Email Address	colinkerr881@gmail.com
Contact Number	07555 585 417

Consultation Summary

Before we begin, please can you tell us who this e-consultation is for:

This e-consultation is for myself

Please tell me why you need a blood test?

I would like an NHS Health Check

The NHS Health Check is a health check-up for adults in England aged 40 to 74. It's designed to spot early signs of stroke, kidney disease, heart disease, type 2 diabetes or dementia. As we get older, we have a higher risk of developing one of these conditions. An NHS Health Check helps find ways to lower this risk.

It is carried out every 5 years.

Please confirm if all of the following apply to you:

- I am aged between 40-74
- I have not had an NHS Health Check in the last 5 years
- I do not have diabetes, high blood pressure or a stroke

- I confirm all three applies to me

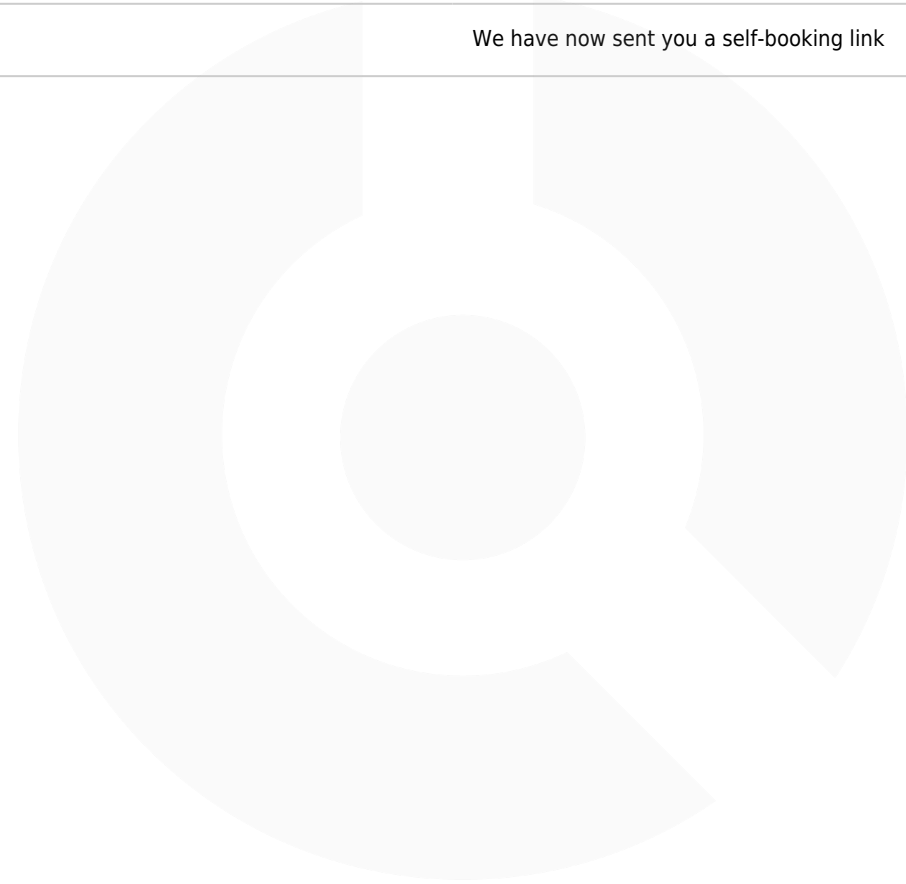

I confirm all three applies to me

Thanks for that. Based on the information you have provided, you qualify for free NHS Health Check.

A blood test form will be ready for collection by the end of the next working day.

When you collect your form, please request an appointment to review your bloods after a week.
