Dr. Taylor
The Cannons
Fisher Street
Methil
KY8 3HD

Date: 01 July 2011
CHI: 2811693181
CRN: V709956H
Enquiries to:
Victoria Hospital: ext 28108
Queen Margaret Hospital: ext 27027
Fax No

Dear Dr Taylor

**Mrs Fiona Dinsmore - DOB: 28/11/1969
61 Dunbeath Drive
Glenrothes
Fife
KY7 4PJ**

The above patient attended the A&E Department on 01/07/2011 at 13.59. I outline below for your information some information regarding this attendance.

Presenting Complaint: SEVERE BACK PAIN
Diagnosis: PAIN
Body Site: BACK
Investigations: None
Treatment(s): TRAMADOL 50-100MG QDS

Discharge Type: DISCHARGED - WITH FOLLOW UP BY PRIMARY TEAM
Referred To: Not Applicable
Discharge Destination: PRIVATE RESIDENCE - USUAL PLACE OF RESIDENCE

Additional notes (for GP)

Presented with lower back pain for past 2 weeks. Has been taking regular analgesia at home but only slight relief. no pain/numbness into legs. no red flags. Walking ok, feels back locking at times on movement. No hx injury/trauma. O/E slight reduced power in left leg due to pain in back, otherwise nad. Impression- muscular back pain. Discharged with prescription for tramadol. Advised to see GP for follow up next week and to return sooner if red flags.

Yours sincerely

A handwritten signature in cursive script, appearing to read 'Claire', written in dark ink.

BROWNE, DR Claire
A&E DEPARTMENT

CLINICAL INFORMATION

Presenting complaint:

I would be very grateful if you could see this lady whom I have been treating for depression for the last few months. She is a practising nurse and looks after terminally ill children. Although the depression has been helped by the anti-depressants she feels she has not reached full improvement due to issues that she has had in the past. She had a very difficult upbringing with parents which were both emotionally and physically abusive and spent quite a marked time of her teenage years in and out of care until she joined nursing college and then was able to stay at the nurses accommodation. She feels there are numerous issues dealing with this that she needs help with which are affecting her current lifestyle and would therefore be very grateful to explore some of these issues with yourself with a view to stop them affecting her current mood.

Thank you for seeing her.

Yours sincerely

C. Taylor

Dear Dr. Taylor

Fiona Steedman, 250 Methilhaven Road, Methil - (d.o.b. 28.11.69) 3181

Following your referral to our department, the above patient was sent our standard opt in letter on 20 May 2009 asking whether she wished to be placed on the waiting list for psychology treatment and requesting that she contact us within two weeks.

She did not respond to this letter so we are discharging her from the waiting list at this time.

Yours sincerely

(signed) *Psychology Secretary*

CLINICAL INFORMATION**History of presenting complaint / examination findings / investigation results****Presenting complaint**

Description: Irregular pv bleeding

Comment: I would be very grateful if you could see this 40 year old lady who has had irregular periods. Her last period was in December. Since then she has had 3 episodes of bleeding after intercourse which has happened 8 to 12 hours after having had intercourse. She has then spotted or bled for 3 or 4 days. She had a smear done 2 years ago which was normal and on examination her cervix looks normal and pelvic examination is also normal. However, in view of her bleeding after intercourse I would be very grateful for your assessment and advice.

Thank you for seeing her.
