Date of report

NOTES

Results refer to venous blood unless otherwise stated.

The Reference Interval for each test is shown in brackets.

An asterisk * indicates a test result outwith the Reference Interval.

Reference Intervals may vary significantly with age, sex and other factors. The range given is matched with these variables where the patient information is provided. In all other cases a Reference Interval for general guidance only is given. The Reference Interval may NOT be used for publication without prior consultation.

Total calcium results are adjusted according to the serum albumin concentration.

Where a time of "0000 h" is given in the "Date and time of specimen" field this indicates that no time was given on the request form.
