Throughcare

**Text:** Georgie has had involvement with throughcare since she was 15.5 years old. After moving out of Harley Place CU, she was accommodated at Ardrossan hostel before getting a tenancy after a series of moves into different temporary accommodation options. The tenancy was short lived and Georgie abandoned the property and moved out of the area. There was then a couple of years of tracking Georgie around the country including Fife, both Lanarkshires and Dumbartonshire. She appeared to move from property to property and from relationship to relationship. All of her relationships appeared to be with young people who had additional needs of some sort. Georgie had a child, Oscar in 2011

who was removed at birth by North Lanarkshire council following a number concerns being raised at the pre-birth case conference. Georgie went on to have a second child, Maggie, in 2012 who was also removed by North Lanarkshire council. Both children have now been adopted. There have been ongoing concerns by staff at throughcare over Georgie's apparent friendships with vulnerable young people who she might then introduce to people with a history of child abuse. Given this concern, throughcare have tried to keep in contact with Georgie to ascertain the risk she might pose to younger people and in checking that she is not pregnant. However, Georgie was 21 in December 2012 and has now been allocated a tenancy in Stevenston. Throughcare will provide some assistance to move her into the tenancy but her case is now closed to throughcare.

She is keen to access accommodation but has not done what she has been asked to do. There have been a couple of standby referrals for domestic violence between Georgie and her previous partner with whom she should have no contact due to bail conditions. I updated standby service regarding her children, Oscar and Maggie, who she often refers to. Both children are subject to POs by N Lanarkshire Social Services. Today Georgie is in custody appearing at Kilmarnock Sheriff Court for breach of bail.

**Context:**

**Text:** Georgie sent me a text on 26/2/12 at 8am asking me to call her. When I did, she said she thought she was in labour and was at a house in Saltcoats. I told her to call an ambulance when her answers to my questions suggested that she was well into the labour process. She eventually arrived at Crosshouse at 9.20am which was confirmed by health staff. I contacted N Lanarkshire out of hours to let them know what was happening.

I received various texts from Georgie and eventually went to Crosshouse at 1.15pm. Prior to going into the hospital, I contacted D [REDACTED] to alert him to the situation and the fact that there would be a CPO as Georgie's family had contacted the press when [REDACTED] was born last year.

Present with Georgie were [REDACTED] and [REDACTED]. Georgie had had a daughter at 12.40pm. I spoke with the medical staff who informed me that N Lanarkshire social workers were en route with the CPO. Georgie was aware of what was going on as the midwives had informed her of the CPO. [REDACTED]

[REDACTED] I eventually left Crosshouse at 3.30pm. I advised [REDACTED] of the reception she might get when she arrived with the CPO. She called me around 5.30pm to advise that the order had been served. I had contact with midwives who said that Georgie had left the hospital with her friends to go to either [REDACTED] with [REDACTED] with [REDACTED]

I received a telephone call from [REDACTED] today to ask if we'd had contact from Georgie as she was in Glenrothes to visit her but Georgie was not at home. Georgie did reply to a text and stated that she was in Dundee as her uncle was in hospital. When I managed to contact Georgie, she said that she had been visiting her uncle who was ill in Greenock. I had also had a call earlier from a male who said he was Georgie's brother and he asked if I had told Georgie to delete him from Facebook. I said I had no idea what he was talking about. When I asked Georgie about this, she said she didn't know what this was about.

Georgie also implied she was planning to move to North Ayrshire. Her mother gave me info about a young woman called [REDACTED] who lives in Saltcoats that Georgie has been contacting via Facebook. **Text:** I received a call from Crosshouse hospital last night to say that Georgie had given birth to a baby boy [REDACTED]. Airdrie SW were already at the hospital and were in the process of obtaining a CPO. I contacted Airdrie out of hours service to try to ascertain when they proposed to take the baby as staff from throughcare would like to support Georgie through this time. However, they did not call me back.

Georgie called first thing this morning to say that Oscar had been removed last night. [REDACTED] and I went to Crosshouse. Georgie was understandably very distressed and Anne and I attempted to explain why this action had been taken. We attempted to contact SW at Airdrie but no-one was available to take our calls. Georgie was discharged and we took her to her friend, [REDACTED], house in Dalry. Ante-natal care was arranged. We then received a call from [REDACTED] who spoke to Georgie and informed her that a children's hearing would take place on Monday afternoon. We gave Georgie fares to get to Airdrie and advised her to seek legal advice.

**Text:** I have kept in contact with Georgie by phone and text. She called me yesterday to say that she was in Airdrie with [REDACTED] having gone there to collect items for the baby, with no finances to return to North Ayrshire. I advised her that as it was a bank holiday I was unable to help her. She planned to stay in Airdrie overnight and return to Dalry today as she is due to be admitted to Crosshouse hospital this afternoon to have the birth induced.

I updated [REDACTED] at Airdrie as to Georgie's current information. She said that she would visit Georgie's address in Airdrie. I attempted to contact community midwife to check if anyone had had contact with Georgie but could only leave a message asking for someone to contact me. I also spoke to [REDACTED] to check if she had heard from [REDACTED] and she agreed to try to contact her and keep me updated.

YMCA have put Georgie on waiting list for more supported accommodation at Lindsay House in East Kilbride as her needs are assessed as more than current placement can meet. There has been a lot of communication with staff at YMCA as they have been struggling with establishing the reality of a lot of the claims that Georgie makes including having had an 8 month still birth a month ago and being 5 weeks pregnant to her current boyfriend of 3 weeks. YMCA staff challenged Georgie and she reacted as she has previously threatening legal action and claiming she was very close to staff and they had let her down.

#### Summary

Over the last three weeks Georgie has been chaotic both in her lifestyle and in the allegations she has been making. She has spoken with throughcare workers, Housin Offivers, Harley Place Workers, the police (uniformed officers on more than one occasion and FPU), Ardrossan hostel, Standby and the Hospital. Georgie has made claims of pregnancy, recent abuse, historical abuse, domestic violence, harrasment in the community, threats against her life and her house having been broken into and ransacked. After many phone calls and investigation and Housing manager speaking to a neighbour of Georgie's who unknown to Georgie works for housing, none of her claims can be substantiated and there are apparently no witnesses to any threats. FPU officer who interviewed Georgie has stated that her evidence is not credible and in her opinion Georgie was lying. All involved agree that Goergie's presentation suggests she has experienced abuse and trauma, there is however no credible evidence of the source/s. Writer will discuss Georgie's vulnerability and also the risks she poses for others given her allegations on her return on 20-04-2009.

**Text:** I received a missed call from Georgie at 12.04 am yesterday but got no response when I called her back immediately. Yesterday morning I spoke to [REDACTED] at Harley Place CU who informed me that Georgie's mum had contacted them as she had had a call from Georgie in the early hours of the morning to say that she had been in Crosshouse hospital and had been discharged but had no means of getting home. She told her mother that she was in Springside and was worried about 2 men she thought were following her. Her mother then could not get any answer on Georgie's phone. Georgie's mother then called me to repeat this message. I went to Georgie's with [REDACTED] to find her safe and well. She said that she had been taken to hospital by ambulance after suffering with stomach pains. Had been discharged and tried to walk home. When she reached Springside, she said that she had called the police as she was sure 2 men were following her. She reported that the police had collected her and taken her home. This account was verified by Irvine police. She then appeared at the office later in the day and recounted a story of how she was living in fear as she believed her ex-boyfriend's family were looking to cause her harm. She proposed to sign her tenancy over to [REDACTED] and move back to a hostel. It was explained to Georgie that this would not be possible but that she could consider a swap. She had also called her mother whilst in the office. She then left the office with staff to get electricity for her house and attempt to retrieve her house keys from [REDACTED].

I had also had contact with [REDACTED] lay from the Family Protection Unit who was organising an interview with Georgie. She said that she would conduct this once today in the presence of an appropriate adult. [REDACTED] called at the office today to ask if we had seen Georgie as she was not at home for the arranged interview. We had not had contact and Georgie's phone was not accepting calls. It transpired that Georgie was with [REDACTED] for a careers appointment. I attempted to contact [REDACTED] to re-arrange the interview.

[REDACTED] called back very soon after passing on that he'd been phoning his son and in the background a young girl could be hear. All information was passed onto the police.

Throughout Sunday [REDACTED] again phoned the unit. Saltcoats Police phoned to advise us that she'd given an address for [REDACTED] She again phoned the unit at 2pm to inform us that Georgina was with [REDACTED] in Coatbridge.

### Observations / Case Notes

██████████ called at 2am on Monday morning to say the police had been and checked out her home.

I can't help but feel a great deal of scepticism within all of this - ██████████ has in the past given us many red herrings as to Georgina's whereabouts when in fact she has been with her. More concerning on this occasion is the age and vulnerability of the other resident who is with her.

Hi ██████████,

As has become her habit Georgina went out on Friday evening to meet friends. Returned a bit late at 11.45pm, however everything seemed fine. On Saturday morning she recieved a few phone calls from friends. She also received a call from mum. Mum didn't appear too please complaining about not being able to have contact with Georgina.

Around 3pm on Saturday it was noticed that Georgina had left the unit without consulting anyone. Also missing from the unit was another 12 year old female resident and it was strongly suspected that she was with Georgina. Her mum called at 4pm to ask if she was in the unit and informed us she was in the company of ██████████) and that she didn't want Georgina hanging about with him. When told given our concerns that she was also with a younger resident and that we would be reporting them as missing ██████████ tried to back track on this, saying it wasn't that important. Both having failed to return by dinner time, they were reported as being missing at 5.15pm

At 5.15pm Georgina made telephone contact with the unit advising us that she was in Kilmarnock and that the other resident was not with her - Georgina was told to return to the unit so the matter could be cleared up. She returned at 6pm, having been in Kilwinning. She had two males with her who she said were ██████████ from college and his friend "Sweet". She was told that they would have to leave the area (it later turned out that they were Gordon White Jnr and his friend). Georgina in the meantime was told to wait on the police coming to the unit to carry out a return interview which she reluctantly agreed to. This happened at 7.45pm. In between ██████████ had called asking if Georgina had returned again informing us of who the two male she was with. She sounded alarmed when, asking if the police would need to know the name of ██████████.

After the police interview Georgina went back to Kilwinning, being dropped off. In doing this a member of staff spotted the other resident in the vicinity with the two youths who'd been at the unit. The member of staff attempted to get the younger resident to return, though was met with verbal abuse and was vulnerable within the situation, therefore backed out of this. He informed the two youths of the younger resident's age and possible implications for them before doing this.

In the course of the evening the group, Georgina, the younger resident and the two youths went to another resident's home in Kilwinning who was on contact. The situation with this contact is quite

fragile, with both this resident and her mother feeling quite insecure - both are vulnerable. Both the resident and her mother felt quite intimidated by this visit and this led to conflict between the them.

At 10pm after discussions between shift teams, Saltcoats Police were contacted and Georgina was reported as being missing. This decision was made due to previous history of Georgina's absconding and taking others with her. In addition to this the age and vulnerability of the other resident. [REDACTED] Smith called numerous times during the night to find out if we'd any further news and to pass on information as to where they could possibly be. At 1.20am she phoned to say she'd been telephoned by an unidentified caller saying that "Sweet" was in the Airdrie are with a 12 year old girl called Amy. This call was made from a withheld number. It was put to [REDACTED] that this was odd that a stranger would contact her giving her information a bout a girl she didn't know but giving no information about her own daughter. [REDACTED] advised she would phone back in 5mins, calling back 2mins later to say the unknown caller had telephoned again, this time she'd not withheld the number and was called [REDACTED] - it was put to [REDACTED] t that [REDACTED] was Georgina's friend [REDACTED] who'd she'd had involvement with before.

Visited Georgie at unit..

arranged to visit w beg 7-01-2008 to look at Pathways views and and do Pathways assessment prior to LAC review on 15th.

Georgie stating that at her panel on 31-01-2007 she wants off her order and to move to her own house or to a hostel. Writer very frank with Georgie and told her move on accommodation raises 2 concerns 1, that Georgie will be safe and 2, that other young people who may be vulnerable would be safe from Georgie taking them to houses or situations where they would be at risk. Georgie then gave information that her gran and brother were staying with [REDACTED] and that she wanted a house so that her gran could move in with her so that Georgie could look after her. there was a lot of conversation around this and the fact that her mother and [REDACTED] are in custody, according to Georgie her mother is in custody for hitting her when she was younger.

Georgie asked about Quarriers hostels and the one in Kilwinning and the one in Saltcoats were described, she was very keen on the Kilwinning option, it was explained that a referral would need to be made and a planning meeting to discuss this would be best. Again it was pointed out that Kilwinning was a five bedded unit for vulnerable young women and that would raise concerns about Georgie encouraging young women to go with her to situations that may not be safe for either her or them. Georgie was apparently accepting of this honesty and agreed to work on her pathways to allow her to think through what her preferred option for moving aon might be although ot was stressed that what was available would depend on assessments, the views of others, what was available and Housing services response to referral.

Observations / Case Notes

[REDACTED] joined us and content of meeting was summarised for her with Georgie agreeing and asking for her pathways views.

### Observations / Case Notes

Georgina McMillan recently returned to Harley Place. Prior to leaving she managed to talk two other young people into running away with her and took them to her mother's flat in Paisley. When at this flat, the young people were exposed to an element of sexual abuse and physical violence, however Georgina is refusing a police interview. The other young people are not involved with social work and the police will interview them in relation to these incidents.

Georgina McMillan has a pattern of running away and taking other young people with her. Whenever these young people have been found there is always a suggestion of sexual abuse. Previously you had suggested that Georgina's needs could be assessed within the LAC review, however due to Georgina's persistent engagement in activities of a sexual nature and her need to involve other young people I would suggest we convene a sexually harmful behaviour conference. After the referral this am, I have discussed this with [REDACTED].

Our aim from the Area Team is to discharge Georgina's supervision order, although this Hearing is not until January 2008 (This decision is agreed with the LAC Reviewing officer and also the Reporter).

I hope this is agreeable to yourself. The paperwork/report is attached from Harley place [REDACTED]

At the time of writing it will be requested [REDACTED] that a young sexually harmful behaviour conference in convened with regard to Georgina continually taking other young people into vulnerable and hostile environments. For example, there is a clear pattern that whenever Georgina runs away, the other young people with her, and herself, are exposed to an element of sexual abuse.

### Observations / Case Notes

Georgina McMillan

23/12/2007

Georgina had been an absconder since Friday 14th December 2007. Georgina was along with another 2 young people, [REDACTED], who she had become friends with recently. On Sunday 22nd December 2007, staff at Harley received a phone call from [REDACTED] mother to inform us that [REDACTED] had returned home and that he was aware of Georgina and [REDACTED]'s whereabouts.

On contacting [REDACTED] he agreed to take the police and staff to the house where he, Georgina and [REDACTED] had been living over the past week. Staff at Harley initially contacted Saltcoats Police, who informed the police at Paisley of the details received from [REDACTED]

Paisley Police went into the house on arrival, with staff at Harley remaining some distance away until the police invited us in to identify Georgina. In the house were, Georgina, [REDACTED] (Mum), [REDACTED] Mum's partner), [REDACTED] (Georgina's brother) Georgina's Gran and [REDACTED]. The girl Melissa looked extremely frightened when staff spoke to her and said that she wanted to go home. Both her and Georgina agreed to return with staff.

Georgina, [REDACTED] have disclosed information to staff and police about the goings on whilst living at the house at 50 Saucelhill Terrace in Paisley, which is apparently rented by [REDACTED]. [REDACTED] described [REDACTED] as "scary and evil looking". All three young people admitted to have been smoking and drinking all week. (vodka, beer and after shock) [REDACTED] informed staff that he wasn't allowed to look at Georgina as [REDACTED] became very jealous and on Friday night 21/12/07, [REDACTED] grabbed him by the throat when he passed a lighter to Georgina. [REDACTED] left the house the following day, 22/12/07 and returned to his mum's house in Kilwinning.

Both [REDACTED] witnessed [REDACTED] stroking Georgina's legs after he had moaned at Georgina to put shorts on. They said that this happened almost every night, which Georgina has admitted to. Georgina also admitted to staff that he has also attempted to touch her private parts, though she stopped him doing so. Georgina has also alleged that [REDACTED] has hit her in the stomach with a boot and threw cans of beer at her head.

Melissa also informed staff that [REDACTED] had continually kissed and cuddled her. She also said that [REDACTED] had come upstairs on Saturday night 22/12/07 and again tried to kiss her, telling her that he had fallen in love with her and that he wished to be with her. [REDACTED] informed staff that she was afraid of him.

Once out of the house Georgina informed the police that both her brother and [REDACTED] had warrants out for them and the police were going to check this out. Staff dropped [REDACTED] off at her mums house in Pennyburn before returning Georgina to the unit. Police arrived at the unit later on to conduct a return interview with her, which she requesting to speak to the police in private.

When attempting to contact Georgina's mum today 24/12/07, her brother [REDACTED] answered the phone and informed staff that both mum and [REDACTED] were in custody. [REDACTED] was arrested yesterday for outstanding warrants, though it is still unclear why mum is in custody.

### Observations / Case Notes

Rathbone phoned on Friday morning to say that Georgina hadn't turned up at the placement. We received a call later from a [REDACTED] from Kilwinning to say that Georgina had run away with her son, [REDACTED] and another girl, [REDACTED] (who attends Rathbone too). [REDACTED] suffers from diabetes and cystic fibrosis and is on medication (which he doesn't have with him). Georgina has been reported missing to the police as to have the other young people. [REDACTED] is around the same age as Georgie, whilst [REDACTED] appears to be an immature 20 year old - from what has been described by both sets of parents they are quite vulnerable. [REDACTED] has been informed of her daughter going missing. She has been on the phone numerous times asking for updates, though things don't appear to be ringing true - she has reported to staff on the 16/12/07 that she has dialled 1471 to retrieve numbers from phone calls - even though this facility isn't available from a mobile and the number would come up anyway - she then told us that the police have been out through her house and in her loft - she lives in a downstairs flat without a loft. On checking with Paisley Police Station they hadn't been anywhere near her house to carry out a search - this didn't happen until after midnight on the 17/12/07 with no success in locating Georgina. This misinformation is suspicious and raises questions as to the reasoning in this - is it to sound plausible and cover up the fact that Georgina is there and has had contact with M [REDACTED]. Add this together with the other information received:

Georgina was overheard to ask mum on the phone on Friday morning if her phone would be switched on all day

As stated [REDACTED] is without medication for his conditions - this is concerning. As stated he is an immature 20 year old and vulnerable. His mum has received phone calls from an older female at 4am on Sunday morning, asking if [REDACTED] was back yet. When the caller was asked to identify themselves they refused. Telephone calls have been received by [REDACTED] friends asking them to meet him in Prestwick - he has failed to show.

[REDACTED] mother has spoken to her on the phone - [REDACTED] is reluctant to tell her where she is, however has stated she is in the Paisley area. [REDACTED]s mum found a phone number in her daughter's room. On dialling this [REDACTED] answered.

Pupil Update

COMMENTS: Due to a rise in the number of referrals, updates will now be on a monthly basis to facilitate an increase in time for tutorials with young people.

English - Georgie worked well during this English tutorial. We also discussed the incident at college. Georgie is confident this incident has been put behind her and the threat is no longer there.

Art - Georgie did not attend the art project as other arrangements had been made by the unit.

College - Georgie participated in a group activity about employability skills and body language. Georgie

Maths - Georgie has good mental strategies. She worked well during this lesson and should be able to complete the next NAB very shortly. Due to lack of information from James Watt College it is not possible to give an accurate figure for attendance.

Good morning [REDACTED]

I hope this e-mail finds you well. Just a wee up-date on Georgie. Mum came for contact yesterday at 3pm, Georgie didn't return to the unit until 4.30pm, saying she had walked home from college. This gave me time to have a chat with mum, I passed onto her that Georgie had told myself and [REDACTED] in the way back from Wishaw,

1. That [REDACTED] hite had raped her mum and she was pregnant,
2. That mum had been hitting her gran,
3. That Georgie stressed she had no contact with [REDACTED] while being AWOL at mums
4. Also that mum had telephoned her and encouraged her to run away and mum had met her at Saltcoats train station

Mum appeared shocked and up-set with what I was passing onto her.

When Georgie returned myself and mum both confronted her re the above, Georgie became tearful and denied saying these things to myself, once again I confronted her and she admitted to the above, at this point Georgie was being abusive towards myself and stating "I will never talk to staff again, I don't trust any of you". Mum went onto ask Georgie who had bought her all the GOLD JEWELLERY when she had run away, Georgie did then admit to [REDACTED] being there the full time of her being AWOL.

Mum also gave Georgie her train and bus tickets[return aswell]. I took them from Georgie. Mum then stated she was leaving, myself and [REDACTED] ran mum down to the train station[given our concerns that mum had given her the return train ticket]. I gave mum the return train and bus ticket back at the station and then we watched mum get on the train.

The tickets were from Paisley station, mum saying this is because her son and girl friend are staying there now in their own house.

Mum also stating that she has been trying to contact you for several day's. By the time mum had left she had Georgie saying she would like contact with [REDACTED] for her birthday, also her gran and brother.

Georgina McMillan: Returned late from college on Friday afternoon, spending the remainder of the day unit based. Spent time on Saturday morning painting Scotland Flags on her face, and then went down to the shops with staff. A bit upset later on in the evening with regards to the whereabouts of her baby brother's grave -

Georgina has been telling staff a combination of things around this - (i) mum murdered the baby (ii) gran murdered the baby. In speaking to mum about the whereabouts of the grave, mum reports that he baby was still born and at the time Georgina was very young. The baby is buried in an unmarked grave alongside other still borns.

I received a phone call on Friday the 16th Nov from [REDACTED] to inform us that she was thinking about moving away to England and to ask Georgie if she wanted the rest of her belonging brought to the unit. M [REDACTED] also informed me that she was shocked to hear that Georgie had told staff that she had a Miscarriage. [REDACTED] also said that she knew nothing about this until you had informed her of this. When I told [REDACTED] that we through Georgina had told her mum [REDACTED] then went on to say that Georgina had a very heavy Period

Which had lasted 3 days. I thank [REDACTED] for this information and said that I would go and speak to Georgie and get back to [REDACTED]. On speaking to Georgina she then changed her version of events and said it was her brother's girlfriend who had said that it could have been a Miscarriage. I then asked Georgie why she had said it was her Mum Georgie began to change her mind again and said it was a heavy Period. I then asked Georgie if this had been her first break in her pill since she had come home from her Holiday with the unit. (Georgie had been taken her pill for 2 Months as staff had phoned the nurse and asked if this would be ok to do as she would have had her break when on holiday with the unit the nurse had informed staff that when Georgie did come off her pill again it her Period would be more heavier than normal) Georgie then told me this was what it was like when I asked Georgie why she had told staff that she had a Miscarriage she said she didn't know. When I was on the phone to [REDACTED] I also happened to say that I would check when Georgie had last taken her Pill M [REDACTED] was not aware that Georgie was on the Pill. I apologies to [REDACTED] about this [REDACTED] then said that she through Georgie had the rods put in her arm as Georgie had told her this.

[REDACTED] also asked about coming down to see Georgie I said that she would need to contact yourself re contact with Georgie. [REDACTED] also discussed Allegations that Georgie had made in the past I told [REDACTED] that I could not discuss these with her. **Text:** Hi [REDACTED]

Just an update on Georgina. Georgina was taken to the doctors this morning and staff accompanied her into the doctors room. On the information she relayed to the doctor he has told her she could have had a miscarriage but there is no evidence apart from her say so that this happened. The doctor did say we will never know for definite if this transpired. He has suggested the contraceptive implant rather than the haphazard way she takes the pill and has left it for her to decide.

She has had a call from Mum this morning and during the conversation made no comment to her about the talk with the doctor re: miscarriage. She did tell mum that they had discussed her self harming and he had told her to get staff to take her for an x-ray re: lump on her elbow which she told him maybe glass when she self harmed. The staff who went with her did say this conversation was only discussed when they were actually leaving the doctors office and this was in no great detail.

10/11/07

Georgina was watching a DVD with other YP, and was very upset at the ending of the film. I approached Georgina and offered support as she seemed more distressed than the other YP. I asked Georgina if she wanted to talk about how she felt, Georgina replied that she would, however she wanted to talk in private. Georgina and I went through to the flat, Georgina explained that she believes that she has had a miscarriage while at her mum's, and that her mum also verified this. She explained that she had a lot of blood coming away, and terrible pains in her stomach. Georgina did not want other staff members to know about her miscarriage as she would not explain to any staff details regarding how she had become pregnant, or by whom. I explained that the other staff members would need to know, as this is important information, and that I could not keep it from them. Georgina said that she "really wanted the baby", and made reference to her brother's partner being pregnant with twins, and how she had bought a suit for one of the babies on a previous shopping trip. I asked Georgina if she was still bleeding, and she assured me that she wasn't. I reasoned with Georgina, explaining that she was young, and had a future ahead of her, working toward her college course and career. I pointed out to Georgina that her inconsistent use of the pill may have caused her bleeding. I comforted her, and explained that the staff would do all that they could to ensure that she was healthy, kept safe and encouraged in her interests.

The weekend update on Georgina is as followed.

Georgina returned from holiday on Saturday afternoon stating that she had enjoyed this. CID were here on Sunday afternoon to speak to her about a previous incident involving allegations from another resident. During the course of their visit it transpires that Georgina and the other resident had been at [REDACTED] on Saturday night and it was alleged that Georgina had a can of beer. Georgina refuted this becoming quite upset. On leaving the office she informed another resident that the young person had " grassed. " This resulted in the young person being quite badly assaulted and the perpetrator being charged and being removed from the unit for the safety of her. Georgina was challenged for having set this incident up and was again wared by the police not to go anywhere near [REDACTED] home. For the remainder of the shift she remained unit based, keeping a low profile.

**Text:** Visited Georgie today at unit. Georgie was looking ver healthy and she stated that she really enjoyed her holiday and that at the end of the week she began to get home sick. Georgie is thriving at college and the visit was very positive in the sense that Georgie appeared to be more confidant and entusastic about her future.

During visit writer discussed time outwith unit, swimming and quality of life money with Georgie and togethar along with unit staff came up with an agreement that everyone was happy with - Georgie to get 3 hrs on wednesday nights and 2 hrs on sat nights to go out with freinds along with going swimming on her own and going into town at weekends. also for rest of quality of life money to be spent on clothes.

Writer did discuss previous swimming incident with Georgie and discssed implications it possibly had upon the male involved. Georgie agreed that if a similar incident did occur then to discuss it with staff and not to make allegations in a public place. Georgie did agree that she blew everything out of proportion and this was perhaps due to Georgie's current emotional status at the time whereby she was going through a very emotional and traumtic time.

28th August 2007

I received a call at home at 10.20pm from ██████████ asking that I come to Harley Place as there was an issue whereby one of the female residents was upset and in dealing with this a female member of staff was required.

Arriving at the unit soon after I went into ██████████ bedroom where she was sitting crying. After giving her a cuddle and reassurance I asked her what had happened. ██████████ told me she had asked Georgie to wait 5 minute whilst she got "twos" from this guys cigarette, however Georgie left.

The guy then said to ██████████ "lets go over to the bench". She told him there wasn't one there. He said there was one over by the trees. When they went over he ██████████ to take off her jacket to sit down on - which she did.

██████████ went on to describe how he'd asked her to undo her belt or trousers. She became quite upset at this point in the description of events. The male licked her face and was told by ██████████ not to do this as she felt it wasn't nice and disgusting.

She had took her trousers down and he had taken his trousers down and ██████████ described how he'd laid on top of her. She said no as someone may come. He said to her "the only person coming will be me".

He told ██████████ that if I told anyone he would get his girlfriend and cousin to batter her, making her swear on her mum's life that if she did she would die. Again ██████████ became very distraught at this point. ██████████ was reassured that she'd done the right thing in telling staff.

### Observations / Case Notes

I tried to find out from [REDACTED] if she knew this person. She said no but he'd said that he knew Georgie.

[REDACTED] stated that the name on the door of the house in which they'd been in was [REDACTED]

I asked [REDACTED] she could describe him. She told me he was a bit taller than herself, had short dark hair, with scars and slashes on his face and that he'd said he was just out of Barlinnie.

As I could smell alcohol from L [REDACTED] I asked her about this. She said that the male had bought her and Georgie a bottle of Vodka Blue each.

I asked her when this had happened, asking if it was before or after [REDACTED] had phoned her at 9.45pm. [REDACTED] said it had been after this. She'd been in his company for approximately one and a half hours.

Throughout [REDACTED] was reassured and it was explained to her that the manager, Social Worker and the police would have to be involved. [REDACTED] was okay with this.

I phoned her mum at 11.20pm who was at Birmingham Station. Mum was updated on what had happened and was informed of the process that was about to take place. She was informed of police involvement and what this may entail, with a possible medical examination. [REDACTED] was asked for her views on this and she was okay with this process going ahead. She was informed that the unit staff would keep her fully updated.

The police were called and arrived very quickly. [REDACTED] was taken down to Saltcoats Police Station to be interviewed by FACU and be examined. [REDACTED] was accompanied by myself, [REDACTED]. En-route to the station [REDACTED] was able to identify the park in which the incident took place as The Glebe which is close to the unit. The police were able to locate the empty alcohol bottles from which they may be able to get finger prints

I was able to establish to [REDACTED] Georgie and [REDACTED] had been in this male's house near the park and that this was someone that Georgie knew. They had been there prior to dinner time and had made arrangements to meet up there again afterwards. [REDACTED] and Georgie went back and when Chelsea appeared at the door a dog had escaped and had got knocked over by a car. The girls had taken the dog to a vet near by who'd put the dog down.

### Observations / Case Notes

Involving Georgina McMillan

Georgie arrived back at the unit at 9.40pm appearing to be angry with another resident, LMcG, whom she'd been out with during the course of the day. When asked the whereabouts of the other resident she said she'd left her with a man. A phone call was made to establish that the other resident was okay was okay and was on her way back to the unit.

When the other resident arrived at the unit upset and went to her room, Georgina appeared to be on edge whilst this was being dealt with and looking for ways in which to have contact with her - which wasn't permitted.

The CID arrived to interview Georgie at 1.30am in regards to an incident relating to the other resident.

They asked her to describe the events of her day and to identify a male from the sheet of mug shots they had, which she did.

They went on to take a formal statement:

She described the male as being just a bit taller than her, of medium build, short dark spiky hair, wearing a ring with a scar on the left of his face. He also carried a mobile phone. Aged late 20's.

Georgie stated that she and the other resident had went out at 3.30pm, returning to the unit at 4.30pm for dinner. Afterwards they went back out into Saltcoats Town Centre and had asked two males for a cigarette in Dockhead Street, close to Farm Foods soon after they had left the unit. One male left the company and they were left in the company of the other, who offered them a drink from a bottle of MD 20-20 (Mad Dog). Georgie said she'd declined though the other resident took him up on the offer. They then went to the rear of the Bank of Scotland and sat with the male on a wall talking.

The male then went and bought a futher carry out, Tennant's Lager for himself and a Bottle of Blue Vodka for the other resident. When asked by the police if she'd taken any alcohol she admitted to having just a sip. She described how she'd had a roll up cigarette and felt funny.

When asked what had happened next, she described how they'd all made their way to The Glebe and sat there. Georgie said she was uncomfortable in the company of the male an had felt on edge - she described how he reminded her of her step dad. She described how the male had cuddled the other resident. Georgie said she'd tried to encourage the other resident to return to the unit, but she wouldn't come, therefore she returned herself, realizing it was late.

Georgie stated that whilst in the Glebe the other resident had been upset about a dog they'd witnessed being knocked down

Prior to leaving Georgie went on to say to the police she had a good idea what had happened to the other resident, "the same as happened to me from my step dad". When asked what, she said " she was raped".

D.O.B. 04/12/91

DISCLOSURE FROM ABOVE NAMED YOUNG PERSON - MONDAY 23RD JULY 07

The writer and Georgina had the opportunity to have one to one time out in the community. This was beneficial for Georgina and the writer to build on a positive relationship as well as giving Georgina a chance to talk about recent events that allegedly took place in Callendar.

During our conversation, Georgina opened up to the writer and disclosed additional information about her alleged rapes by her mother's boyfriend, namely [REDACTED].

Georgina disclosed that different males have sexually abused her since the age of 6 years. She then went on to tell me that her first sexual abuse by [REDACTED] took place at her Mother's home in Johnstone when she was 14 years old. Taking into consideration her emotional state of mind. I asked her if she could give me specific details on how these incidents happened.

Georgina stated that she was in the house with [REDACTED] and her Grandmother. [REDACTED] allegedly came into her bedroom and told her that he wanted to have sexual intercourse and proceeded to lie in the bed with her. I asked her why she did not challenge his request and perhaps shout for assistance as her Grandmother was also in the house. She stated that her Grandmother is deaf and would not hear anything. Georgina claimed that [REDACTED] then put his hand over her mouth and asked her to be quiet. He then allegedly raped her.

After this attack, Georgina did say that she told her Mother about it, but apparently her Mother refused to believe her stating that [REDACTED] "would never do such a thing" the issue was never raised again in conversation as Georgina said her Mum did not believe she was telling the truth.

Another alleged rape happened when she and her Mother, [REDACTED] and Brothers were in Blackpool sleeping "rough" on the streets. I asked why she never said anything to her Mother about this alleged rape. She said that her Mother has a lot of mental health problems and didn't want to worry her as she has threatened suicide on many occasions and didn't want to add to her poor mental state of mind with extra stress.

The third incident allegedly took place in Callendar. Georgina's Mother, [REDACTED], [REDACTED] (Georgina's brother) and [REDACTED] son and daughter were all camping in a wooded area.

[REDACTED] had asked Georgina to go with him into the forest to collect wood for a fire. Georgina stated that [REDACTED] then pushed her against a tree and proceed to rape her again.

### Observations / Case Notes

DISCLOSURE MADE TO R.C.W. - [REDACTED] ON SATURDAY 21ST JULY 2007

On Saturday 21st July 2007 at approximately 5.40 p.m. Georgina approached myself and asked if she could speak to me privately. I then proceeded to take Georgina into her bedroom to allow her to have some privacy. Georgina then burst out crying and disclosed that she has been under a lot of stress recently with an alleged rape by her mother's fiancé namely, [REDACTED]

I interrupted Georgina by going through with her, our procedure of "confidentiality". Georgina was prepared to continue with her disclosure. Georgina stated that [REDACTED] not only raped her in Callender but in Blackpool and at her Mother's residence. This allegation apparently happened three months ago. Georgina was also complaining of stomach pain and said she had a thick vaginal charge. I asked her when she last had a "period" but Georgina could not tell me. However, she did say her period was regular but had not had one for a while.

Having discussed this disclosure with my Senior Shift Manager, ([REDACTED]). It was decided in the interest of the young person's health that she should immediately be taken to Crosshouse Hospital.

Georgina was given a pregnancy test, which confirmed that she was NOT pregnant. The duty doctor also examined her stomach area. Georgina declined on having a vaginal smear test. Georgina did agree to have an HIV and Hep C injection. Results will take approximately 6 to 8 weeks. The doctor on duty stated quite clearly to Georgina of what this procedure was for. Georgina was also given paracetamol for headache. ( see medical log).

On our journey back from hospital, Georgina disclosed that different men have sexually abused her since the age of 6 years until approx. 11 years.

The above information has been passed on to [REDACTED] Senior Shift Manager).

Writer sopke with Georgie in private regading these concerns and advised that making her problems known ot all y/p in the unit could potentially make her very vulnerable and suggested that she talks to staff if she has any issues. Georgina asked if she could have her phone back and due to her risk of absconding writer feels that it would be innapropriate for Georgie to have her phone and she was not very happy with this decision.

**Context:**

**Text:** recieved information from unit staff regarding an incident which occurred the previous night when staff took Georgina swimming in Paisley with other young people.

3 other y/p from unit approached staff and informed staff that a man had "touched Georgie up". it transpired that the man had asked Georgie to look after his son climbing a slide. Georgina told the man that she could not do this because she did not know his son so she could not do this.

staff dealt with this allegation on a group basis and when challenged Georgie denied in front of other y/p about anything being said. other y/p challenged Georgie and said that she had said that the man was touching her up. Georgie then stated that the man touched her on the arm to get her attention.

After this incident Georgie acted as if she was scared to go down the flume and it was recognised that Georgie was enjoying the attention and she was hiding her face with her hair etc.

Date: 9th July 2007

Description of Incident;

Georgina has been a missing person since the 18th May 2007. At approx. 14.30 hours on the 9th July 2007, we were informed that Georgina had been apprehended and was in police custody. Georgina was transported to Kilmarnock Police Station. A welfare visit was arranged. I attended this. Georgina appeared disheveled and unwashed. As soon as Georgina entered the room she became physically upset and started to cry. Georgina started babbling. During this she was asking lots of questions about what would be happening to her. Georgina then disclosed that she had been sexually assaulted. Georgina said "you know that thing that happened before, well it happened again". I asked Georgina to clarify this. Georgina informed me that it was [REDACTED] that had assaulted her when they were staying in the town of Callander. Georgina claimed that the assault took place roughly 2 weeks ago. I asked Georgina if she was in any physical pain and if she needed a doctor. Georgina said she hurt a little "down below". At this point I decided to inform the police and ask for a doctor to visit Georgina.

I spoke to the Sergeant on duty. He informed me that a crime report would have to be done in order to call the doctor out. This was agreed to due to length of time that Georgina had been missing and her physical appearance. A female officer then took Georgina and myself to an interview room. Georgina stated that:

Brief details of Problem -

[REDACTED] explained that she was wishing to know the whereabouts of her Step daughter [REDACTED] (01.03.93) and daughter Georgina Smith or MacMillan (04.12.91).

They were camping at Callandar when the police lifted them and took them to Stirling Police Station. There was an apprehension warrant for Helen. She was given Standby number by Police in Hamilton (tel no 01698 483455) who said they handed the girls over the standby social workers.

[REDACTED] wishes to know where the girls are so she can phone them and check they are alright.

Investigation

Checked computer, spoke to Team Leader [REDACTED] and could find no current information on the girls. I explained this to [REDACTED] and said we have a lot of referrals and they are processed and sent to the area team but if they have not been put in computer we may not be able to find them quickly, so I advised her the best thing would be for her to phone the girls own SWs in the morning.

[REDACTED] was quite persistent and told me she would phone later hoping I could find out for her.

Found the situation a little unusual in that one girl was said to be at Harley Place, Ardrossan and the other in Hamilton.

Phoned police at Hamilton who said that he had been given as little information as possible because it seemed that mother went to see the girls and then they were missing again. He said he did not give Standby number to mother.

Activity sent to appropriate personnel by Reception Services, Vernon Street 10 07 07.

Georgina and her mother also wanted more contact so advised margaret that would not limit to 2 tel calls although they could not be constant and needed to be a reasonable amount. It had been advised to writer that when Gerogie had been phoning her mother she had been dialling Johnstone number and family were still residing in maple Drive. Georgie clarified this.

during visit Georgina advised writer and worker form unit that her mother had slept with all her boyfriends and her friends. When questioned upon this Georgie said it was only one although she could not remember the name of the boy.

Georgie advised that at the Hearing they needed to make a decision on what she wanted and what she wants is to remain in Harley place and be in Saltcoats. Georgie stated that she did not want the case to be transferred. Writer advised that decision is outwith social work and the case would be transferred to wherever the family home was. Writer also discussed with Georgie that her views need to be taken into account and listened to but what she wants and what she needs can be different. Witer advised that it was in georgies best interests to return home to her mother whom she has a close bond with and that being in a childrens unit is not the most appropriate place for her.

**Text:** INCIDENT REPORT FOR GEORGINA MCMILLAN D.O.B 04/12/91 D.O.A 28/11/07

DATE INCIDENT REPORTED 08/05/07

On Monday 07/05/07 Georgina had entered the office within Harley Place Children's Unit and was having a general conversation with writer. Writer was asking Georgina about her absconsion and why she hadn't attempted to make contact with the unit. Georgina claiming that the night that she was supposed to return to the unit for her overnight (18/05/07), her mum had put pressure on her to leave Johnston. Writer asked what kind of pressure and Georgina replied that her mum "hits her". Writer then asked if that's why she had got her friend to telephone the police. Georgina replied that it was she herself who had gone into the police station to report herself as she wanted to return to the unit as [REDACTED] had held a knife to her throat the previous night. Georgina then continued to say that she feels uncomfortable around [REDACTED] as he also hits her and bites her on the chest. Writer asked Georgina to confirm what she meant by chest and she replied that it was the breast, she then said that he also tries to kiss her. Writer asked if her mum was present when this happens and Georgina said that she is and she just sits there. At this point Georgina sat on a chair and said that her mum doesn't want her to live in Harley Place incase she talks about things that happened in the family and to Georgina years ago. Writer asked what she meant by that and Georgina then continued to say that she wants to tell me but at the same time she doesn't. Writer explained to Georgina that anything she told me would remain confidential, although writer would be required to pass information to the senior on duty, Assistant Manager, Unit Manager and Georgina's Social Worker, who would in turn inform external management and Senior Social Workers. Georgina then began to say that she had felt the same way in her dad's company as she does when she's in [REDACTED] company. Writer then asked her why she felt that way and Georgina replied that "her dad forced himself on her". Writer asked when and where this happened. Georgina replied that it began when she was about 7 years old and ended when she was about 11 years old, this took place in her dad's home whenever Georgina and her brother had an overnight visit. At this point Georgina became visibly distressed and was saying that she felt that she couldn't say anything before because she didn't want her mum to "demise" her. Writer then asked if she had told anybody and Georgina replied that she had told her gran who had confirmed that Georgina's mum would "demise" her. Writer then spoke at length with Georgina regarding her feelings and emotions and she was saying that when "it first started" she didn't know what was going on, just that it was "sore and it nippy". She continued to say that as she got older she understood what was going on but that her dad had told her if she said anything "no-one would believe her" and "she wouldn't see her mum". Georgina also saying that she was scared that her

uncle would shoot her dad because he is a hitman. Georgina continued to say that she felt guilty at not telling anyone and still carries feelings of guilt. She said that she would like to tell her mum but is afraid of the consequences. Writer asked Georgina what she would like to do about the allegations she has made. Georgina replied that she doesn't know. Writer explained that if she chose to have the police involved and make it an official complaint, staff at harley place would support her. Writer further explained that if she chose not to make an official complaint then she could speak to writer and any of the previously mentioned members of staff who would be made aware of the situation at any time she felt she needed to. Writer also asked Georgina to think about what she wanted to do carefully and to question her own capabilities at whether she could cope with the questioning and investigation of her disc

on the breast and he makes out that it is all just a carry on. Gergina also disclosed that [REDACTED] forced himself upon Georgina physically.

During visit writer discussed the above with Georgina and Georgina is unsure at the moment if she is wanting to report this to the police. Writer advised that she should seriously consider this and that if she does choose to tkae action then writer and unit staff will support her.

Writer also discussed with Gerogina schooling issues and harley Place staff have agreed to explore tutors visiting Georgina to continue her education. Georgina is wanting to attend college after the summer and given that all the other young people in her class will be sitting thier exams it is felt that at this moment a tutor wuld be the most appropriate option for Gerogina just now.

Due to the risks of Georgina going misssing from the unit and given that Georgina is not under a place of safety and between local authorities right now with regards to the Hearing system whereby her case was transferred writer advised that for the next fortnight Georgina should return to the unit for 8.30pm which is=f she does choose to abscond again gives unit staff more time to take appropriate action before thier change over.

**Context:**

**Text:** Georgina began working with [REDACTED] of the Young Person's Support Team in November 2005. The main issues that were present were non-attendance at school and self-esteem. K [REDACTED] began meeting Georgina on an individual weekly basis and she was also given a place in a mixed issue-based evening group. It was hoped that with this support Georgina could resolve the issue of non-attendance at school and increase her self-esteem levels. Throughout the period of working with Georgina, it was difficult to engage with her parents in order to address the non-attendance at school. Various excuses were made for her absences and it appeared that they were fully condoned by her parents to the point of actively encouraging Georgina to truant from school. A similar scenario was observed with her brother [REDACTED] who also had poor attendance at school. At this point in time the family consisted of Georgina, [REDACTED], mum, step-dad [REDACTED], and maternal grandmother (also called Georgina), and they all lived in a tenancy in Saltcoats. Georgina was placed on a Supervision Order in December 2005. The family was taken to an Attendance Council meeting where their case was referred to court. Georgina's attendance, however, did not improve over the next few months.

In April of 2005 [REDACTED] to start a relationship with her new partner, neighbour [REDACTED]. She left North Ayrshire with [REDACTED] and his two children, along with Georgina, [REDACTED] and her mother. Despite several attempts to track down the family, many agencies were unsuccessful in locating them. The family were finally apprehended at their current address (18 Mill Road, Cambuslang). An emergency Children's Hearing was held for Georgina and a Place of Safety Warrant was issued. Georgina initially went to McKellar Avenue for a few nights, but as they did not have enough room she was moved to Harley Place where she remains at present. She stated that over the past eight months they have stayed in a number of tenancies in a variety of different towns. Apparently there was even a period of several weeks where they were sleeping rough on the streets of Blackpool. Georgie states that it is because of [REDACTED] that they have moved around so much. Georgina advised that she had a deep dislike of [REDACTED]. Apparently he is quite a violent man, especially when drunk, and he has assaulted [REDACTED] a number of occasions. Georgina also advises that he has made inappropriate comments and gestures towards her that make her feel really uncomfortable. Georgina states very clearly that she does not want to return home as [REDACTED] is going to be there. [REDACTED] is currently serving a custodial sentence for a number of offences (see casenotes dated 19/12/06 for details), and is due to be released in February / March.

### Observations / Case Notes

Georgina has a good relationship with her with her mother, and maintains regular contact with her. She often complains, however, that her mum will always put [REDACTED] before her and [REDACTED]. There are no set dates for contact, but arrangements are made between Georgina, her mother and unit staff at times when it suits all parties. Currently contact is only to take place in North Ayrshire, and not Cambuslang. Georgina has expressed an interest in going home for an overnight while [REDACTED] is in custody. However, when he is released Georgina has said she wants all contact to take place within the unit. Her reason for this is that she [REDACTED] force her mum to leave with Georgina one day and then "do a runner" again. Georgina has made it very clear she wishes to remain in Harley Place for the time being.

Georgina is doing well in her current placement. The only main concern at this present time is schooling. Unit staff tried to enrol Georgina back into St Andrews Academy after the Christmas holidays but they refused to accept her. Auchenhavie Academy was also approached but they refused to enrol her too.

This was apparently the same boy from a group of boys who sexually assaulted Georgina when she previously lived in Saltcoats. Staff advised that they are still waiting to hear back from the Family Protection Unit regarding what action will be taken. They will keep me updated.

Georgina is apparently ok after what happened and is showing no current signs of distress.

However, the unit state that Georgie is receiving almost constant phone calls from the M [REDACTED] especially from [REDACTED] and Georgie's brother [REDACTED] will apparently phone the unit, phone Georgie's mobile, and even phone other residents' mobiles in order to speak to Georgie. Among other things it was agreed that Harley Place would pursue the possibility of re-enrolling Georgie in St. Andrews Academy. However it was acknowledged that Georgie has missed almost a full year of school and she may have to start her 3rd year again.

With regards to contact, given the concerns it was agreed that having contact at home in Cambusland right now would be inappropriate. However, contact within North Ayrshire would be fine, and arrangements are to be made with mum.

Visited Georgie at the unit. She seemed okay and was open to discussing the current situation. Assured her that she could contact her older brother [REDACTED] but that she could not go out to visit him as she was remianing on her warrent for the time being. Georgie was not very happy with this but accepted the reason for it. I ensured that she was aware that any arrangements she made had to be cleared with the unit staff. Georgie was concerned about the fact that it is her birthday soon. She was also wanting to know what had happened to her mother and informed me that [REDACTED] (mothers current partner) and [REDACTED] mother's ex-partner) where all living at the address in Cambuslang but that [REDACTED] where both currently incarcerated. I told Georgie that I would attemot to find out any information and get back in touch with her.

She alluded to some difficulties in the house. **Text:** GEORGINA MCMILLAN - TRANSFER SUMMARY

The writer commenced working with Georgina in November 2005. The main issues that were present were school absences and self esteem. The writer began meeting Georgina on an individual weekly basis and she was also given a place in a mixed issue based evening group. It was hoped that with support from the writer, Georgina could resolve the issue of non-attendance at school and with support from the group would be able to increase her self-esteem levels.

Throughout the period of working with Georgina, the writer found it difficult to engage with her parents in order to address the non-attendance. Various excuses were made as to her absences and it appeared that they were fully condoned by her parents, to the point of actively encouraging Georgina to truant from school.

Georgina was placed on a Supervision Requirement in December 2005 with a request for an early review to monitor if there had been any change in her attendance levels. The family was taken to an Attendance Council meeting where their case was referred to court.

Georgina attended the issue group quite frequently and contributed well to any discussion. However, the writer had difficulty meeting with her on an individual basis due to her absences from school.

More recently, [REDACTED] began a relationship with one of her neighbours, resulting in the family moving to a tenancy directly across from their own home. In March, [REDACTED], her two children, her mother and her new partner's family presented at the Short Stay Hostel in Ardrossan claiming to be fleeing violence from neighbours. Housing placed them in a safe house before discovering that they had lied about their identities and they were told to return to their own tenancies. Claims about violence were found to be unsubstantiated by the police. Both families then made their way to Glasgow where they attempted to gain accommodation at the Hamish Allen Centre. However, they were again informed that they would have to return to their own tenancies. As a result of this the family made their way to Holy Town near Motherwell and is believed to be living in a bed and breakfast. The last contact that was made with the family was a telephone call to [REDACTED] who

stated that they were still living in Motherwell and that they had no intention of returning. Apparently [REDACTED] has plans to enrol her children into a school in that area.

### Observations / Case Notes

T/C from [REDACTED] yesterday to inform that Ardrossan Short Stay Hostel had placed her in a safe house with her children as they had been fleeing violence from neighbours. She then informed that the neighbours had followed her in a taxi and they were now threatening her at the house in Garven Rd, Stevenston. As the writer had spoken to [REDACTED] earlier in the day and she had not mentioned any of the above, the writer assumed that this situation had just arisen. [REDACTED] then stated that she could not stay at that address and asked if the department would provide travel warrants for the family to go to Glasgow as they knew people there, but had no means of funding transport. The writer told her that she would phone her back.

The writer then contacted Ardrossan Short Stay Hostel and spoke to [REDACTED]. She informed that [REDACTED] and her partner [REDACTED] had contacted standby giving their names as Mr and [REDACTED], informing that they were fleeing violence. [REDACTED] stated that they were placed in a tenancy in Stevenston and that workers had been with them until approx. 1am. However, Housing had found out that the couple had lied about their identities and that both [REDACTED] and [REDACTED] own tenancies in Saltcoats and therefore they needed to return to their own tenancies. However, if [REDACTED] was still worried about the neighbours then she could present on her own with her children at the housing office and they would look at her case again.

The writer called [REDACTED] back and informed her of the above information. When the writer asked her why she hadn't mentioned any of this during our earlier t/c, she was very vague. The writer asked how neighbours could have followed her when she had left from the hostel. Mrs [REDACTED] stated that the neighbours who were harassing her had relatives in the street that she had been placed and that these people had contacted the neighbours to inform them where [REDACTED] was. The writer informed her that she needed to return to her own tenancy and that she should contact the police should she be threatened. The writer also advised her that the department would not provide travel warrants for her to go to Glasgow.

The writer then returned a t/c from [REDACTED] at the temporary housing office. She advised that they had arrived at the tenancy in Garven Rd to book the family out. However, when they got there, the police had been in attendance, but could find no evidence of any threatening behaviour. [REDACTED] then informed the police that the family would be going to the Hamish Allen Centre in Glasgow and they phoned a taxi to take them to the station. [REDACTED] stated that she had contacted the Hamish Allen Centre to inform them of the situation and she had placed an alert to Standby. The writer passed all the information on to Team Leader.

27/03/06 The writer attempted to contact [REDACTED] via telephone. The call was answered by [REDACTED] who stated that the [REDACTED] and the children were still in Motherwell with her new partner. [REDACTED] stated that he had recently been in contact with her and that he was keen to get her back home. He stated that they had had an argument and that she had left the family home because of this. Apparently [REDACTED] te, her new partner, has been arrested due to outstanding warrants and she is looking after his two children. [REDACTED] has apparently stated that she is looking to enrol all the children in a school in Motherwell. The writer has passed this information on to the team leader.

30/03/06 The writer completed social background report for Georgina.

14/03/06 The writer accompanied Georgina into school and we met with her guidance teacher. We explained the situation with the other pupil and were assured that it would be sorted out. It was explained to Georgina that her attendance was extremely poor and was asked for reasons for her earlier absences. Georgina stated that her mother had kept her off to keep her company and stated that if she attempted to come to school then her mother would cry. Georgina agreed to stay in school today and claimed that she would make more of an effort to attend school. She knows that her mother could face prosecution and the implications this could have. The writer advised that [REDACTED] has parental responsibilities and that it would not be suitable for Georgina to be re-housed with [REDACTED]. Housing were reluctant to do so anyway and were looking for confirmation from Social Services.

Later - Georgina attended the issue based group.

16/02/06 T/C from [REDACTED], Rosemount to pass on information regarding Georgina McMillan. A young person that she is working with has alleged that there are a number of young boys hanging around her house and that Georgina apparently told him that she had been raped by a 22 year old man who has also been hanging around the house. Passed this information on to team leader.

20/02/06 The writer along with colleague [REDACTED], visited Georgina at school to attempt to find out if the above allegations were true. We asked her if anything had happened to her over the past week that she wanted to talk about but she said no. The writer asked her if anyone had moved into the house recently and again she said no. Georgina did mention that she had been arguing with her mother a lot. As her brother was not at school, we decided to visit the house to find out why. When we arrived, [REDACTED] came to the window and stated that he was locked in and couldn't find the key. We asked how Georgina got out to go to school and he replied by the back door, so we stated we would enter that way. When we entered the house, [REDACTED] stated that his wife had left him, taking the children with her and that he had no idea where they had went. As Georgina had not mentioned this during our earlier visit, we decided to see her again. When we arrived at school and asked Georgina about her parents splitting up, she stated that her mother had been having an affair with a neighbour across the road and that she had moved in with him a week ago. Georgina then disclosed that her mother had assaulted her and stated that she was very unhappy with her current home situation. The writer informed her that this would need to be reported and could result in a police investigation. The writer reported back to team leader and as a result, a Child Protection Investigation ensued. This resulted in Georgina residing with a BARS carer for the evening, to allow police to interview [REDACTED].

21/02/06 T/C from [REDACTED] to inform that the police had interviewed her last night. She appeared quite upset about the situation and wanted to know when Georgina would return home. She stated the Georgina had been in contact with her last night and stated that she wanted to return home. The writer advised that someone would contact her that afternoon to inform of any decisions that had been made.

27/02/06 The writer was on annual leave at the end of last week and was informed that Georgina had returned home on 21/02/06. The writer phoned [REDACTED] to find out where Georgina was to be picked up for her group tonight and she stated that they have moved back into their own home. She stated that [REDACTED] had not had a drink for a week and that she is hopeful that this will continue. When asked if Georgina had been in school today, she stated that she had been up all night with stomach and lower back pains and that they had went to the hospital and Georgina had been given tablets by the doctor. She apparently felt better and wanted to be picked up for the group.

Later - during discussion at the group, Georgina stated that she had

When asked why she had been absent for so long, Georgina stated that she had been receiving threatening phone calls and text messages from her ex-boyfriend and that she had been scared to attend school. She stated that she had reported this to the police. The writer then informed Georgina that her mother had claimed she was off ill. Georgina then admitted that she had been staying off and that her mother had been encouraging her to stay off also. Georgina opened up and stated that things hadn't been going well in the house and that her mother and father had been arguing lately and that she had been getting dragged into the arguments. She claimed that her father's drinking had been getting worse. Georgina's brother [REDACTED] has absconded along with his father apparently due to fears of being sent to a residential placement because of his low attendance. The writer explained to Georgina the seriousness of her low attendance and that although there are problems at home she must attend. Otherwise this will put more pressure on the family. Georgina is due to attend the YPST evening group on Monday.

Later - the writer and [REDACTED], SW to [REDACTED] visited the house to speak to [REDACTED] Georgina and [REDACTED]. ### Observations / Case Notes

19/01/05 The writer and a colleague visited the family home to find out more information regarding Georgina and her alleged boyfriend. [REDACTED] stated that this boy is a friend of her son [REDACTED] and that he was not involved in any way with Georgina. She stated that he had stayed overnight with C [REDACTED] in his room. Georgina has only been to school 1 day since her panel, apparently suffering from sickness. The writer advised [REDACTED] to obtain either a medical certificate or letter to explain Georgina's absences from school.

20/01/06 Letter sent to the family informing them of the writer's visit on Tuesday to discuss Georgina becoming involved with the YPST Evening Groups again.

24/01/06 The writer visited the family home only to be greeted at the door by a young female who stated that [REDACTED] was not in and that she would phone tomorrow. At this point, an unknown male, apparently the girl's father came to the door questioning the writer in quite an intimidating manner as to who the writer was and where did they work. He then stated that [REDACTED] would phone the writer the next day.

27/01/06 The writer attempted to contact [REDACTED] by telephone however, a female answered, stating that the phone no longer belonged to [REDACTED]

Later, the writer received information from [REDACTED] to state that the young lad she is working with has decided not to move in with the [REDACTED], but is still frequenting the house on a regular basis.

The writer advised her to either ignore them, or to report it to a teacher. Georgina also stated that 2 girls had chased her at the weekend with a knife, but the writer cannot confirm the details of this. It would appear that Georgina is managing to maintain an acceptable level of attendance and has only been absent 1 day in the past few weeks. The Children's Hearing was cancelled due to a panel member being ill and so this will be rescheduled.

13/12/05 The writer had to cancel school visit due to other commitments. However, the writer joined the Girls Evening Group on their outing and spoke to Georgina then. It would appear that [REDACTED] to face prosecution due to her children's low attendance levels at school.

20/12/05 The writer met Georgina within school. We had a brief discussion about her Children's Hearing (new date for 10th January 2006), and about the Christmas holidays. The writer will meet with Georgina in the new year after the holidays.

Georgie missed the first session of the group but attended every other. Georgie had to be constantly told off for bringing stories into the group and for exaggerating the truth. Without staff intervention this could have had disastrous effects for Georgie. The girls were very tolerant towards Georgie but at times she could push them too far. Georgie's social skills can be very poor at times due to her lack of opportunity to interact with young people, given her poor school attendance.

Being in the group seemed to boost Georgie's confidence and encouraged her to make friends outside the group.

Most of the programme seemed to be over Georgie's head and staff had to clarify information with Georgie and her family.

Georgie would benefit from future group work possibly in community education.

| <b>Text:</b>                                    | Georgie was referred to the YPST self esteem group due to relationship difficulties and poor attendance. The group began on 11/05/05 however, Georgie did not attend until 18/05/05. Since then her attendance has been erratic only attending 3 sessions out of 6. When Georgie attended the group she was quite quiet and staff found it hard to get her to open up. She did participate with the tasks, but had to be prompted to do so. Georgie always seemed to have her mind elsewhere. When asked to complete an evaluation sheet, Georgie stated that she found the course useful and set her goal to talk less in class and stated that she has learned that she should stop fighting. As the programme is now finished, intervention is complete and so case closed. [REDACTED] |                       |
