NHS Tayside Communication to GP

Ward/Clinic		CHI	2206880318
Hospital	Ninewells Hospital	Surname	TARBETT
Clinician	Sandra Strachan	First Name	MICHAEL
Date	15/05/2020	Address	7D BONNETHILL COURT DUNDEE DD3 7AZ
		GP/Address	Terra Nova Medical Practice LLP Terra Nova House 43 Dura Street Dundee DD4 6SW
Dear Doctor,			
The above patient was reviewed today; please accept this brief communication.			
Provisional/Diagnosis is: SARS-CoV-2 - not detected			
Comment/Recommendations: Your patient has participated in a national Enhanced Surveillance Programme for COVID-19. Their COVID-19 test result was negative. Interpretation of negative results in this context needs to be careful and as such this patient has been given advice to self-isolate with their household as if the test result was positive. They have also been given worsening advice in line with agreed national guidance. No follow-up is provided.			
Follow up by clinic required: No			
Specific Monitoring Required: No

Dear Doctor

Mr Michael Tarbett
18 Balgarthno Road
Dundee
DD2 4QN

Date of Birth: 22/06/1988
ACHI Number: 2206880318
ED Attendance Number: E0000229812
No. of Previous Attendances: 0
Occupation:
School:
Responsible Consultant: Dr Ronald Cook

The above patient attended the Emergency Department Ninewells Hospital on 08/08/2020 at 14:26 and was discharged with follow up by the primary care team on 08/08/2020 at 17:45. The letter has been collated by Dr Jasitha Chandrasena.

Diagnosis:		
Description	Body Site	Laterality
ED injury - wound - Bite human		

Diagnosis Comments: Bitten by stranger on left index finger. 2 Sutures put in place following ring block. Blood for storage taken. Co-amoxiclav prescribed for 7 days.

Gp Follow up.
1. Accelerated course of hep B vaccination
2. sutures to be taken out in 5-7 days

Procedures:

Prescriptions: Co-Amoxiclav 500/125: 1 tablet x 3 times daily (21 tablets)

Discharge Destination: Residential institution - Usual place of residence

Discharge Type: Discharged with follow up by the Primary Care team

Referred To:

Notes for GP:
Seen by J.C at 16:10

- Patient was drunk last night and unable to recall most of the events. Was assaulted walking home.

- Human bite on left index finger

O/E (Left hand examination)

- Swollen left index finger at DIP

- Surrounding erythema around DIP

- Skin laceration <1 cm

- Reduced joint mobility around DIP

- Sensation reduced in comparison to right

Plan

1. Senior R/v By J.G

2. Clean and 2 sutures put in place

3. Blood for storage taken

4. Co-Amoxiclav 625 mg TDS for 7 days

5. Advice given to patient to follow up with GP for accelerated course of Hep B and for sutures to be removed in 5-7 days

Plan for GP

1. Accelerated course of Hep B

2. Sutures to be taken out in 5-7 days

JG ST6

As above - poor recollection of events but believes he has been bitten. Unknown assailant.

Tissue flap over middle phalanx on volar aspect of finger, base of flap at DIPJ. Flexor mechanism intact. Finger NV Intact.

Digital nerve block applied and wound extensively irrigated and scrubbed. Small area of fat debrided. 2 loose sutures applied to approximate wound edges but not tightly closed.

As per BBV guideline does not meet criteria for HIV PEP. Plan as above.

Yours sincerely

Dear Dr Brown

Michael Tarbett, 7D Bonneathill Court, Dundee, DD3 7AZ DOB: 22/06/1988

Medication: Prescribed Sertraline 50mg daily by GP.

Situation: Mr Tarbett was referred to ISMS by the Mental Health Liaison service on 27/08/20 and a telephone assessment appointment was arranged for 08/09/20.

The service attempted to call him several times that day but he did not respond. He was then given the option of contacting the service by 28th September 2020 to arrange another telephone assessment appointment.

He has made no contact with the service and it is therefore appropriate to discharge him from ISMS meantime.

Should he require any support or treatment from ISMS, in the future, he can self refer to the service.

Yours sincerely

The above patient attended the Emergency Department Ninewells Hospital on 09/08/2025 at 21:45 and was discharged with follow up by the primary care team on 10/08/2025 at 00:06. The letter has been collated by Dr David MacKinlay.

Diagnosis:		
Description	Body Site	Laterality
ED injury - wound - Other		

Diagnosis Comments:

Notes for GP:

Investigations: Clotted Blood for Storage e.g. baseline

Procedures:

Prescriptions:

Discharge Destination: Private Residence - Usual place of residence

Discharge Type: Discharged with follow up by the Primary Care team

Referred To:

ED Clinical Notes:
Mackinlay SD @ 0908 10/08/25
Stream 1. Self-referral. Seen alone.

PC: ?injected

HoPC 7d ago was at a party - heavily intoxicated. Remembers two people being at the party who used drugs - thinks went to one of their flats afterwards but due to alcohol is unable to remember events.

Since has noted small wound to dorsum of Left hand - concerned that he has been injected with drugs and could have contracted a BBV.

Note Hx of health anxiety.

OE: Looks well. Obs normal. Independently mobile. Tiny dry wound to dorsum of Left hand - no surrounding bruising.

Given ambiguity treated as possible - for Energix B today - bloods taken for storage and letter sent to GP for F/U of completion of course of Energix B (note had 1x vaccine last year). Is well outwith window for PEP and wouldn't meet criteria anyway.

ED Nurse Notes:

Dear Dr. Sullivan,

31 Lumsden Park

MICHAEL TARBETT, YOUNG PERSON'S UNIT, DUNDEE

? our patient?
48.

Admitted: 8.2.04 Diagnosis: 9.2.04 Diagnosis: Head injury

This 15 year old boy was walking in fields when he was struck on the head by an object, possibly a stone. He felt initially dizzy and vomited 3 times but had no loss of consciousness and no amnesia for the event. On arrival in the Department he was slightly drowsy but orientated and had no focal neurological signs. In view of his drowsiness he was admitted to the short stay ward for observation overnight.

On review the following day he was well, neurologically intact, fully conscious and therefore discharged home.

Yours sincerely,

SHOBHAN THAKORE
Accident and Emergency Consultant
