14-Apr-2026 Ms Claire Mcavoy Surgery consultation

Administration Telephone encounter ID confirmed PC: Discussed medication - not contraindications notes so can trial this - suggested reaching out to neurology as it would appear they have cancelled his referral via docman letter - he was unaware of this. Suggested to take treatment if symptoms of chest pain persistent MUST seek AE, WSG and Rf's explicitly outlined -seek rv via GP/111/AE Pt happy with this pan.

14-Apr-2026 Ms Claire Mcavoy Surgery consultation

Symptom (P3) H/O: surgery ID confirmed. PC: Headache PC hx 11/7 day hx - affecting top of head / feels behind eyes are sore / straining No double vision / No blurred vision, becoming more difficult to see - feels focus impacted. Last 2/7 days feels a tightness across chest wall - feels throbbing in nature, historically had anxiety / feels this is different. Feels Sob -no wheezeNo associated jaw pain or limb pain / no weakness or numbness. No palpations / No LL swelling / No DIB / No haemoptysis. No cough. No fevers or temperatures. No N&V, ED ok. Pu and BO as normal. Looks mildly agitated due to severity of headache.Oxygen 98Pulse rate 60 BP 179/90 (left Arm) BP 174/99 Temperature 36.7 Previously admitted to hospital with concerns re stroke - note consult notes 05.01.26 - issued with propranolol 80mg BD) - script does not appear clear - currently only taking 50mg BD. Advice given re increasing dosage. SC - fluids/ rest / optician test urgently WSG / RF's - if symptoms of headache and chest pain not resolving must escalate to AE. Pt happy with this plan,

Administration Letter encounter from patient Unscheduled Care Report (P3) NHS Lanarkshire Primary Care Operating Division OOH

09-Nov-2021 Data Transferred from other system

Intervention Administration of first dose of SARS-CoV-2 vaccine C-19 Booster Pfizer (Ravenscraig Covid Vaccinations)

09-Nov-2021 Data Transferred from other system

Administration Immunisation course maintain protection against SARS-CoV-2 MAINT C-19 Booster Pfizer (C Dougan)

28-Jun-2021 Mrs Marie Ross Third Party Consultation

26-Jun-2021 Administration Letter encounter from patient Unscheduled Care Report (P3) NHS Lanarkshire Primary Care Operating Division

04-May-2021 Dr Stuart Findlay Data Transferred from other system

Intervention Admin sec dose SARS-CoV-2 vacc C-19 AstraZeneca (By M Cassidy)

22-Feb-2021 Dr Stuart Findlay Data Transferred from other system

Intervention Admin first dse SARS-CoV-2 vac C-19 AstraZeneca (By A *****)

01-Dec-2020 Mrs Joyce Hendry Telephone call to a patient

Administration Telephone encounter call during covid-19complaining of (P3) recurrent inflammation of skin in groin and testicles, spreading to anusstates testicles tender, has already been using haemorrhoid creambowel movements variable, not had laxitives since Januaryno bleedingvaque with history and appears uneasy discussing with femaletreat skinand possible haemorrhoids then call back for review next week as may need further examination

03-Aug-2020 Mrs Marie Ross Third Party Consultation

02-Aug-2020 Administration Letter encounter from patient Unscheduled Care Report (P3) NHS Lanarkshire Primary Care Operating Division

09-July-2020 Mrs Andrea Wilson Repeat Issue**08-May-2020 Mr James Young Telephone call to a patient**

Administration Consultation Covid 19 Pandemic. Telephone (P3) consultation.Rash over groins and buttocks described as red some dry skin associated itch. Similar symptoms Aug 2019 responded to top steroid and emollient.

06-Jan-2020 Dr Stuart Arbuckle Surgery consultation

Administration Consultation (P3) 1. Lumbago. Ongoing 5 days. No clear history of trauma/lifting, but works as pub landlord, lifting kegs etc. No radiation. No red flags. No midline tenderness. Long-standing constipation. Agree rx as shown, review as required.

11-Sept-2019 Dr Stuart Findlay Results recording

10-Sept-2019 Examination BCSP faecal occult blood test normal No action required
 10-Sept-2019 Examination **BCSP faecal occult blood test normal** No action required: **Negative**
 BCSP faecal occult blood test normal No action required (No range available)

30-Aug-2019 Mr James Young Surgery consultation

Administration Consultation (P3) c/o throbbing pain in abdomen and rash over groin. Takes laxido for constipation bowels open most days no h/o diarrhoea or blood in stool. Gastroscopy and colonoscopy 2017 ? IBS Abdomen soft no mass no rebound slight tenderness on palpation LIF. Rash over groin perianal region and thighs maculopapular with associated pruritus. topical steroids moisturiser. Antispasmodic for stomach pain. Return to GP if no resolution or symptoms worsen.

20-May-2019 Dr Rashid Masood Surgery consultation

Administration Consultation (P3) Noted recent OOH attendance. Some improvement of redness of perianal skin. He tends to be constipated, however he has not reported any change to his bowels. No abdominal discomfort, no other complaints on detailed enquiry. Noted he had normal colonoscopy couple of years ago. No weight loss, no rectal bleeding. No pallor or jaundice is noted. Abdomen- soft and non tender, no mass or viscera noted. Noted small erythema lesions which are getting better. With verbal informed consent, digital rectal examination does not reveal any abnormality. Will continue with Fybogel, topical cream, added further laxative and detailed worsening symptoms advice. Understands and aware tma for ongoing concerns.

17-Jan-2019 Dr Segun Odeunmi Surgery consultation

Administration Consultation (P3) 4days , hxs of lower back shooting and goes into your legs nil urinary or bowel incontinence , nil leg weakenss. loast bowel motion 5 days ago and it was difficult today to open bowel O/e normal sensation and reflexes in both lower limbs ,Positive siatic stretch test on the right side tendernr in the lwoer bac Normal SLR. Imprp Contipation and ? Sciatica

29-Nov-2018 Dr Sian Campbell Surgery consultation

Administration Consultation (P3) Lower back radaite to the gluteam region nil truma , nil bowel or urianry incontince , nil leg weakness , nil saddle anaesthesia , increase urianry frweqency , nil dysuria , feeling cold , nil vomiting o/e temp 36.5, sat 97% pr 61b/m bp 151/81mmhg. unable to priovide urine now Abdomen soft mild discomfort over left loin , back mild discomofrt over lower back normal reflexes, neg sciatic stret test,. Imprp Mechanical back pain and p? Pyelonephritis. Plan urien dip and bx Dr Odeunmi

18-Sept-2018 Dr M Raja Surgery consultation

Administration Consultation (P3) Noted attendance at GI clinic, UGIE & LGE done and diagnosis of constipation was made. He feels he looses control over her bowels, he moves his bowels every 3-4 days. He has not noticed any blood in stools, he does feel bloated, he eats and drinks well and tells me he has gained weight. No vomiting, no other complaints. Well and comfortable, no pallor or jaundice noted, abdomen- unremarkable, no lumps noted, BS +ve, No perianal pathology noted, good sphincter tone, empty recutm, finger not stained with blood, chaperone was offered. Fluid, fibre, improved diet, laxative and very important to attend for review if this does not help, sooner if any change. Understands and accepts. Dr Masood

05-July-2018 Dr G Johnston Medicine Management

05-July-2018 Mrs Debbie Smith Repeat Issue

Administration Administration NOS terbinafine
(P3)

21-Jun-2018 Dr G Johnston Surgery consultation

Administration Consultation low back pain with radiation to left leg
(P3) seemed to come on after twsiting getting out of bed has been taking co-codamol and has become constipated. no urinary upset. normal pwer in legs. l4/5 l5/s1 intact pain with about 45 deg straight leg no red flags here of CES advised about these though and patient should attend a&e should these develop try reduced codeine dose, add nsaid and ppi patient tells me his relative is sports physio so he will contact him to arange physio see back as required

20-Jun-2018 Dr M Raja Surgery consultation

Administration Administration NOS give appt tomorrow
(P3)

07-Jun-2018 Dr G Johnston Surgery consultation

Administration Consultation red itchy rash on groin looks like tinea
(P3) cruris has excoriations over buttocks also try terbinafine also mention axilla being itchy nocte no obvious marks of scabies but this would remain differential see back after terbinafine for review

24-Apr-2018 Dr S Turner Surgery consultation

Administration Consultation Noted extensive GI investigations. He is
(P3) attending with perianal itch, he feels he has seen worms. He does not have any rectal bleeding, he moves bowel with the help of laxatives, he does not have any other complaints. He ***** his *****. Appears well and comfortable. No pallor noted, abdominal examination is unremarkable. No perianal pathology noted, normal perineal skin. Hygiene advice, treatment with antihelmentic, repeat in 2 weeks and attend for review for ongoing symptoms

		Neutrophil count x10 ⁹ /L	2.8 10 ⁹ /L	(Range: 2 - 7.5)
15-Nov-2017	Examination	Platelet count x10 ⁹ /L:		
		Platelet count x10 ⁹ /L	241 10 ⁹ /L	(Range: 140 - 450)
15-Nov-2017	Examination	Red blood cell (RBC) count x10 ¹² /L:		
		Red blood cell (RBC) count x10 ¹² /L	4.86 10 ⁻²	(Range: 4.5 - 6.5)
15-Nov-2017	Examination	Nucleated red blood cell count x10 ⁹ /L:		
		Nucleated red blood cell count x10 ⁹ /L	0 10 ⁹ /L	(No range available)
15-Nov-2017	Examination	Total white blood count x10 ⁹ /L:		
		Total white blood count x10 ⁹ /L	4.5 10 ⁹ /L	(Range: 4 - 11)
15-Nov-2017	Examination	Lymphocyte count x10 ⁹ /L:		
		Lymphocyte count x10 ⁹ /L	1.2 10 ⁹ /L	(Range: 1 - 4)
15-Nov-2017	Examination	Full blood count - FBC <none>:		
		Full blood count - FBC <none>		(No range available)
15-Nov-2017	Examination	Erythrocyte sedimentation rate mm/hr:		
		Erythrocyte sedimentation rate mm/hr	2 mm/h	(Range: 1 - 30)
15-Nov-2017	Examination	Haematocrit:		
		Haematocrit	0.455 L/L	(Range: 0.4 - 0.54)
15-Nov-2017	Examination	Basophil count x10 ⁹ /L:		
		Basophil count x10 ⁹ /L	0 10 ⁹ /L	(No range available)
15-Nov-2017	Examination	Red blood cell distribution width %:		
		Red blood cell distribution width %	13.9 %	(Range: 11 - 16)

15-Nov-2017 Mrs Allison Mitchell Repeat Issue

Examination	Blood sample taken fbc, esr, U+E, LFT, amylase, crp, TTG		
Examination	Blood sample taken fbc, esr, U+E, LFT, amylase, crp, TTG:		
	Blood sample taken fbc, esr, U+E, LFT, amylase, crp, TTG		(No range available)

08-Nov-2017 Dr M Raja Surgery consultation

Administration (P3)	Consultation spots and abscesses have healed however some itch remains in the groin and in the natal cleft with mild erythema . advised Fucibet cream for one week and cont antihistamine - see again if problem persists or worse
---------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

31-Oct-2017 Dr M Raja Surgery consultation

Administration (P3)	Consultation itchy in perineum and around back passage . numerous small abscess in the natal cleft . haemorrhoid . no fissure. for abx amd anusol . review if not better
---------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------

14-July-2017 Dr Sian Campbell Medicine Management**14-July-2017 Mrs Jane Devine Repeat Issue**

12-July-2017 Mrs Joyce Hendry Clinic

Administration Consultation attended with lower back pain, constant with a few sharp twinges, had for a few weeks, no improvement but no worse, worse sitting or lying, took co-codamol - no benefit, not aware of any injury, o/e pain and restricted movement with flexion of back, otherwise no restricted movement, normal tone and sensation in legs, FROM with legs, no numbness at sacrum, no bowel or bladder problemstreat with topical NSAID and co-codamol, physio card given

07-Jun-2017 Dr Stuart Arbuckle Surgery consultation

Administration Consultation Mirtazapine having desired effect, doing (P3) better and sleeping well. Agree continue, review as required.

04-May-2017 Dr Stuart Arbuckle Surgery consultation

Administration Consultation Note gastroscopy report, requires (P3) antifungal medication, Agreed. Advised 14 days, if not fully resolved continue and review. Also low mood, long discussion, ***** has bipolar and ***** is only *****. ***** and 15yo ***** at home too. No thoughts DSH, considered not being here but fleeting and nil specific. Agree restart mirtazapine, review 3-4/52.

25-Apr-2017 Mrs Joyce Hendry Administration**31-Mar-2017 Mrs Joyce Hendry Administration**

17-Mar-2017 Diagnosis Gastritis unspecified

Result: Comment note Comment - H.pylori serology is unsuitable to determine whether the patient has cleared the infection as IgG levels can remain high for many months after treatment. Please send a stool sample for H.pylori faecal antigen testing to determine whether this is a current active infection or residual antibodies from a previous infection.

Comment note Comment - H.pylori serology is unsuitable to determine whether the patient has cleared the infection as IgG levels can remain high for many months after treatment. Please send a stool sample for H.pylori faecal antigen testing to determine whether this is a current active infection or residual antibodies from a previous infection.

General Practitioner's Report (GPR)

Patient: Mr James Haney
 Date of Birth: 2 September 1961
 Insurance applied for: Life

Dear General Practitioner

The patient named above has applied for insurance. Please use your patient's medical records to fill in the enclosed report and return it to me in the prepaid envelope. If you return the report within 20 days, I can give a quick decision on your patient's application. The British Medical Association (BMA) has agreed the questions in the form along with the Association of British Insurers (ABI). We need the answers to assess your patient's application properly so that we charge the correct premium.

Please the following points.

- You do not need to examine or interview your patient.
- The type of information that is relevant depends on the insurance product your patient has applied for. We have enclosed descriptions of the main types of insurance, and the medical information that is relevant to each.
- Only our employees or the employees of the company which provides insurance for us will see the information you provide and only if they have a business need to do so. Access to information is controlled by our confidentiality policy, which meets ABI guidelines.
- We will not use the information you supply to assess insurance applications from anyone other than the applicant.
- Once we receive the report, we will send you the agreed fee.
- Even if your patient's records are limited because he or she is a new patient or does not see you often, please fill in the report anyway.
- You can find more details on providing information for insurance in joint BMA and ABI guidelines published in December 2002. You can get the guidelines from the BMA and the ABI, and copies are on their websites (www.bma.org.uk/ethics and www.abi.org.uk).

I am enclosing a copy of your patient's signed permission for you to fill in this report. We have told your patient that your report will contain details of relevant illness, trauma,

Representative only of the Legal & General marketing group, members of which are authorised and regulated by the Financial Services Authority, for the purpose of advising on life assurance and investment products bearing Legal & General's name. referrals for specialist advice or treatment, hospital admissions, family history of disease and consultations with you or any other medical adviser, therapist or counsellor.

We have also told your patient that the medical report will not ask for details of any negative tests for HIV, hepatitis B or C, unfavourable genetic test results and that it will not ask about any incidences of sexually-transmitted diseases unless there are long-term health implications.

The form will say whether your patient wants to see the report before you send it back to us. It also explains what you should do if your patient wants to see the report.

If you do not have the patient's medical records, you do not need to fill in the report. Please return the form to me.

Thank you.

Yours faithfully

R D Rubens

Circumstances of Presentation

I assessed the above named gentleman as an arranged appointment in A+E Department, Monklands Hospital on 21.6.07 at 11:10 hours. James had attended the A+E Department on 19.6.07 complaining of chest pain. An ECG was carried out at this time and there was nil evident. Staff felt it may be stress related and therefore gave a follow-up appointment. There was no self-harm involved.

Presenting Clinical Picture

Since Christmas 2006 [REDACTED] claims that he has lost interest in his business. He runs a public house and a bar restaurant. He claims there has been various arguments in the family and that they are all drifting apart. This has happened since the death of the [REDACTED] 2 years ago. He also claims he hasn't been right since the death of 2 of his [REDACTED] 12 years ago. One died of a haemorrhage and one was murdered. His [REDACTED] murderer suffered from schizophrenia and is now in Carstairs. He claims that he has never had any closure on this issue and he feels the murderer was never punished. He has felt like he doesn't want to be here due to the family falling apart. He feels that his [REDACTED] kept the family together and since she has died he doesn't see the point of going on. He has fleeting thoughts of throwing himself in front of a train but he manages to push these away. He feels he is now snapping at his children which is not usual for him as he feels under pressure. He claims his [REDACTED] is struggling but supportive. He claims that his businesses are not causing any problems financially but he doesn't want to deal with staff etc. He denies any alcohol or drug misuse.

Past Psychiatric/Medical History

[REDACTED] claims to have suffered depression for the past 6 months and he sought help approximately 3 months ago from his GP. He is currently prescribed Citalopram 20mgs which was increased from 10mgs 7-8 weeks ago. He claims this makes him feel calmer. There is no history of previous self-harm or psychiatric input although he did say he was seen by Child Psychology whilst at Primary [REDACTED]. This was due to non-attendance and he was sent to St Josephs which he claims was like a List D [REDACTED]. There is no medical history of note, no family history of psychiatric problems although his [REDACTED] did have alcohol problems.

2

James Haney DoB 2.9.61

06 July 2007

Background History

Jim was born and raised in Bellshill and he attended [redacted] until 9 years old. After that he didn't attend and he claimed he was not bullied he just didn't like [redacted]. He was sent to St Josephs and since leaving there he has worked in hotels, as a train driver and currently has his own business. He was married at 17½ and divorced age 20. He has one [redacted] from that marriage and he had no contact until she was aged 14. At this point she came and [redacted] him but managed to get involved with drugs and he threw her out. He now has no contact. She has a [redacted] 10 who he sees every weekend. He has been married to his current [redacted] for 20 years and has one [redacted] aged 16 and one [redacted] aged 5. He claims the relationship is good with all. His [redacted] aged 75 alive and has a previous history of alcohol abuse. He claims that he was verbally and physically abusive to the children and his [redacted]. His [redacted] died 2 years ago at age 70 and he claimed that she had a hard life with lots of physical problems. There were 10 children in the family, 2 died in infancy, one [redacted] died of a haemorrhage 12 years ago and one [redacted] was murdered. He has 4 [redacted] alive. He claimed that the relationship is fine. He has been off work since January due to depression. Socially he plays pool competitively and tries to spend some time at the family caravan but finding difficulty in switching off. He denies any forensic history. He is a non-smoker and does not take drugs or alcohol. He owns his own house and is in the process of moving to a smaller one. He denies any financial problems despite having usual business debts.

Mental State Examination

He was a casually dressed pleasant man who was not aggressive. He maintained good eye contact and rapport throughout the interview and his speech appeared normal in rate, rhythm, tone and content. He was orientated in all 3 spheres and described his mood as subjectively 7/10. He was relaxed and claimed he felt better for talking and getting things off his chest. He admitted to having ongoing thoughts of fleeing suicide by throwing himself in front of a train but he stated he had his family to think of and didn't think this would happen. Objectively he did appear euthymic at this presentation although he did seem to have unresolved grief issues. He did report anxiety regarding work situation and difficulty in managing staff. He reports his sleep is disturbed, he can sleep for around 6 hours although does tend to wake up a lot overnight and there is some evidence of early morning waking. His appetite has decreased since recently commencing Citalopram. He now eats no main meal although he does report his concentration is fine. He denies any abnormal beliefs or perceptual abnormalities.

Opinion

45 year old man who was referred to the Psychiatric Assessment Team after presenting to the A+E Department with chest pain. There were no physical problems evident and it was possibly anxiety related. He has not worked since the start of the year due to depression and he admits to having thoughts of throwing himself in front of a train but denied ongoing intent or plans. He is currently prescribed Citalopram via his GP and he claims that this makes him feel calmer. He did not appear depressed on today's presentation but did state that he felt better due to talking to someone. He does seem to have unresolved grief issues and would probably benefit from further input from the [redacted] [redacted] [redacted] for mood assessment.

Plan

Discharge back to the care of his GP and refer on the [redacted] [redacted] [redacted]
