

Main factors in decision to recommend Assumption of Parental
Rights on Tarbett children.

All the children need long-term care and the security this would provide for them.

The parenting provided for the children by Mr and Mrs Tarbett has been inconsistent and poor resulting in varying degrees of emotional damage to all 5 children.

The Social Work Department have been charged with the care of all the children for almost 3 years during which time Mr Tarbett has intimated no plans to the Department or to Children's Hearings despite enquiries re his intentions.

Mr Tarbett has been unco-operative and obstructive in his relationship with both the Social Work Department and Children's Hearings, in attempts by these bodies to provide care to meet both contemporary and long-term needs in the children.

Mr G. McIntosh,
Social Worker.
