| 15/3/83 | Didn't go out tonight as mum was visiting. Both Mum and Arnold told me that there has been no "carry-on" with other men in her house. She does have a lodger (age 20) and Christine's boyfriend has been in the house, although Arnold has ejected him once or twice. She insists that Arnold is "the only man in her life", and has been for the past year.    | Z.F. |

| 7/2/83   | Played football with the others all evening. At 8.20pm, Andrew, Paul and Charles all approached Mr. Ramsay for money to go to the shops. All were referred back to me and I told them off for leaving it so late at night, not getting their money between 5.30 and 6pm, etc. etc. On Mr Ramsay's suggestion, I conceded on this occasion, but all boys were told that this should NOT happen again. | ZF   |

| 18/2/83  | Told me that Mum is hoping to get a job in Kirkton Community Centre, and give up the Wickhart Centre job. Andrew quite fancies going to his Review next Wednesday, and intends asking his teachers for time off school. He is still hoping to get an "overnight." Home with Sarah after lunch, Christine is home too.                                                                                | Z.F. |

| 23.2.83  | Case Review today: As with Sarah, there is to be no increase in Andrew's home leaves due to the present home situation. This may change in future.                                                                                                                                                                                                                                                   | ZF   |
