Dear Dr. AW Potter,

Darren Downie; D.O.B: 26 Jul 1990; CHI: 2607906571
The Health Centre, PO Box 2309, Glasgow, G33 9BS

Attendance: Specialty - General Surgery; Clinic - GRPCGS3-GS MR P CHONG TUESDAY AM
Date and Time of Appointment - 27/03/2018 11:10

Clinical Comments:

This 27 year old gentleman has been complaining of intermittent pain and has noted a lump in the right side abdominal wall. On examination he is focally tender in the mid right abdominal wall just lateral to the rectus. This is likely to be a lipoma but we will get an ultrasound to rule out a Spigelian hernia. Of note he is currently in prison.

Yours sincerely

Dr Richard Stevenson
