## Problems

### Active

**27-Apr-2026 Mr Jamaine McLintock (JMCL)**  
DNA surgery appointment - 1st letter

**19-Mar-2025 Miss Erin Livingstone (SIM)**  
Monoclonal gammopathy of uncertain significance  
IgG kappa

**09-Mar-2017 Ms June Hay (JUNE\_18964)**  
Plantar fasciitis

**15-July-2015 Dr Parisa Ghanbari (PG)**  
Impaired fasting glycaemia

**24-Mar-2015 Ms Janey Fitzpatrick (JANEY\_18964)**  
Written advice about long acting reversible contraception

**14-Feb-2014 Ms Alexis Connolly (ALEXIS\_18964)**  
Failed encounter

**07-Feb-2014 Ms June Hay (JUNE\_18964)**  
Written advice about long acting reversible contraception

**28-Nov-2013 Miss Kimy Kennedy (TEMP)**  
Written advice about long acting reversible contraception

**03-Sept-2007 UnknownUser (UnknownUse18964)**  
Hypothyroidism NOS

### Significant Past

**22-Oct-2025 Miss Erin Livingstone (SIM)**  
Closed fracture ankle, lateral malleolus (Right)

**07-Nov-2024 Miss Erin Livingstone (SIM)**  
Ultrasound guided foam sclerotherapy for varicose vein leg (Left)

**13-Sept-2024 Ms Katie MacMillan (KBM)**  
Attended breast screening clinic  
result normal

**31-Oct-2023 Ms Janey Fitzpatrick (JANEY\_18964)**  
Osteoarthritis  
mild oa l knee

**09-May-2022 Ms June Hay (JUNE\_18964)**  
Phlebitis and thrombophlebitis

**23-Dec-2021 Miss Mariam Ghaus (MIR)**  
COVID-19 confirmed by laboratory test

**24-Feb-2020 Ms June Hay (JUNE\_18964)**  
Chest pain  
musculoskeletal

**09-Dec-2016 Ms Ros McKelvie (ROSALIND\_18964)**  
Injection of steroid for local action NEC

### Minor Past

**14-Mar-2024 Dr Alan Petrie (AP)**  
Chest infection

**16-Aug-2023 Dr Claire Reid (CR)**  
Thrombophlebitis NOS

**15-Mar-2023 Dr Claire Reid (CR)**  
Bleeding PR

**03-Feb-2020 Dr Mark Robinson (MR)**  
Phlebitis NOS

**06-May-2014 Dr Parisa Ghanbari (PG)**  
Candidal vulvovaginitis

**06-Aug-2013 Dr Stephanie Cameron (CAMERON\_18964)**  
Vaginal discharge symptom

## Consultations

**01-May-2026 Dr Richard Welch (WELC) The Silver Burn Medical PracticeMain Surgery**

History History Tel call. Called twice, rings out, VM left.

**01-May-2026 Dr Richard Welch (WELC) The Silver Burn Medical PracticeMain Surgery**

History History Called again but difficult line and patient coughing +++ so challenging to get any Hx. Agree come down for F2F. Will ask \*\*\*\* to bring her down at end of PM clinic.

**01-May-2026 Dr Richard Welch (WELC) The Silver Burn Medical PracticeMain Surgery**

History History Ongoing cough, never smoker, no asthma. Has had amox then doxy with pred. Sputum negative, bloods normal, has had CXR but not yet reported. Ongoing sinus congestion and possible element of PND but also still cough that comes in short fits then chest feels tight, from chest sputum on occasion and white, no blood, no CP, no ongoing fevers. E&D and PU as normal. No known allergies but has had trouble with hayfever in pregnancy. Currently tree pollen season.

Examination O/E - BP reading Sats 98, pulse 72, T 36.5, Looks well, full sentences, chest clear to bases, no IWOB, coryzal ++.

Examination Systolic blood pressure 107 mm Hg

Examination Diastolic blood pressure 68 mm Hg

Comment Comment Discussed normal results thus far, nil to suggest ongoing infection requiring Abx, may be element of post inflammatory cough, rhinitis and PND. Agree try steroid nasal spray and LABA/ICS inhaler to use 2 puffs BD for a week, then 1 puff BD for a week then PRN weaning to stop. Recall advice and await CXR.

Medication Medication Mometasone Furoate Nasal spray 50 micrograms/dose 140 DOSE TWO SPRAYS TO BE USED IN EACH NOSTRIL EACH DAY

Medication Medication Proxor Inhaler 100 micrograms + 6 micrograms/dose 120 DOSE TWO PUFFS TO BE INHALED TWICE A DAY

**29-Apr-2026 Ms Annmarie Dougall (DD) The Silver Burn Medical PracticeMain Surgery**

Comment Comment Bloods done

**28-Apr-2026 Mr Jamaine McLintock (JMCL) Externally Entered**

**28-Apr-2026 Mr Anonymous User (ANON) MJog**

**24-Apr-2026 Mr Anonymous User (ANON) MJog**

**23-Apr-2026 Dr Alan Petrie (AP) Telephone Consultation**

History History '&gt; very heavy chest infection/ treated previously/for call back'-- productive cough with discoloured sputum. some upper back pain. breathing ok. x2 courses abx as per below. has mould within home

Examination Examination sounds well.

Comment Comment plan- get tests below then f2f review

**02-Apr-2026 Dr Alan Petrie (AP) The Silver Burn Medical PracticeMain Surgery**

Examination O/E - BP reading appears well, if fatigued. afebrile. pulse 88. sats 97.

History Non-smoker attends for review. Resp sx ongoing: productive cough, discoloured [yellow] sputum; sx of breathlessness and wheeze. no haemoptysis.

Comment **Comment** imp- possible ongoing infection. plan- for below. review prn

History **History** still troubled with bilateral ant knee pain, tho r&g;gtl. see past MRI and orhto review

Examination **Examination** good rom at knee. with no crepitus on right

Comment **Comment** re-ref to physio

Medication **Medication** Doxycycline Hyclate Capsules 100 mg 6 CAPSULE TWO TO BE TAKEN ON THE FIRST DAY THEN ONE TO BE TAKEN EACH DAY FOR 4 DAYS

Medication **Medication** Prednisolone Tablets 5 mg 40 TABLET TAKE EIGHT TABLETS IN THE MORNING FOR 5 DAYS

Examination **Examination** Systolic blood pressure . no IWB. trachea central. chest 102 mm Hg clear

Examination **Examination** Diastolic blood pressure 74 mm Hg

**24-Mar-2026 Ms Amy MacDonald (TAP) The Silver Burn Medical PracticeMain Surgery**

Comment **Comment** several day history of worsening respiratory symptoms with productive cough, wheeze and chest tightness following viral prodrome, systemically unwell but maintaining intake, no significant respiratory history. In keeping with chest infection; commenced on oral antibiotics with advice to review if no improvement after course or if symptoms worsen, safety netting given.

Medication **Medication** Amoxicillin Capsules 500 mg 15 CAPSULE ONE TO BE TAKEN THREE TIMES A DAY FOR 5 DAYS

Medication **Medication** Sumatriptan Succinate Tablets 100 mg 6 TABLET ONE TO BE TAKEN AT ONSET OF MIGRAINE; DOSE MAY BE REPEATED AT LEAST TWO HOURS LATER IF ATTACK RECURS

**14-Jan-2026 Ms Annmarie Dougall (DD) General Practice Surgery**

Comment **Comment** Cervical smear defaulter Exclusion From SCCRS Until 14/10/2029. Reason: Defaulter

**23-Aug-2023 Ms Annmarie Dougall (DD) The Silver Burn Medical PracticeMain Surgery**

Comment	Comment Pt req a call back re lump on leg, has another one and was told to get in touch, can call on mobile above.
---------	--

**23-Aug-2023 Dr Claire Reid (CR) Telephone Consultation**

History	History New lump on leg 2 days. Tender but remains solid and sore to touch. No calf swelling. Very slightly red. See later f2f.
---------	---

**23-Aug-2023 Dr Claire Reid (CR) The Silver Burn Medical PracticeMain Surgery**

Medication	Medication Flucloxacillin Capsules 500 mg 20 CAPSULE ONE TO BE TAKEN FOUR TIMES A DAY FOR 5 DAYS
Medication	Medication Naproxen Tablets 500 mg 28 TABLET ONE TO BE TAKEN TWICE A DAY
Medication	Medication Omeprazole Capsules (Gastro-Resistant) 20 mg 28 capsule ONE TO BE TAKEN EACH DAY
Problem	Thrombophlebitis NOS
History	History New lump diff site past 2 days on same leg as prev issue last week This time red and tender Is slightly better since initiating topical rx but still red and painful No calf or leg swelling
Examination	Examination Left leg mediolateral aspect : Erythema confined to discrete tender swelling over site of vein Firmness felt Approx 2Cm x 2cm( marked margins of erythema with pen ) Suggestive of phlebitis Calf soft non tender and no uninalteral leg swelling evident Slight pitting oedema both shins but evident both legs Some minor superficial veins noted medially but no marked varicosities
Comment	Comment Oral ab and NSAID issued with gen advice re leg elevation/hot flannel Guidelines suggest prev DOAC issued off licence for phlebitis as swelling &gt; 5cm so doesn't meet this criteria Agree if no response next 24-48hrs will need referred assessment unit for assessment and will recontact if further issues

**16-Aug-2023 Ms June Hay (JUNE\_18964) The Silver Burn Medical PracticeMain Surgery**

Comment	Comment can you call re pain in leg
---------	-------------------------------------

**16-Aug-2023 Dr Claire Reid (CR) Telephone Consultation**

Problem	Thrombophlebitis NOS
History	History Seen May 22-thrombophlebitis left thigh. Flares up every now and again Vein swells up and gets pain. Using heparanoid cream when flares. Flared up few weeks ago after long walk and the topical rx helped reduce the swelling. No generalised swelling reported. No calf pain/swelling. No redness or heat associated. Main issue is site of vein still painful. Feels issues not as severe as A and E attendance 2002 -agree trial of topical nsaid and wsg -should review if no response to pain relief in next few says Also chronic elbow pain bilateral medially and also feeling TATT
Comment	Comment agree update bloods as fts overdue and note prev raised glucose to investigate tiredness

**15-Mar-2023 Dr Claire Reid (CR) Telephone Consultation**

Problem	Bleeding PR
History	History Been for colonoscopy. Colonoscopy 28/2/23 showed colonic polyp-removed and haemorrhoids thought to account for positive qfit. No further surveillance. Pr bleeding over past week. Feeling tired for some time-on levothyroxine. fresh red blood pr when passing BM past week. Says not constipated. Feels painful lump at back passage which sometimes disappears so attributes to haemorrhoid. In pan and on surface of stool. Bowels open daily. Vague left sided discomfort prior to opening bowels and relieved on opening bowels for some time.
Comment	Comment In view recent colonoscopy try topical Rx and stool softener. TCB if not settling for f2f review. Bloods to be done also esp TFTs.
Medication	Medication Scheriproct Ointment 30 GRAM APPLY SPARINGLY MORNING AND NIGHT AND AFTER EACH BOWEL MOVEMENT (MAX FOUR TIMES DAILY) FOR UP TO 7 DAYS
Medication	Medication Lactulose Solution 3.1-3.7 g/5 ml 500 ml 10 ml Twice daily

Comment Comment sr propranolol , sertraline 50mg ,kioavance

**03-July-2020 Dr Aafia Mubbasher (AM) The Silver Burn Medical PracticeMain Surgery**

History History long chat,intense anxiety crippling thoughts that would harm children by infecting them, throwing tea, or meals after preparing with fear.SAYS not due to covid. has felt better in lockdown. sudden loss \*\*\*\*\* 2 yrs ago MI at home.has 4 \*\*\*\*\* , 1 \*\*\*\*\* when sitting next to them keeps hands away , not to touch them- as if she is monster- embarrassed by idea. \*\*\*\*\* very supportive.  
 Comment Comment wants to come off HRT - started in Nov- my concern that could effect mood but thinks no benefit from it. if wishes adv to wean gradually. not keen onmeds- adv sertraline dose increase as main issue anxiety . agreed to up dose so can come off hrt. propranolol helps, sertraline to 150mg and rev 3 weeks. no Cruis, breathing space, life link. HRT was started as flushing, lack libido. thinks has to go change and if does naturally will be better.  
 Medication Medication Sertraline Hydrochloride Tablets 50 mg 28 tablet ONE TO BE TAKEN EACH DAY

**03-July-2020 Dr Aafia Mubbasher (AM) The Silver Burn Medical PracticeMain Surgery**

History History feels low, tearful. is on sertraline. HRT, thinks HRT- 3mths- new prep not agreeing with her. was on different one before, mood changed briefly cyclical. worse couple weeks. embarrassed by thoughts, says fine with lockdown. seen rossdale this year, OCD/ anxiety put down to delayed grieving lost \*\*\*\*\* 2 years. thinks few things together contributing.wondering if comes off HRT all together and stick to Sertraline and beta blocker. will attend now.

**03-July-2020 Ms Ros McKelvie (ROSALIND\_18964) The Silver Burn Medical PracticeMain Surgery**

**18-Oct-2017 Dr Preeti Krishan (PK) The Silver Burn Medical PracticeMain Surgery**

History	<b>History</b> Wanting to discuss problems with recurrent conjunctivitis right eye for a couple of months - clears then recurs. Worried re BP - checked ok. No diplopia. Occ sharp pain in eye and itch, no nasuea, vision occ blurred when watching TV, red eye. Also hot sensation lateral aspect left foot - plantar fasciitis a lot better, hot sensation intermittent, started after a flight, worried re DVT, wore compression stockings and was wearing flat shoes on holiday. Also no period last 1.5 years, on mini pill. Hot flushes. Low sex drive - wanting to see what can be done about that as ***** younger - advised not enough time to discuss today so to come back for another consult.	
Examination	O/E - BP reading	
Examination	Systolic blood pressure Normal EMVF, pupils reactive. No double vision. Fundoscopy difficult as poor views. Red conjunctiva mainly right eye. No evidence DVT, normal sensation left foot, normal colour and pulses and movement.	131 mm Hg
Examination	Diastolic blood pressure	73 mm Hg
Comment	<b>Comment</b> Advised to see optician urgently and meanwhile try med below for dry eyes and continue with chloramphenicol - bought OTC. Advised hot sensation ? nerve irritation - should settle in next few weeks, r/v if not. Another consult to discuss sex drive and menopausal symptoms.	
Medication	<b>Medication</b> Hypromellose Eye drops 0.3 % 10 ml USE FOUR TIMES A DAY IN THE AFFECTED EYE(S)

**05-Sept-2014 Ms Ros McKelvie (ROSALIND\_18964) The Silver Burn Medical PracticeMain Surgery**

Comment **Comment** For Info - Patient was given supply of 6 Sumatriptan from the Co-op pharmacy as an emergency supply on 30/08, she also received a script for another 6 on mon 1st Sept, we were not informed at this point that she had already had an emergency supply on the Sat. She therefore received 12 sumatriptan in the space of a few days. Joanie pharmacist want this highlighted.

 TABLET ONE TO BE TAKEN EACH DAY

**06-May-2014 Dr Parisa Ghanbari (PG) The Silver Burn Medical PracticeMain Surgery**

Problem Candidal vulvovaginitis  
 History History returned for examination as previously discussed - concerned re small 'lumps' at entrance of vagina. occasionally feels itchy - though I suspect that is to do with the thrush.  
 Examination O/E - BP reading  
 Examination Systolic blood pressure chaperone declined by pt -- 121 mm Hg  
 healthy looking vaginal tissues and cervix thick white discharge in vagina/on cervix - looks like candida - normal healthy looking physiological vaginal tissues with small lumps in mucosa - these are benign. patient reassured. HV and endocervical swabs taken.  
 Examination Diastolic blood pressure 75 mm Hg  
 Comment Comment advised to reduce thyroxine to 100mcg daily. also discussed how to manage recurrent thrush - will try weekly fluconazole capsule for six months. note normal blood glucose sep 13.  
 Medication Medication Fluconazole Capsules 150 mg 24 capsule  
 TAKE ONE CAPSULE PER WEEK

History History Pain at TM joints since accident one month ago see below. Was passenger in car which was stationary at lights, car came into the back of their car, unsure of speed of other car. No LOC at the time, felt "woozy" for short time that evening. Had neck pain for a few weeks, this has eased. Notices jaw clicking in morning, feels like she has to yawn to relieve pain

Examination Examination Full range of neck movements, non tender on palpation over strap muscles of neck. Mild tenderness at TM joints R+L, no palpable clicking, patient reports audible clicking at times. Ears & throat: NAD

Comment Comment Imp: TMJ dysfunction, advice given re analgesia, ?? related to accident... review if symptoms not settling

Medication Medication Ibuprofen Tablets 400 mg 48 tablet ONE TO BE TAKEN THREE TIMES A DAY WHEN REQUIRED WITH OR AFTER FOOD

Comment Comment left message - to make appt for flu vacc nasal spray for \*\*\*\*\*

**08-Nov-2013 Dr Carolyn MacDonald (CM) The Silver Burn Medical PracticeMain Surgery**

History History 1. Involved in RTA 1/52 ago - bumped from behind. Felt sl 'woozy' afterwards, neck sl stiff, tightness over TM joints, slight nose bleed following am, but all settling. Wanted episode recorded.

History History 2. Prominent veins on left forefoot, attributing intermittent sharp pain in this area to this. O/E Does have lease of prominent veins but no evidence thrombophlebits. Mild hallux valgus, marked callus formation ball and heel foot. Adv pain most likley mechanical rahter than related to veins. Self-refer Podiatry.

## Test Requests

**30-Dec-1899 Dr Siobhan Anne Paterson (SP)**

Status Requested  
 Inoculation Risk True  
 Priority Normal  
 Has Fasted? True  
 Is Pregnant? True

## Test Results

**07-Dec-2022 Ms Janey Fitzpatrick (JANEY\_18964)**

**Result:** Bowel Cancer Screening Result  
 BCSP faecal occult blood test abnormal Positive (No range available)

**12-Mar-2019 Ms Annmarie Dougall (DD)**

**Result:** Cervical Cytology  
 Cerv.smear: borderline changes 6 months - (No range available)

**11-Nov-2015 Ms Janey Fitzpatrick (JANEY\_18964)**

**Result:** Cervical Cytology  
 Cervical smear: negative Routine Recall - (No range available)

**17-Apr-2012 Ms Ros McKelvie (ROSALIND\_18964)**

**Result:** Cervical Cytology  
 Cervical smear: negative Routine Recall - Infection present: Fungal. (No range available)

**29-Apr-2026 Mr Anonymous User (ANON)**

**Result:** (Non Coded Event - Full Blood Count )

Nucleated RBC, 0	0 x10 <sup>9</sup> /l	(No range available)
Basophils, 0	0 x10 <sup>9</sup> /l	(No range available)
Eosinophils	0.2 x10 <sup>9</sup> /l	(Range: 0.02 - 0.5)
Monocytes	0.8 x10 <sup>9</sup> /l	(Range: 0.2 - 1)
Lymphocytes	2.7 x10 <sup>9</sup> /l	(Range: 1.1 - 5)
Neutrophils	6 x10 <sup>9</sup> /l	(Range: 2 - 7)
Platelet Count	282 x10 <sup>9</sup> /l	(Range: 150 - 410)
MCH	28.4 pg	(Range: 27 - 32)
Mean Cell Volume	89.7 fl	(Range: 83 - 101)
Haematocrit	0.376 l/l	(Range: 0.37 - 0.47)
Haemoglobin	119 g/l	(Range: 115 - 165)
Red Cell Count	4.19 x10 <sup>12</sup> /l	(Range: 3.8 - 5.8)
White Blood Count	9.8 x10 <sup>9</sup> /l	(Range: 4 - 10)

**29-Apr-2026 Mr Anonymous User (ANON)**

**Result:** (Non Coded Event - Urea & Electrolytes )

Estimated GFR &gt; 60		(No range available)
Creatinine	60 umol/L	(Range: 40 - 130)
Urea	5.6 mmol/L	(Range: 2.5 - 7.8)
Chloride	104 mmol/L	(Range: 95 - 108)
Potassium	4.2 mmol/L	(Range: 3.5 - 5.3)
Sodium	139 mmol/L	(Range: 133 - 146)

**29-Apr-2026 Mr Anonymous User (ANON)**

**Result:** (Non Coded Event - C-reactive Protein )  
 C Reactive Protein 6 mg/L (No range available)

**29-Apr-2026 Mr Anonymous User (ANON)**

**Result:** (Non Coded Event - Bone Profile )

Alkaline Phosphatase	74 U/L	(Range: 30 - 130)
Albumin	40 g/L	(Range: 35 - 50)
Phosphate	1.03 mmol/L	(Range: 0.8 - 1.5)
Calcium (adjusted)	2.4 mmol/L	(Range: 2.2 - 2.6)
Calcium	2.27 mmol/L	(Range: 2.2 - 2.6)

**21-Aug-2025 Mr Anonymous User (ANON)****Result:**(Non Coded Event - Urine Protein )

U Protein:Creatinine	11 mg/mmol creatinine	(No range available)
Urine Protein/volume (Non Coded Event - Urine Protein/volume )		(No range available)
Urine Protein	0.142 g/L	(No range available)
Urine Creatinine	12.9 mmol/L	(No range available)
Urine volume (ml) NA		(No range available)

**21-Aug-2025 Mr Anonymous User (ANON)****Result:**(Non Coded Event - Urine Albumin )

U Alb/Creat Ratio	0.7 mg/mmol creatinine	(No range available)
Urine Albumin	9 mg/L	(No range available)

**29-Nov-2024 Mrs Claire Campbell (C)****Result:**Bowel Cancer Screening Result

BCSP faecal occult blood test normal Negative		(No range available)
---	--	----------------------

**14-Mar-2024 Mr Anonymous User (ANON)****Result:**(Non Coded Event - B. pertussis PCR )

B.pertussis : (Non Coded Event - B.pertussis : )		(No range available)
--	--	----------------------

**08-Sept-2023 Mr Anonymous User (ANON)****Result:**(Non Coded Event - ESR )

**GREATER GLASGOW HEALTH BOARD**

**SOUTHERN GENERAL HOSPITAL**  
 1345 GOVAN ROAD  
 GLASGOW G51 4TF  
 Telephone: 041-445 2466

Dear Dr. BLUER  
 Your patient: FRANCES MCGOWAN Age 21 Unit No. 447792  
 Address: 25 DEAT PL  
 under the care of DR. D. TWEATHLY was discharged from Ward 21 on 13/8/90  
 with a diagnosis of \_\_\_\_\_

A discharge letter will follow. The patient was discharged on the drug treatment detailed below.  
 Further duration of treatment from date of discharge is shown in "Continuation of Treatment" column.  
 A five days supply has/has not been dispensed by the hospital.

Note to the hospital prescriber: (a) In the "Continuation of Treatment" column it is important to state the number of days for which treatment should be continued from the date of discharge.  
 (b) If treatment is to be for an indefinite period, mark 'INDEFINITE'.  
 (c) If treatment is to be intermittent or irregular, give FULL DETAILS in the COMMENTS space below.  
 (d) Mark X in box if child resistant containers are not suitable.  
 (e) Delete N.P. if name of medicine is not required on label.

To the Hospital Pharmacist, please supply the following

NP

Medicine	Form of Preparation e.g. tablets	Dose	Times of Administration			Continuation of Treatment from Date of Discharge (Days)	Quantity, Name & Strength Supplied by Pharmacy

Dear Dr Siddiqui

FRANCES MCGOWAN DOB: 19/01/69 (SG00442792)  
56 PINMORE STREET, FLAT 0/2, GLASGOW, G53 7FU

This patient was seen for her booking visit on 15th May. She is para 3+1. Ultrasound scan confirmed a single, uterine pregnancy at 10+5 weeks giving an EDD of 6th December 2009.

Her booking bloods have been done and she has declined AFP. She is also hypothyroid and is currently taking Thyroxine.

I note her history of anaemia in her last pregnancy requiring transfusion before delivery. We will keep an eye on this in this pregnancy. She is returning to see Dr Pringle in the clinic in 8 weeks time.

Yours sincerely

Oniya Olubunmi  
Sr5 to Dr Pringle

Blood Pressure: 100/62  
Haemoglobin: 109  
Blood Group: B Rh Pos

NB: Recent Thyroid function test shows a raised TSH at 7.37, normal T4 at 11.2. We would be grateful if you could see her in your practice to review her compliance or increase her dose.

*Yours sincerely,  
Oniya  
Sr5 to Dr Pringle*

Dear Dr Siddiqui

FRANCES MCGOWAN DOB: 19/01/69 (SG00442792)  
56 PINMORE STREET, 0/2 GLASGOW, G53 7PU

I reviewed this lady today her symptoms are much improved and she has little pain over her right forearm.

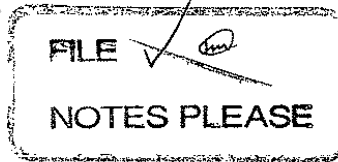

There is no localised tenderness over the fracture site.

X-rays are satisfactory and show the fracture is healing well.

I have advised her to keep the wrist as mobile as possible and discharged her.

Yours sincerely

  
Miss A Augustine  
Specialist Registrar

ORIF AND BONE GRAFTING RIGHT ULNAR SHAFT FRACTURE

I reviewed this lady today. She is very happy with the results of surgery. She has little in the way of discomfort. She says the forearm is slightly weaker than the other side, but it is improving.

Check x-rays are satisfactory showing callus formation.

I explained that we would not normally consider removal of the metalwork unless it causes significant problems. She is doing well.

We will review her in 6 months with an x-ray on arrival, and hopefully discharge.

Yours sincerely

Mr D Martin  
Specialist Registrar

Dear Dr Siddiqui

FRANCES MCGOWAN DOB: 19/01/69 (SG00442792)  
56 PINMORE STREET, GLASGOW, G53 7PU

This lady sustained a fracture of her ulnar 5 months ago. She was seen by one of my colleagues who elected to treat this conservatively which was quite reasonable as it was undisplaced fracture and whilst this has a relatively non-union rate it is still far more likely to unite than not unite. Unfortunately she was not progressing to bony union and has had a variety of casts on for quite a long time. The CT scan shows a non-union. Her radiographs however do look as if they united but on examination the fracture is still mobile and very painful. She therefore needs to come in and have an internal fixation and iliac crest bone grafting. I will do that for her this week on Thursday. I note she has been recently diagnosed as hypothyroid and started on Thyroxine and there are several social issues that are complicating her life at the moment as well. Kind regards.

Yours sincerely

Dear Dr Siddiqui

FRANCES MCGOWAN DOB: 19/01/69 (SG00442792)  
56 PINMORE STREET, GLASGOW, G53 7PU

I explored this lady's right ulnar 10 days ago. At operation, I found a little micro-movement and this must be the cause of her pain. The bulk of the fracture is well on the way to healing and remodelling and therefore, I put a plate in situ to give a bit more stability.

She has found this helpful and has lost the pain. Her wound has healed nicely and she has regained a lot of elbow movement, but was stiff after a long period of immobilisation. Wrist movements are also improving, supination is a bit of a problem, but I am not surprised as the fracture has healed with a bit of angulation and taking this down completely would be inappropriate. I have accepted this position.

I will see her in 2 months to see how she fares with x-rays on arrival.

Yours sincerely

Dear Dr Siddiqui

FRANCES MCGOWAN DOB: 19/01/69 (SG00442792)  
56 PINMORE STREET, , GLASGOW, G53 7PU

DIAGNOSIS: SUSPECTED NON-UNION MID-SHAFT - RIGHT ULNA

I saw this lady in the Fracture Clinic today. It is almost three months since she sustained a mid-shaft ulnar fracture which was treated conservatively in a cast for two months.

Today she complains of pain at the fracture site and on examination of the right forearm there is no obvious swelling or deformity. There is marked tenderness at the fracture site.

X-ray of her right forearm taken today shows callus formation on the medial side, but there is no callus formation on the lateral side and there is 10 degs angulation at the fracture site. There is obviously a delay in the fracture union and I wonder if it might turn into a non-union.

I have discussed the case with Mr Crossman and we have arranged for her to have a CT scan to look for fracture healing. We also wanted to do an X-ray of the right elbow to look for the position of the radial head, but there was some mis-communication and the patient left without having the X-ray.

FRANCES MCGOWAN  
19/01/69

I will arrange another appointment in eight weeks time to have an X-ray of the right elbow. She will be reviewed following her CT scan. In the meantime I have arranged for her to have a removeable splint for her right forearm.

Yours sincerely

MR VIJAYAN - MRCS  
Orthopaedic Registrar

Dear Dr Siddiqui

FRANCES MCGOWAN DOB: 19/01/69 (8G00442792)  
56 PINMORE STREET, , GLASGOW, G53 7PU

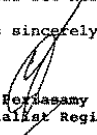

I reviewed this lady today, 9 weeks following her right ulnar midshaft fracture, treated conservatively.

Her elbow was extremely stiff 2 weeks ago, now she has a good ROM, but has a flexion deformity with flexion up to 120 degs. Wrist movement is satisfactory. There is some pain at the fracture site.

I have reassured this lady that the stiffness is improving. She is an anxious lady and I wonder about the small risk of non-union in these fractures.

We will see her back in 4 weeks with x-ray right forearm on arrival.

Yours sincerely

  
Mr K Roxasamy  
Specialist Registrar

Dear Dr Siddiqui

FRANCES MCGOWAN DOB: 19/01/69 (SG06442792)  
56 PINMORE STREET, , GLASGOW, G53 7PU

I reviewed this lady today following her midshaft fractured right ulna.

X-rays today confirms minimal callus.

Out of plaster, she has a stiff elbow and wrist with medial bowing of the ulna.  
I have advised her to start mobilisation of the wrist and elbow and to avoid heavy lifting.

We will see her in 2 weeks.

Yours sincerely

FRANCES MCGOWAN DOB: 19/01/69 (SG00442792)  
56 PINMORE STREET, , GLASGOW, G53 7PU

Diagnosis: Soft tissue injury right wrist

This lady fell of a bike and sustained an injury 3 days ago.

Out of plaster, she is tender over the distal radius, but has a full ROM.

X-rays show no evidence of bony fracture.

She is happy to be out of plaster and mobilise. I have not arranged to review her.

Yours sincerely

Michael G Hullin FRCS  
Consultant Orthopaedic Surgeon

Dear Dr Siddiqui

FRANCES MCGOWAN DOB: 19/01/69 (SG00442792)  
56 PINMORE STREET, , GLASGOW, G53 7PU

Diagnosis: Fractured midshaft right ulnar - 15/07/07  
 Mechanism of injury: Slipped on stairs carrying her baby, landed awkwardly hitting herself on the edge of the stair, the baby landed in her lap.

I reviewed this lady today, she was admitted for a possible ORIF, but it was decided to treat her conservatively following discussion with Mr Hullin.

On examination, she is comfortable in an above elbow backslab. She is able to move her fingers freely and has no neurovascular deficit.

She will be treated in the cast and will be reviewed in 4 weeks with an x-ray on arrival.

Yours sincerely

Dear Dr Siddiqui

RE: FRANCIS MCGOWAN, 56 PINMORE STREET, GLASGOW G53 7PU  
DOB: 19.01.69

This patient of yours had an uneventful pregnancy until term. She failed to go into spontaneous labour and declined induction for post dates. At term +17 she was reviewed again and ultrasound showed significantly reduced liquor volume. At this stage she accepted induction of labour.

On admission for induction full blood count was taken which showed her haemoglobin to be 57g/L. She therefore received a two unit transfusion before proceeding with induction. Delivery was by low cavity forceps for poor maternal effort in the second stage. This proceeded uneventfully with a 500ml blood loss. Infant was a live born female weighing 4.16kg.

Postnatal period was uneventful and she was discharged home with baby on 9<sup>th</sup> August 2004. Postnatal haemoglobin was 58g/L. She was discharged home with Ferrous Sulphate tablets and dietary advice.

We would be grateful if you could see her for post natal examination in six weeks time and check her haemoglobin level.

Yours sincerely

  
BERNARD SCOTT
