|          | Billy arrived home from school in a very good mood. Billy got changed quickly, changed his jeans & t-shirt & was ready to go out with his dad to 'see a boy about a bike' as he says. Billy was going to see about choosing a motorcycle with his dad, however dad didn't answer his phone. Billy therefore stayed in the unit, having dinner and then spending most of the night in the computer room with all the other kids in the pool room. Billy was still in a happy mood tonight, despite not going out with his dad. Billy helped staff take a spider out of the computer room, which was quite hilarious. |           |

| 21/11/06 | <p>Billy came in from school in a fine mood he got changed then spent time with the 2 boys before tea. They were all hyper and a bit loud at times. During tea the boys had a discussion then when they finished they stood up and walked out of the kitchen without doing the dishes. Billy went into the <sup>bed room</sup> <del>computer</del> with the other boys and were mucking about not doing anything that was asked of him. He came out of the pool room which was then locked off. He went into the computer room and continued to be cheeky towards staff. After a while Billy removed himself from the computer room and the other two boys. He went into the living room and watched a DVD with (AB). Billy remained in the living room for the rest of the evening. He was in a better frame of mind and chatted with staff at supper time before going upstairs to settle no problem.</p> | <p>J</p> <p>J</p> |
