before and our Patient Care Advisors will be happy to assist you. Regards, WHMP {Patient Group All Patients} Miss Samantha Dorans

31/05/2021 Telephone encounter HTN meds review please. BP stable. u&e sent on 28/05/21. If bloods ok? add Ramipril 2.5mg to repeat pls. Thank you. Note below, BP well controlled and U&Es normal, eGFR >60, spoke with pt who is happy to c/w ramipril for now, added to repeats for ease of re-ordering. L Aitken locum Dr Laura Aitken

03/03/2021 Telephone encounter called in response to my letter- high assign score. awaiting neuro rv re mononeuropathy. tells me few days ago started with slight numbness pinky finger left hand and cramp left little toe. No other changes. Appeared when woke in moening. I don't think significant but if anything else new whilst awaiting neuro to let us know. Chat about lifestyle = no rady to stop smoking, lives alone, doet not great, lots processed meats and not much veg. Will think about inc veg and curting down processed food. Keen to start statin- 20mg atovra, bloods in 6w. I see has BP fu with Jiao EM Dr Eva Mahler

26/02/2021 Administration NOS ASSIGN score 29% and Hba1c within notrml limits but upper range of normal. Letter asking to contact t dw GP or PCN - should probably be on statin EM Dr Eva Mahler

24/02/2021 Consultation attended for bp check and bloods today. Bp's high, No H/O of T2DM or CKD. Not coded as HNT. or on any meds. not regular attender. last bp readings was 11 years ago. overal health information updated. advised pt to keep home bp diary, bp monitor sheets given. appt booked 09/03/21 for bp review. wosen advice given. if noticed bp systolic consistantly high 200, 190, 180, pt feels unwell. then get in touch with us and come back sooner. JF Ms Jiao Foster

18/02/2021 Consultation Seen in surgery. Pt demonstrated where feeling the numbness - Medial aspect of toe, anterior ankle, lateral calf to mid-calf (all in one line). Then some altered sensation/discomfort feeling top of lateral thigh. Describes foot drop and having to kick the foot out on movement. Pt also reports that calf has shrunken recently. O/E - Walking with limp though not antalgic. Tone normal bilateral lower limbs. Note reduced muscle bulk right calf compared to left. Power 5/5 left lower limb. Right lower limb 5/5 hip flexion, 4/5 knee flexion, 5/5 knee extension, 5/5 foot plantar flexion, 4/5 foot dorsiflexion but reduced dorsiflexion compared to left. Knee reflexes ++ and symmetrical bilaterally. Unable to elicit ankle reflexes. Plantar downgoing on left, upgoing on right. Sensation intact light touch L3-S2, some subjective reduced sensation compared to right but only at tip of big toe. Power 5/5 and symmetrical bilateral upper limbs all movements. Sensation intact light touch and symmetrical bilateral upper limbs. No arm drift with arms extended and eyes closed. No facial droop, facial nerve intact. Visual fields intact. Imp: ?Peripheral mononeuropathy Plan:-Bloods and repeat BP with PCN. To phone up one week afterwards for results. -I will write to neuro ?need for further investigation and also will ask physio to see. -In the meantime advised if any new symptoms or becoming worse/spreading to get back in touch with surgery. Dr Bryan Jackson

17/02/2021 Telephone encounter Phonecall with patient. 3-4 weeks right leg numbness. Top of foot, ankle and going half-way up leg. Lateral aspect of right leg. Some discomfort at top of leg, unclear when started. There all the time but felt as worse (both pain and numbness) in evening when lying in bed. No left leg symptoms. No incontinence/perianal numbness. Some numbness off and on left pinky finger and medial aspect of hand longstanding. No right arm weakness/numbness but describes it as 'tight'. No facial droop/change in speech/vision. Imp: Sounds like trapped nerve given discomfort and lateral aspect of numbness. Does not sounds like CVA. Plan:-Appt given for tomorrow with myself. Discussed CVA symptoms, for 999 if occur. Dr Bryan Jackson

17/02/2021 Failed encounter ringing out Dr Sharon Stewart

13/09/2017 Nursing care cme for ear irrigation r ear-checked and soft wax seen. appears to have no contraindications to ear irrigation. has v much reduced hearing in left ear. ear irrigation machine seemed to be not fully powering-battery light coming on though all connections checked, plug in and swiched on at 2 points. gentle stream of water still coming so thought might be sufficient power to irrigate ear-only managed approx 3 seconds however. Mr Ferguson then became v angry as said hearing now worse-explained would be due to presence of water only as stream force v minimal, but he left angrily shouting in corridor. I did apologise about machine-I would suggest continue instilling oil when lying on side, but too angry to listen
