EPS.

Georgie up and ready this am although very quiet, then out to her Art project. Georgie was referred early due to getting involved in an argument with another yip. On her return Georgie became upset as she did not take any responsibility for her part in this although information we had stated otherwise. Georgie did calm and was able to have a conversation with myself. I discussed with Georgie the impact it would have on her if she carried out the threats she was making towards this other yip. Georgie at first refusing to listen but eventually listened. Georgie upset at her mum concerning contact and Georgie agreed she would not come today either. Tried to re-assure Georgie that staff would support her at this time and that she should talk to staff when feeling upset and let down.
