Read Code	Overview Notes Enzo is slightly concerned that his hernia is causing some issues. As a result Enzo has decreased the amount of walking he has been doing as he is concerned he has been over exerting himself. We spent some time discussing how exercise may look different as a result as well as discussing how diet may take an increased importance as a result. We also spent some time discussing the need for resilience and goal setting when finding things difficult, discussing what this may look like. Enzo also mentioned that he may benefit from some talking therapies and so a link was sent for self-referral.

 Read Code Overview Notes Enzo has continued to maintain positive changes towards his exercise. He is walking regularly and has added other healthy habits such as gardening and ensuring that he is taking more time for himself. Enzo has also made more mindful changes to his diet. Looking into the positive effects different foods have on his body. Overall thinking a lot more about what he is putting in as well as how positive habits formulate positive responses. We also spoke about some of the positive changes to Enzo's mindset and how taking a more mindful approach in general towards life has left him feeling more positive about his ability to make change. At the moment Enzo is focusing on remaining positive and continuing to be mindful of changes as well as working towards consistency.

 Read Code Overview Notes Today's appointment predominantly focused on some of the changes Enzo has made to his exercise routine. Enzo has increased his walking again and it continues to positively effect his physical and mental health. We also spent some time talking about habit formation and how Enzo has made some positive changes to his diet, while finding it easier to sustain as he hasn't tried to change things as quickly as he may have in the past. We also spent some time discussing eating habits and the importance of fueling properly, especially with increased exercise.

Read Code Overview Notes Enzo came today pleased with the progress he is making, he has been mindful with his eating and has also increased his exercise, specifically walking a lot more recently which is having a positive effect on both his weight and his mental health. Enzo has noticed that clothes are fitting better and that he is feeling the positive effects of the changes made. Going forward Enzo has set a goal to begin some interval training, looking at, in time going for runs as well as continuing to eat more mindfully. Further to this Enzo is keen to get back in the gym following his hernia op pausing his last referral. Once Enzo feels ready we will look at this option again but prior to our next appointment he is keen to up his exercise further.

 Read Code Overview Notes Today's appointment with Enzo was positive, he is in a good place following his operation and is slowly increasing his exercise, with that Enzo wanted to talk about exercise options and we discussed both the exercise referral as well as looking at some of the monthly membership options. Further to this, Enzo noticed that with increased time indoors etc. that his eating hasn't been as disciplined as it was previously. We talked about motivation around this and looked at some online meal plans that may help to provide Enzo structure. We have agreed to review in a few weeks time when Enzo is back from a trip to Scotland.

 Read Code Overview Notes Today's appointment with Enzo was mostly about touching base following his hernia surgery as Enzo is still recovering. Enzo is starting to feel better and as a result is eating in a way he is happier with and is beginning to do some light exercise such as increasing his walking. We have discussed making a plan that will start in the new year when Enzo is more confident in himself and how his hernia has settled after the operation. We will look in more detail at an eating and exercise plan structured around slowly building up what he is doing.

Read Code Overview Notes Since our last visit Enzo has put on a couple of kilograms but he is aware that this is because his eating and exercise habits have changed slightly due to the pain he is facing with his hernias. We discussed the importance of making good choices, but understanding the balance, especially around Enzo's ongoing situation. Enzo feels as if he has put too much pressure on his diet/exercise over the last while but is now keen to make more sustainable decisions. We talked about the practicalities of this and have agreed to monitor things going forward. Once Enzo has had his operation to deal with his hernia he is also keen to resume exercise at a light rate, working back to more as he goes.

 Dear Mr Serapiglia, Ibuprofen, paracetamol and Windeze are all over the counter remedies that can be bought from a pharmacy as previously done by yourself. We have never prescribed these medications for you before, so you would need to buy them if you require more. If you feel your symptoms are not resolving with over the counter remedies or are worsening, please book an appointment for a review with a clinician. Thanks, Sophie Laye, Pharmacist Holderness Health Sent on 21/08/2025 at 11:54

 Read Code Overview Notes Enzo came in today and discussed some of the difficulties he has had recently including some stressful events as well as having to manage his hernia. We discussed exercise around this and what Enzo may/may not be able to do. Enzo is still awaiting hearing from the gym, we've agreed that we will chase this up next time if not heard. Alongside this we discussed, what exercise might look like in the gym, to manage pain. Further to this we discussed diet, things are going fairly positively, and Enzo has maintained weight, but is keen to make progress ahead of next time.

 Read Code Discussion about social support I met with Enzo today at the council office in the library to look at completing a discretionary payment form as advised by UC, sadly as he does not have a perm address he can not claim for this, however we have been advised that some residents at Sand le Mere do have 12mth contracts and pay c tax and therefore can apply for housing,c tax benefit etc so the next step is for Enzo to contact the site and discuss this possible alteration in his contract, Enzo is going to do this tomorrow as he has rang them today and left a message but they were in a meeting. We have agreed we will have a f/up call in next 2/52 to see how he got on with this and then if good and agreed to make further appt with council office at library to register for c tax and put benefit claims in place from there. Enzo is happy with this plan, he also was in a great deal of pain today and had to sit down to ease his hernia was protruding more than usual he needs to have this checked by the gp and meds looked at, I said I would request this for him.

 Read Code Discussion about social support Enzo was doing ok today, we talked about a few things and what has happened so far with the support and referrals I have put in place, he said he was so grateful for all my help and had told his trauma specialist about me, things are moving forward with financial support and his MH referral is in hand, they spoke to him yesterday with an update of what was happening, Enzo also has a meeting on the 23rd June with UC to get things sorted they are also looking into Social housing and possibly backdating his claim. Enzo would benefit from using the food bank but he did not find his experience at the local one in Withernsea very good, he felt the staff were unhelpful and not very friendly. I have suggested he go to the one in Hedon and have sent him the details of opening times as he said he would not mind travelling to Hedon, I have sent an email along with this so he can show them my recommendation to go, this just gives Enzo a little more confidence when going in and asking for a food parcel. Things are still as they were with the solicitors and the abuse compensation fund, he has tried to contact them to no avail but he has also given the information to Serjeo Mckella his trauma specialist and he is also going to contact them, Enzo has been worried about his sister lately as her partner seems to be taking advantage and using her savings, but they speak regularly and he is supporting where he can, we agreed to have a f.up call after his UC meeting, I explained I have some annual leave coming up, Enzo was happy to wait until I return but knows he can reach out if he needs to before.

Read Code Overview Notes Now seeing BW - hwbc Referral done to EOP PIP now agreed and being paid UC - agreed - has meeting with them on 23/6 to discuss social housing payment and backdate payment Spoke to MHTAT yesterday 18th June, is being referred to specialist in their team Contact made to solicitor re abuse case, awaiting response, also sent this to Serjeo Mckella his trauma specialist Spoken to Sue from CAB - advised to apply for discretionary payment - they can not do this for him but advised who to speak with and sent forms - Enzo will mention this on 23/6 meeting with UC Reluctant to use food bank in Withernsea - staff were not helpful and off putting

Since moving here he has felt that he has received much greater support. Enzo has a decent understanding around diet and exercise and is looking to have support with regard to this. We discussed the exercise referral programme which he is keen to do should there be financial provision to do so. We also looked at BMR to gain an understanding around calories, before looking at eatingwell.com together. Today's session was predominantly about getting to know Enzo and the support he requires. Going forward we will look to set some tangible goals and work towards them focussing on diet, exercise, sleep and stress management as well as working on mindset.

Read Code Discussion about social support Enzo was ok today, everyone I put referrals into for him have been in touch and he feels he is finally getting some support with his situation regarding his finances and housing, he has been told he has been awarded PIP and is waiting for the payments to start but this is a relief for him, Enzo has been to the food bank in SHORES and plans to go again for another and has forms so if he uses their shop he will get a further discount in there too. He has completed forms with CAB and the job centre and waiting now for these to be processed. Enzo does still have anxiety related to the compensation he will be awarded related to the child abuse he and his siblings suffered, he was given an interim payment but the rest is still awaiting to be awarded, he feels they are just dragging it out so that the people abused never get proper justice, it has been ongoing for 15yrs now, solicitors are involved and have chased this as has Enzo, I suggested looking into a support group for the victims that are fighting the award to see if they can offer any help. Enzo said he was so thankful for everything I have done so far and said that I was an Angel that had been sent, this was very humbling to hear and so kind of him to say. Enzo has a tele appt on the 9/6 with the MHTAT, he has not had the letter, I said I will print this off for him to collect, we will speak again after his appt with them, to see how he is and how that goes, I said hopefully when these sessions start this will help him manage some of the anxiety relating to the ongoing battle he faces every day and the court case. He thanked me again

Read Code	Discussion about social support I spoke with Enzo today and it was quite an emotional discussion for both of us, Enzo has suffered things as a young boy that no one should ever have to experience. His parents moved to Scotland from Italy, Enzo was born in Scotland and his father worked 17hr days to be able to send him and his siblings to the Catholic Church Boarding School, this is where he and his siblings were subjected to years of horrendous child abuse, sexually, physically and mentally. Enzo told me about how he woke every night at 3am and finally with the help of a psychiatrist he realised this was the time every night the nuns would take him from his bed, to the educational building drug him and then take him to priests where he was raped, he also recalled being taken to a priests house where he was subjected to being raped multiple times by several priests and men. Enzo shared this with me and said he wanted me to share this with the other services and organisations I refer him to, so they understand why he needs support, he also has an ongoing court case regarding this linked to the Scottish Child Abuse Enquiry so a very high profile case but again this is taking its toll on him emotionally He said he can remember it every time he closes his eyes but is willing to get any support he can to learn to cope and try live his life as normally as he can. He has never been able to form close relationships because of what happened and when his parents died, he had told them about what had happened and he said he feels like this killed them. Enzo was the first person to come forward and speak up about what happened, which was so incredibly brave and gave others the courage to do the same. We agreed I would refer Enzo to CAB, PCMHT, Food Bank Shores, Ben Wood H&WBC and also send him information for Mind UK, Andysmanclub and the food bank in Hedon. We agreed I would call him again in a few weeks to make sure he had been contacted by the services.

He was going to get it operated on in Scotland but then covid started and was put off. It is now causing pain in the abdomen and hurts when coughing. He would like to get it operated on. Examination: Umbilical hernia -mainly supraumbilical size of a lemon but can be easily reduced. Abdomen soft, no tenderness apart from supraumbilical tenderness. I would value your expert assessment and opinion regarding his future management. Kind Regards Dr S Garud GP

Privacy Notice for Patients

To make sure you receive the best possible care, records are kept about your health and social care needs and any treatment or services we provide. These can be kept both electronically and on paper and may include information from other health organisations such as your GP. This information will be used to manage the care you receive and may be shared with others providing you with care, including those outside of the NHS. We may also need to use information about you to:

- Review the care we provide to ensure it is of the highest standard and quality.
- Protect the health of the general public.
- Manage the health service and ensure services can meet future patient needs.
- Investigate patient queries, complaints, and legal claims.
- Ensure the Trust receives payment for the care you receive.
- Prepare statistics on NHS performance.
- Audit NHS accounts and services.
- Undertake health research and development.
- Helping to train and educate healthcare professionals.

For these purposes we use anonymous data wherever possible

Everyone working within the health and social care service has a legal duty to keep information about you confidential. We will not share information unless:

- You give us specific permission.
- We have to share by law.
- We have good reason to believe that failing to share the information will put your or someone else at risk of serious harm or abuse.
- We hold information that is essential to prevent, detect, investigate, or punish a serious crime.

Accurate information is vital to providing care. If any of your details have changed, please inform a member of staff involved in your care.

You have the right of access to information we hold about you. If you want to see your records, please speak to a member of staff involved in your care.

The Trust shares information with National Records Locator Service (NRLS) and the Yorkshire and Humber Care Record. Both initiatives help to provide staff involved in your care access to the most up to date information about you. Please visit <https://www.humber.nhs.uk/patients-carers/data-protection-and-information-governance/> for more information.

If you would like to know more about how we use your information or if you do not wish to have your information used in any of the ways described in this leaflet, please raise with a member of staff involved in your care. Your care will not be affected if you wish to do this.

Please scan the QR code from your smart phone to view a more detailed Privacy notice or online at <https://www.humber.nhs.uk/patients-carers/data-protection-and-information-governance/>. You can also get a paper copy from any Trust Reception Desk.

UMBILICAL HERNIA PROBLEM -

Chief Complaint

Abdominal pain

Injured on	Place of injury	Injury mechanism
Not Recorded	Not Recorded	Not Recorded

History of Presenting Complaint

Pt has an umbilical hernia, awaiting surgery

4:30pm yesterday sudden onset 10/10 pain from the umbilical hernia and unable to reduce it

Normally can reduce the hernia

Pain was very severe from then until analgesia with paramedics at around 1:30am

Opened bowels x 2 yesterday after 4:30pm

No vomiting

Describes an episode of the hernia becoming purple a few days ago

Gets intermittent discomfort with the hernia but this is the first time it was severe and constant

Pain currently manageable

Lactate 0.9

Disclosed information about an ongoing police investigation into historical childhood abuse he experienced at Catholic boarding school, states he was repeatedly punched in abdomen and queried whether this was the cause of the hernia

Working Diagnosis

? incarcerated hernia

Management Plan

1. Discussion with General Surgery

2. Bloods

3. Analgesia

Medical Notes

CT AP - Paraumbilical hernia containing fat only, in right lower abdomen there is a short loop of collapsed small bowel, not suggestive of obstruction, appearances raise suspicion of an internal hernia

General Surgery registrar aware of report and will r/v, Lactate 0.9

Discussed with General Surgery registrar - for CT AP, Bloods inc FBC, U&Es, LFTs, CRP,

Amylase - normal

Suspected diagnosis at discharge

2.1.4. Any associated advisory, compensatory or restorative process.

2.2. Requests made by the Representative shall be treated as made personally by the Client.

3. SCOPE OF AUTHORITY

3.1. This Authority applies to all public and private bodies including (without limitation):

3.1.1. Local Authorities and Councils

3.1.2. NHS Boards and GP Practices

3.1.3. Health & Social Care Partnerships

3.1.4. Integration Joint Boards

3.1.5. Religious bodies and orders

3.1.6. Residential and foster care providers

3.1.7. Education authorities and schools

3.1.8. Government departments

3.1.9. Archive services

3.1.10. Insurers holding historical liability files

3.1.11. Successor, merged or restructured public bodies

3.2. The Authority applies whether Records are:

3.2.1. Archived, microfiche, digitised or handwritten;

3.2.2. Stored off-site by contractors;

3.2.3. Held by dissolved or reconstituted institutions;

3.2.4. Transferred following statutory reorganisation.

3.3. The Client requests that records not be withheld solely on administrative grounds such as archival storage or institutional restructuring including, for example:

3.3.1. The institution has closed or restructured;

3.3.2. Records are archived or require manual retrieval;

3.3.3. Records are held by insurers or successor bodies;

3.3.4. Retrieval involves time or administrative burden.

4. SPECIAL CATEGORY DATA – EXPLICIT CONSENT

MMA Legal Limited, a company registered in England and Wales (registered number: 13900519) is authorised and regulated by the Solicitors Regulation Authority. Access the SRA's rules at <http://www.sra.org.uk/solicitors/handbook/welcome.page>
SRA Number: 8000579

- 4.1. For the purposes of Article 9 UK GDPR and Schedule 1 Data Protection Act 2018, the Client gives explicit consent to disclosure of all special category data including:

- 4.1.1. Physical and mental health records
- 4.1.2. Psychiatric and psychological reports
- 4.1.3. Therapy and counselling notes
- 4.1.4. CAMHS records
- 4.1.5. Social work and safeguarding files
- 4.1.6. Ethnicity or religious data where recorded

This includes all NHS and private medical providers.

This explicit consent may be withdrawn at any time by written notice.

5. **CRIMINAL OFFENCE DATA – EXPLICIT CONSENT**

- 5.1. For the purposes of Article 10 UK GDPR and Schedule 1 Data Protection Act 2018, the Client gives explicit consent to disclosure of:

- 5.1.1. Criminal offence data
- 5.1.2. Police investigation material
- 5.1.3. Child protection investigations
- 5.1.4. Statements and intelligence logs
- 5.1.5. Outcome decisions

including records held by:

- 5.1.6. Police Scotland
- 5.1.7. Any predecessor Scottish police force
- 5.1.8. Prosecuting authorities.

6. **THIRD-PARTY DATA AND REDACTION**

- 6.1. The existence of third-party data shall not justify refusal to disclose the Client's personal data.
- 6.2. Where necessary, redaction shall be limited strictly to third-party information.
- 6.3. Mixed data shall be disclosed in redacted form rather than withheld in entirety.

7. **PROPORTIONALITY AND REASONED DECISION-MAKING**

- 7.1. Any refusal, limitation or redaction must:
 - 7.1.1. Identify the specific statutory exemption relied upon;

MMA Legal Limited, a company registered in England and Wales (registered number: 13900519) is authorised and regulated by the Solicitors Regulation Authority. Access the SRA's rules at <http://www.sra.org.uk/solicitors/handbook/welcome.page>
SRA Number: 8000579

- 7.1.2. Explain how that exemption applies to the particular Record;
- 7.1.3. Confirm why partial disclosure is not possible;
- 7.1.4. Be communicated in writing.
- 7.2. Blanket refusal without statutory justification may not satisfy statutory obligations under applicable data protection legislation.
- 7.3. Any reliance upon "disproportionate effort" must provide written reasoning demonstrating why staged disclosure or redaction is not feasible.

8. VALIDITY AND FORMAL REQUIREMENTS

- 8.1. This Deed remains valid for 24 months from execution unless withdrawn in writing.
- 8.2. Disclosure shall not be refused because:
 - 8.2.1. An internal template form has not been used;
 - 8.2.2. The Authority is considered "out of date" within internal policy;
 - 8.2.3. Additional consent is sought beyond reasonable identity verification.
- 8.3. Any organisation acting in good faith reliance upon this Deed shall be fully discharged in making disclosure.

9. REGULATORY AND STATUTORY RIGHTS

In the event of non-compliance, refusal, or unreasonable delay in responding to a lawful request made under this Deed, the Client and/or the Representative reserve the right to pursue any statutory or regulatory remedies available under applicable law.

This may include raising concerns with the relevant supervisory authority or regulator where appropriate.

Nothing in this Deed limits the Client's rights under the UK GDPR, the Data Protection Act 2018, or any other applicable statutory framework.

Withdrawal shall not invalidate disclosures already made in reliance upon this Deed.

EXECUTION AS A DEED

Scotland's
**Redress
Scheme**

Enzo Serapiglia
C/O St. Nicholas Surgery
Queen Street
Withernsea
East Riding of Yorkshire
HU19 2PZ

3rd February 2026

Dear Enzo,

I am writing to confirm that we have received your application for Scotland's Redress Scheme. Your application reference number is : APP109366

Your application will be assigned to a designated case worker who will be responsible for working on your application and will be a point of contact throughout the process.

Please note that due to the high volumes of redress applications received, the time taken to have applications assigned to a case worker is taking longer than we would like. Whilst we cannot provide a timescale for how long it may take to have your application assigned to a case worker, it may be helpful to be aware that we are currently assigning applications that were received in February 2025.

We would like to reassure you that we are working hard to ensure your application will be assigned at the earliest opportunity. You can continue to provide further information to the scheme in order to progress your application. You can also contact the team if you wish to discuss your application. They are here to help and answer any questions you may have.

We have reviewed the documents provided to date, and provide a summary of the further information required below.

In summary:

- Certified ID – information sheet included
- Care records – information sheet included
- Supporting documentation
- Bank details

Support service

We have a support service who can provide practical support with the application, emotional support through the process and support to access records. If you would

Scottish Government
Riaghaltas na h-Alba
gov.scot

like to access support from our support service, please contact us on the details below.

Further Information

We are enclosing a copy of the Summary of Options guidance, and a flow chart providing information about the application process, which we send to all applicants.

We provide some further information about the documentation required to progress your application below:

Bank Statement

You have not provided your bank details. In order to ensure any payment is only received by applicants we will require a bank statement to confirm your account. We do not need to see any transactions, simply your name, address, sort code and account number. If you have any questions regarding this please do not hesitate to contact me.

Certified ID

This information is needed to confirm who you are.
You must do this by providing a certified copy of your identification documents.

You have provided a copy of your passport which is an appropriate identification document, however the scheme requires this to be certified. Please see enclosed/attached information sheet on how to certify documents.

Care Records

For individually assessed payment applications, you need to provide one document to show you were in the care of each relevant care setting you mention in your application.
Please see page 22 of the "Help to Apply" guidance.

I enclose information sheet regarding the different ways to access care records.

Supporting Documents

For individually assessed payment applications, you need to provide at least one document that supports your statement of abuse.
You can read more about documents you can use on page 33 of the "Help to Apply" guidance.

Further help and support

If you have any questions about the contents of this letter, require additional copies of application forms, or require any further support concerning your application, please don't hesitate to get in contact with us.

Solicitor's fees

You can choose to involve a solicitor to support you with your application to Scotland's Redress Scheme. You do not need to involve a solicitor to make an application. You can contact us directly using the details below.

Scotland's Redress Scheme can pay fixed fees directly to your solicitor. This is available to all applicants and is not means tested. You should check that your solicitor will work for the fees available. They should request payment directly from Scotland's Redress Scheme.

You or your solicitor can find out more information on available fees by contacting us using the details below, or by reading the statutory guidance on gov.scot/redress.

Even though the fees are paid by Scotland's Redress Scheme, your solicitor is independent. They will work for you and not for Scotland's Redress Scheme.

Telephone: 0808 175 0808 (freephone)

Lines are open Monday to Thursday from 10am to 4pm, excluding Scottish public holidays. There is an answering machine at other times, and if you leave a message we will get back to you as soon as we can.

Email : apply@redress-scheme.scot

Post : Redress, PO Box 24209, EDINBURGH, EH7 9GT

You can also contact the **Redress Emotional Support Helpline** directly on 0800 211 8403 where you can leave a message and someone will get back to you as soon as possible.

Kind regards

Scotland's Redress Scheme

3.2.4. Transferred following statutory reorganisation.

3.3. The Client requests that records not be withheld solely on administrative grounds such as archival storage or institutional restructuring including, for example:

3.3.1. The institution has closed or restructured;

3.3.2. Records are archived or require manual retrieval;

3.3.3. Records are held by insurers or successor bodies;

3.3.4. Retrieval involves time or administrative burden.

4. SPECIAL CATEGORY DATA – EXPLICIT CONSENT

MMA Legal Limited, a company registered in England and Wales (registered number: 13900519) is authorised and regulated by the Solicitors Regulation Authority. Access the SRA's rules at <http://www.sra.org.uk/solicitors/handbook/welcome.page>
SRA Number: 8000579

4.1. For the purposes of Article 9 UK GDPR and Schedule 1 Data Protection Act 2018, the Client gives explicit consent to disclosure of all special category data including:

- 4.1.1. Physical and mental health records
- 4.1.2. Psychiatric and psychological reports
- 4.1.3. Therapy and counselling notes
- 4.1.4. CAMHS records
- 4.1.5. Social work and safeguarding files
- 4.1.6. Ethnicity or religious data where recorded

This includes all NHS and private medical providers.

This explicit consent may be withdrawn at any time by written notice.

5. **CRIMINAL OFFENCE DATA – EXPLICIT CONSENT**

5.1. For the purposes of Article 10 UK GDPR and Schedule 1 Data Protection Act 2018, the Client gives explicit consent to disclosure of:

- 5.1.1. Criminal offence data
- 5.1.2. Police investigation material
- 5.1.3. Child protection investigations
- 5.1.4. Statements and intelligence logs
- 5.1.5. Outcome decisions

including records held by:

- 5.1.6. Police Scotland
- 5.1.7. Any predecessor Scottish police force
- 5.1.8. Prosecuting authorities.

6. **THIRD-PARTY DATA AND REDACTION**

- 6.1. The existence of third-party data shall not justify refusal to disclose the Client's personal data.
- 6.2. Where necessary, redaction shall be limited strictly to third-party information.
- 6.3. Mixed data shall be disclosed in redacted form rather than withheld in entirety.

7. **PROPORTIONALITY AND REASONED DECISION-MAKING**

- 7.1. Any refusal, limitation or redaction must:
 - 7.1.1. Identify the specific statutory exemption relied upon;

MMA Legal Limited, a company registered in England and Wales (registered number: 13900519) is authorised and regulated by the Solicitors Regulation Authority. Access the SRA's rules at <http://www.sra.org.uk/solicitors/handbook/welcome.page>
SRA Number: 8000579

- 7.1.2. Explain how that exemption applies to the particular Record;
- 7.1.3. Confirm why partial disclosure is not possible;
- 7.1.4. Be communicated in writing.
- 7.2. Blanket refusal without statutory justification may not satisfy statutory obligations under applicable data protection legislation.
- 7.3. Any reliance upon "disproportionate effort" must provide written reasoning demonstrating why staged disclosure or redaction is not feasible.

8. VALIDITY AND FORMAL REQUIREMENTS

- 8.1. This Deed remains valid for 24 months from execution unless withdrawn in writing.
- 8.2. Disclosure shall not be refused because:
 - 8.2.1. An internal template form has not been used;
 - 8.2.2. The Authority is considered "out of date" within internal policy;
 - 8.2.3. Additional consent is sought beyond reasonable identity verification.
- 8.3. Any organisation acting in good faith reliance upon this Deed shall be fully discharged in making disclosure.

9. REGULATORY AND STATUTORY RIGHTS

In the event of non-compliance, refusal, or unreasonable delay in responding to a lawful request made under this Deed, the Client and/or the Representative reserve the right to pursue any statutory or regulatory remedies available under applicable law.

This may include raising concerns with the relevant supervisory authority or regulator where appropriate.

Nothing in this Deed limits the Client's rights under the UK GDPR, the Data Protection Act 2018, or any other applicable statutory framework.

Withdrawal shall not invalidate disclosures already made in reliance upon this Deed.

3rd February 2026

Dear Enzo,

I am writing to confirm that we have received your application for Scotland's Redress Scheme. Your application reference number is : APP109366

Your application will be assigned to a designated case worker who will be responsible for working on your application and will be a point of contact throughout the process.

Please note that due to the high volumes of redress applications received, the time taken to have applications assigned to a case worker is taking longer than we would like. Whilst we cannot provide a timescale for how long it may take to have your application assigned to a case worker, it may be helpful to be aware that we are currently assigning applications that were received in February 2025.

We would like to reassure you that we are working hard to ensure your application will be assigned at the earliest opportunity. You can continue to provide further information to the scheme in order to progress your application. You can also contact the team if you wish to discuss your application. They are here to help and answer any questions you may have.

We have reviewed the documents provided to date, and provide a summary of the further information required below.

In summary:

- Certified ID – information sheet included
- Care records – information sheet included
- Supporting documentation
- Bank details

Support service

We have a support service who can provide practical support with the application, emotional support through the process and support to access records. If you would

like to access support from our support service, please contact us on the details below.

Further Information

We are enclosing a copy of the Summary of Options guidance, and a flow chart providing information about the application process, which we send to all applicants.

We provide some further information about the documentation required to progress your application below:

Bank Statement

You have not provided your bank details. In order to ensure any payment is only received by applicants we will require a bank statement to confirm your account. We do not need to see any transactions, simply your name, address, sort code and account number. If you have any questions regarding this please do not hesitate to contact me.

Certified ID

This information is needed to confirm who you are.
You must do this by providing a certified copy of your identification documents.

You have provided a copy of your passport which is an appropriate identification document, however the scheme requires this to be certified. Please see enclosed/attached information sheet on how to certify documents.

Care Records

For individually assessed payment applications, you need to provide one document to show you were in the care of each relevant care setting you mention in your application.
Please see page 22 of the "Help to Apply" guidance.

I enclose information sheet regarding the different ways to access care records.

Supporting Documents

For individually assessed payment applications, you need to provide at least one document that supports your statement of abuse.
You can read more about documents you can use on page 33 of the "Help to Apply" guidance.

Further help and support

If you have any questions about the contents of this letter, require additional copies of application forms, or require any further support concerning your application, please don't hesitate to get in contact with us.

Solicitor's fees

You can choose to involve a solicitor to support you with your application to Scotland's Redress Scheme. You do not need to involve a solicitor to make an application. You can contact us directly using the details below.

Scotland's Redress Scheme can pay fixed fees directly to your solicitor. This is available to all applicants and is not means tested. You should check that your solicitor will work for the fees available. They should request payment directly from Scotland's Redress Scheme.

You or your solicitor can find out more information on available fees by contacting us using the details below, or by reading the statutory guidance on gov.scot/redress.

Even though the fees are paid by Scotland's Redress Scheme, your solicitor is independent. They will work for you and not for Scotland's Redress Scheme.

Telephone: 0808 175 0808 (freephone)

Lines are open Monday to Thursday from 10am to 4pm, excluding Scottish public holidays. There is an answering machine at other times, and if you leave a message we will get back to you as soon as we can.

Email : apply@redress-scheme.scot

Post : Redress, PO Box 24209, EDINBURGH, EH7 9GT

You can also contact the **Redress Emotional Support Helpline** directly on 0800 211 8403 where you can leave a message and someone will get back to you as soon as possible.

Kind regards

Dear Dr Menon

SERAPIGLIA Enzo, DOB (07/12/1967)

Co Holderness Health, Queen Street, Withernsea, HU19 2PZ

Mr Serapiglia presented to SAU today for investigation into his paraumbilical hernia wound as it has been leaking a lot. He has this operation on 24/10/25.

On review he stated he felt otherwise well, he went to his dressing clinic yesterday and was told to get it checked out in SAU.

On examination the wound was leaking mainly serous fluid with some pus, from both ends. He had a US of his abdomen which showed a small collection. In SAU we tried to squeeze as much of this collection out as possible and redressed the wound.

He had already been prescribed antibiotics so we are happy to continue with those.

We have discharged Enzo with advice to continue dressing this wound when the dressing becomes wet, and to try to massage/squeeze any fluid out of the wound whenever he changes the dressing.

We have safety netted him and advised if he develops any nausea, fevers or vomiting he should come back to SAU.

Yours sincerely

Dr Thomas Muskett FY1

Dear Dr The Holderness Gps

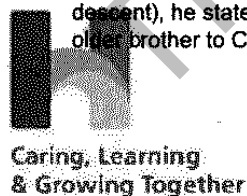

NHS: 732 354 2715, Enzo Serapiglia, DOB: 07 December 1967

Enzo had an appointment with the Mental health Triage and Assessment Team on 09.06.25.

The Summary and formulation of the referral is:

have suggested that the times he wakes up in the night, is because it is the time they were taken out from their beds. He states he consistently feels dirty, he finds that he repeatedly cleans his caravan, his car and even himself. He states he will often use Dettol even on himself. He doesn't dislike cleaning but advised he does it often and repeatedly. Enzo states at times he doesn't want to see anyone and just wants his own company. He states he sometime wants to go out and then at times will want to be alone when out. He advised he can struggles with panic and anxiety when in bog supermarkets or around large groups of people. He finds that anxiety can lead him to go back and forth to the toilet to urinate. Enzo experiences flashbacks and nightmares continuously. He states he can be triggered by various factors which can include smells. He advised at times he may be eating his meal and a smell triggers his symptoms and he has to go to vomit.

B: Background: Enzo advised his parents met in Scotland (dad had come from Italy and mum was Italian descent), he states they worked very hard to be able to pay the fees to send he, his twin sister and their older brother to Catholic Boarding School. He states he was sent to the nuns of Cluny and then the Marist

priests who abused him. He states Jimmy Saville had been at the school and it was a mass paedophile ring and is now the Scottish Abuse Inquiry. He advised he has been fighting this for fifteen years and his solicitor has been ignoring his calls. He states he has provided numerous reports to the solicitors but every time he tries to contact them, he is told the solicitor is busy and not available. He advised he just wants answers, he feels it is exhausting to know it has all gone on, he gets a point where he can 'see the light' and then it is taken away again. Enzo advised he, his twin sister and older brother were molested from him being aged five until aged eleven, unbeknown to his parents that only found out around twenty years ago. He states they would be taken out of dormitories at 1am, 2am and 3am, made to put on a dressing gown and walked to an educational building. The educational building was a waiting room to get an injection to make them tired so they could be raped. He states they were subject to physical, sexual, emotional and psychological violence. Enzo states he was also molested by his brother who died last year, he advised he doesn't blame his brother as his brother had endured what Enzo had.

Enzo advised he has had numerous support including:

- Sergio Bechelli – 07595 821258 – sergio@incaresurvivors.org.uk. He advised Sergio is from Wellbeing Scotland and is a trauma specialist. The service is for the survivors of childhood sexual abuse, he states he is able to contact Sergio during stressful times, he states he can talk to him like talking to a doctor.
- Dr John Jameson, psychotherapist.
- Private doctor Dr Mahmood – his parents paid for private care; they had paid for the treatment for many years as he had experienced depression but they could not get to the bottom of it.
- Dr Martin Livingstone who wrote a report of what he suffers with, Enzo does have a copy of the report, I advised it may be helpful for any receiving teams.

A: Assessment: Due to this being a remote appointment I could not assess appearance and/or body language. Rapport was maintained throughout. Speech was normal in terms of flow, rate, tone, and fluency. There was no evidence of thought disorder, thought blocking or perceptual abnormality.

R: Recommendation: Enzo has endured significant childhood abuse that is currently still an ongoing court case that is a very public enquiry due to the enormity of it. The significant abuse, trauma and symptoms alongside the current enquiry are extremely complex and Enzo would benefit from psychological support to manoeuvre his way through his trauma whilst enabling his to develop management techniques to help and support him throughout the enquiry.

Plan: Refer to CMHT for psychological support to manoeuvre his way through his trauma whilst enabling his to develop management techniques to help and support him throughout the enquiry.

Yours sincerely

Enzo is a victim of child abuse, sexual, physical and mental. He is part of the Scottish Child Abuse Enquiry, he was the first to come forward and tell them about the abuse he suffered at the hands of nuns and priests at the Catholic Boarding School he and his siblings were sent to, they were also abused in the same way. There is an ongoing court case regarding this, and it is a very public enquiry due to the

enormity of it. Enzo shared some very harrowing details with me and asked me to share this with the services I referred him to, he told me he worked with a psychiatrist in Scotland the reason he kept waking at 3am every night was because this was the time the nuns would come and take him from his bed, take him to another building the education building drug him then take him to the priests who then abused him, they also took them to the houses of priests and he was subjected to multiple rapes by several different priests and men. Enzo wants to be able to have as normal a life as possible, he was very calm when we spoke and open about what had happened, he did not indicate any inclination of self-harm or suicide just that he wants to be able to live his life. He said he would like to talk to someone regarding his trauma. I have also referred him to CAB, Shores food bank and BW the HWC at HH as he wants to improve his eating habits and fitness. If you could contact him he is very open to all the support available to him now he is living in here in England.

I have been advised by our PCMHT that Enzo case being complex he needs to be assessed by the MHTAT for the right support with his ongoing mental health to deal with the trauma he experienced as a child

Screening rationale: DOUBLE APPT SLOT PLEASE WITH BAND 6, victim of child abuse, sexual, physical and mental. He is part of the Scottish Child Abuse Enquiry, he was the first to come forward and tell them about the abuse he suffered at the hands of nuns and priests at the Catholic Boarding School he and his siblings were sent to, they were also abused in the same way. There is an ongoing court case regarding this, and it is a very public enquiry due to the enormity of it.

Mental health information

(Subjective report from the patient and objective signs and symptoms. Consider the following areas regarding symptoms: Behaviour (has this changed?), Speech (flow, rate, pressure, rapport), Mood (low/high in mood, changes in appetite, sleep, libido, concentration, enjoyment), Thoughts (obsessive, hypervigilant, suicidal. Flow, rate and pattern of thoughts), Perceptions (Hallucinations). Consider historical presentations and treatment also)

Enzo advised his parents met in Scotland (dad had come from Italy and mum was Italian descent), he states they worked very hard to be able to pay the fees to send he, his twin sister and their older brother to Catholic Boarding School. He states he was sent to the nuns of Cluny and then the Marist priests who abused him. He states Jimmy Saville had been at the school and it was a mass paedophile ring and is now the Scottish Abuse Inquiry.

He advised he has been fighting this for fifteen years and his solicitor has been ignoring his calls. He states he has provided numerous reports to the solicitors but every time he tries to contact them, he is told the solicitor is busy and not available. He advised he just wants answers, he feels it is exhausting to know it has all gone on, he gets a point where he can 'see the light' and then it is taken away again.

Enzo advised he, his twin sister and older brother were molested from him being aged five until aged eleven, unbeknown to his parents that only found out around twenty years ago. He states they would be taken out of dormitories at 1am, 2am and 3am, made to put on a dressing gown and walked to an educational building. The educational building was a waiting room to get an injection to make them tired so they could be raped. He states they were subject to physical, sexual, emotional and psychological violence.

Enzo states he was also molested by his brother who died last year, he advised he doesn't blame his brother as his brother had endured what Enzo had.

Enzo advised he has had numerous support including:

- Sergio Bechelli – 07595 821258 – sergio@incare survivors.org.uk He advised Sergio is from Wellbeing Scotland and is a trauma specialist. The service is for the survivors of childhood sexual abuse, he states he is able to contact Sergio during stressful times, he states he can talk to him like talking to a doctor.

- Dr John Jameson, psychotherapist.

- Private doctor Dr Mahmood – his parents paid for private care, they had paid for the treatment for many years as he had experienced depression but they could not get to the bottom of it.

- Dr Martin Livingstone who wrote a report of what he suffers with, Enzo does have a copy of the report, I advised it may be helpful for any receiving teams.

Current difficulties/symptoms:

Enzo advised he doesn't sleep well at night, he states various psychotherapists have suggested that the times he wakes up in the night, is because it is the time they were taken out from their beds.

He states he consistently feels dirty, he finds that he repeatedly cleans his caravan, his car and even himself. He states he will often use Dettol even on himself. He doesn't dislike cleaning but advised he does it often and repeatedly.

Enzo states at times he doesn't want to see anyone and just wants his own company. He states he sometime wants to go out and then at times will want to be alone when out. He advised he can struggles

with panic and anxiety when in bog supermarkets or around large groups of people. He finds that anxiety can lead him to go back and forth to the toilet to urinate. Enzo experiences flashbacks and nightmares continuously. He states he can be triggered by various factors which can include smells. He advised at times he may be eating his meal and a smell triggers his symptoms and he has to go to vomit.

Social circumstances (Who does the patient live with? Is their housing settled? Financial situation. How is the problem affecting their life?)

Enzo is currently living in a holiday home on a caravan holiday park. He advised he has got some friends in the area and states he has not managed to hold down relationships due to the lack of trust he has developed.

Enzo advised both his parents have died, his dad died nine years ago to pancreatic cancer and his mother died eight years ago of a broken heart. He states his brother died last year, and his sister, he still has contact with but she can be chaotic and is sometimes bedridden with depression due to the trauma.

Enzo had been living in Scotland with his sister, he advised his sister had to sell her house but he was advised he couldn't be house by the local authority due to asylum seekers taking the vacancies. He states he then went to Halfords and bought a tent that he had stayed in prior to coming to England around two years ago. Enzo has recently begun working with Sharron who has been really helpful. He states all his benefits have been changed, ESA to UC and ADL (Scottish adult disability allowance changed to PIP).

Enzo states the biggest stressors are the solicitor who he is struggling to make contact with and the CICA (Criminal Injuries Compensation Tribunal Service), he states they will not pay out and keep asking who his mental health specialist. He advised he got an interim payment two years ago and he had tried to get housing in England. HE states he could not get local authority housing as he needed to be a resident in England for five years, this is why he used the money for a static caravan to keep him from being homeless. Enzo states it is not about the money but it would be helpful for continuing his life generally.

Summary and formulation of referral:

S: Situation: Enzo advised he doesn't sleep well at night, he states various psychotherapists have suggested that the times he wakes up in the night, is because it is the time they were taken out from their beds. He states he consistently feels dirty, he finds that he repeatedly cleans his caravan, his car and even himself. He states he will often use Dettol even on himself. He states he can be triggered by various factors which can include smells. He advised at times he may be eating his meal and a smell triggers his symptoms and he has to go to vomit.

B: Background: Enzo advised his parents met in Scotland (dad had come from Italy and mum was Italian descent), he states they worked very hard to be able to pay the fees to send he, his twin sister and their older brother to Catholic Boarding School. He states he was sent to the nuns of Cluny and then the Marist priests who abused him. A: Assessment: Due to this being a remote appointment I could not assess appearance and/or body language. Rapport was maintained throughout. Speech was normal in terms of flow, rate, tone, and fluency. There was no evidence of thought disorder, thought blocking or perceptual abnormality.

R: Recommendation: Enzo has endured significant childhood abuse that is currently still an ongoing court case that is a very public enquiry due to the enormity of it. The significant abuse, trauma and symptoms alongside the current enquiry are extremely complex and Enzo would benefit from psychological support to manoeuvre his way through his trauma whilst enabling him to develop management techniques to help and support him throughout the enquiry.

Refer to the Decision-Making Matrix and service provision guidelines					
Emergency response	Within 4hr response	Within 24hr response	Within 72hr response	Within 4 weeks response	IAPT Service (See IAPT criteria)
Initial mental health assessments are an intervention to identify need and possible onward referrals to support the mental health of the patient. Assessments should be purposeful to the patient. Priority should be based on risk and need as follows: • Emergency – Emergency service response • 4hr/Very urgent assessment - Very high risk of imminent harm to self or others • 24hr/Urgent assessment - High risk of harm to self or others and/or high distress especially in absence of capable supports • 72hr/Semi-urgent assessment – Moderate risk of harm and/or significant distress • 4 weeks/Routine assessment – Low risk of harm in short term or moderate risk with good support/stabilising factors <i>If the disability, distress, or risk cannot be managed safely in the timeframe for assessment, the patient should receive a higher-level intervention.</i> *To be used in conjunction with the UK Mental Health Triage Scale – See MHCIT SOP*					IAPT services provide support for a range of mild to moderate psychological problems. Consider the following criteria before referral to services: • Severe and enduring mental health problems • Reported current symptoms of psychosis/bi-polar disorder • Personality disorder • Severe Self Harm thoughts and high levels of risk • Drug and alcohol use which disrupts engagement in treatment • Multiple Trauma PTSD • Complex PTSD

Dear Dr Akpan,

Re: Mr Enzo Serapiglia DOB 07/12/1967
Co Holderness Health Queen Street Withernsea HU19 2PZ
NHS No: 732 354 2715

Many thanks to you for asking me to see Mr Serapiglia who is a very pleasant 58 year old gentleman with a fairly awful childhood by the sounds of things but who presents today because he has got a paraumbilical hernia.

This contains omentum which is not reducible and the hernia is about 15cm in diameter though the defect will be much smaller than this. He also believes he has a hernia under the left rib cage and one in the right pararectus area above the umbilicus but I could detect clinically no evidence of a hernia in either site. Apparently, he has had a CT scan which has suggested it but I do not have a copy to reference. If he did have hernias in this site, it would be most unusual. He is reasonably fit and healthy and I am happy to organise surgical repair, whether this be by mesh or by suture will depend on the quality of the tissues and the size of the hole and he understands this. Because it is locally quite uncomfortable, I will try and give him some priority for an open repair under general anaesthetic. He lives alone, so it might be better to do this on an evening list with an overnight stay.

Yours sincerely

SUPPLEMENTARY QUESTIONS – These questions and the patient declaration are optional and your answers will not affect your entitlement to register or receive services from your GP.

PATIENT DECLARATION for all patients who are not ordinarily resident in the UK

Anybody in England can register with a GP practice and receive free medical care from that practice.

However, if you are not 'ordinarily resident' in the UK you may have to pay for NHS treatment outside of the GP practice. Being ordinarily resident broadly means living lawfully in the UK on a properly settled basis for the time being. In most cases, nationals of countries outside the European Economic Area must also have the status of 'indefinite leave to remain' in the UK.

Some services, such as diagnostic tests of suspected infectious diseases and any treatment of those diseases are free of charge to all people, while some groups who are not ordinarily resident here are exempt from all treatment charges.

More information on ordinary residence, exemptions and paying for NHS services can be found in the Visitor and Migrant patient leaflet, available from your GP practice.

You may be asked to provide proof of entitlement in order to receive free NHS treatment outside of the GP practice, otherwise you may be charged for your treatment. Even if you have to pay for a service, you will always be provided with any immediately necessary or urgent treatment, regardless of advance payment.

The information you give on this form will be used to assist in identifying your chargeable status, and may be shared, including with NHS secondary care organisations (e.g. hospitals) and NHS Digital, for the purposes of validation, invoicing and cost recovery. You may be contacted on behalf of the NHS to confirm any details you have provided.

Please tick one of the following boxes:

- a) ☐ I understand that I may need to pay for NHS treatment outside of the GP practice
- b) ☐ I understand I have a valid exemption from paying for NHS treatment outside of the GP practice. This includes for example, an EHIC, or payment of the Immigration Health Charge ("the Surcharge"), when accompanied by a valid visa. I can provide documents to support this when requested
- c) ☐ I do not know my chargeable status

I declare that the information I give on this form is correct and complete. I understand that if it is not correct, appropriate action may be taken against me.

A parent/guardian should complete the form on behalf of a child under 16.

How will your EHIC/PRC/S1 data be used? By using your EHIC or PRC for NHS treatment costs your EHIC or PRC data and GP appointment data will be shared with NHS secondary care (hospitals) and NHS Digital solely for the purposes of cost recovery. Your clinical data will not be shared in the cost recovery process.

Your EHIC, PRC or S1 information will be shared with Business Service Authority for the purpose of recovering your NHS costs from your home country.

Dear Mr Enzo Serapiglia

A REMINDER TO YOU

We recently sent you a bowel cancer screening test kit. This is a test you carry out at home. The test kit detects blood in your poo/faeces (blood you would not notice by eye). Finding blood does not diagnose bowel cancer but means you need further tests (usually a bowel examination). Most people's kit result shows they do not need any further tests.

We do not have a record of receiving your completed test kit. If you want to take part in bowel cancer screening, please complete and return your kit.

Please contact us if you:

- need a replacement kit
- have any questions or concerns about using the kit
- do not wish to take part in the screening programme
- need help from family or a carer to use the kit (you'll need extra information about consent)

If you are planning on returning your test kit, you do not need to contact us.

If we do not receive a completed test kit from you, we will not contact you again until your next screening invitation is due. This will be in 2 years' time, unless you have reached the age of 75 by then. We do not automatically invite people aged 75 or over, but they can request a test kit every 2 years by calling our free helpline.

Yours sincerely

Caroline Addison

Dear Mr Enzo Serapiglia

A REMINDER TO YOU

We recently sent you a bowel cancer screening test kit. This is a test you carry out at home. The test kit detects blood in your poo/faeces (blood you would not notice by eye). Finding blood does not diagnose bowel cancer but means you need further tests (usually a bowel examination). Most people's kit result shows they do not need any further tests.

We do not have a record of receiving your completed test kit. If you want to take part in bowel cancer screening, please complete and return your kit.

Please contact us if you:

- need a replacement kit
- have any questions or concerns about using the kit
- do not wish to take part in the screening programme
- need help from family or a carer to use the kit (you'll need extra information about consent)

If you are planning on returning your test kit, you do not need to contact us.

If we do not receive a completed test kit from you, we will not contact you again until your next screening invitation is due. This will be in 2 years' time, unless you have reached the age of 75 by then. We do not automatically invite people aged 75 or over, but they can request a test kit every 2 years by calling our free helpline.

Yours sincerely

Caroline Addison
Hub Director

SUPPLEMENTARY QUESTIONS – These questions and the patient declaration are optional and your answers will not affect your entitlement to register or receive services from your GP.

PATIENT DECLARATION for all patients who are not ordinarily resident in the UK

Anybody in England can register with a GP practice and receive free medical care from that practice.

However, if you are not 'ordinarily resident' in the UK you may have to pay for NHS treatment outside of the GP practice. Being ordinarily resident broadly means living lawfully in the UK on a properly settled basis for the time being. In most cases, nationals of countries outside the European Economic Area must also have the status of 'indefinite leave to remain' in the UK.

Some services, such as diagnostic tests of suspected infectious diseases and any treatment of those diseases are free of charge to all people, while some groups who are not ordinarily resident here are exempt from all treatment charges.

More information on ordinary residence, exemptions and paying for NHS services can be found in the Visitor and Migrant patient leaflet, available from your GP practice.

You may be asked to provide proof of entitlement in order to receive free NHS treatment outside of the GP practice, otherwise you may be charged for your treatment. Even if you have to pay for a service, you will always be provided with any immediately necessary or urgent treatment, regardless of advance payment.

The information you give on this form will be used to assist in identifying your chargeable status, and may be shared, including with NHS secondary care organisations (e.g. hospitals) and NHS Digital, for the purposes of validation, invoicing and cost recovery. You may be contacted on behalf of the NHS to confirm any details you have provided.

Please tick one of the following boxes:

- a) ☐ I understand that I may need to pay for NHS treatment outside of the GP practice
- b) ☐ I understand I have a valid exemption from paying for NHS treatment outside of the GP practice. This includes for example, an EHIC, or payment of the Immigration Health Charge ("the Surcharge"), when accompanied by a valid visa. I can provide documents to support this when requested
- c) ☐ I do not know my chargeable status

I declare that the information I give on this form is correct and complete. I understand that if it is not correct, appropriate action may be taken against me.

A parent/guardian should complete the form on behalf of a child under 16.
