3/6/82	Out with Jamie & Mr Small, enjoyed himself and came back bragging about his 'fish supper' while out. Sean very jealous & angry with him.	FM
4/6/82	Case Review this morning. Has been decided that Andrew & Sarah will not return home. Andrew's day leave has been extended, Sat from 1.30pm to 4.30pm and Sun. 10am to 6.30pm. Andrew has the option whether to go or not but I believe he'll be pleased at this. Eventually the SW Dept would like to take Parental Rights but this has to be discussed more thoroughly and there will be another case review in the mid September. I have left Andrew's knee.	
5/6/82	Mum came for the kids at 1.30pm. Andrew was pleased to see her but did not look ^{seem} interested in actually speaking to her.	
6/6/82	Away to mums on day leave, enjoyed himself but not saying much about it as usual. Tried speaking to him re-mums getting married to Arnold. Couldnt get a thing out of him except he said he thought Arnold was 'all right I suppose'.	FM

20.1.82 -

Andrew appears to be settling in ok on the surface. He is a daur looking lad and can at times be quite impatient with the other boys. He is presenting no behavioral problems and is keen to do anything asked of him. He is however, not communicating as well as many other children do, and is worrying about his mum a lot. Mum is phoning quite a lot asking about Andrew and Sarah and is being verbally abusive on the phone to staff members. She phoned today saying she is coming at 2 pm to take her children home for good. SLW are trying to get her back into Liff but are having difficulty in this area. Andrew has a panel on Friday to see what is happening. He is not at school this week as it is thought mum may go to the school and try to take him away. (FM)

22.1.82 Quite well behaved, seems to have J.T. 'sussed out', and answers him back - often at his own risk. ZF.

24.1.82 Pushing his luck a wee bit today, muttering under his breath when Mr. Nicolson was giving him a telling-off. ZF.

26.1.82 'Play-fighting' with Jamie earlier on, got a bit rough when he got the chance. ZF.

29.1.82 Looking a lot happier now than when first admitted. Playing very well indeed and presenting no behavioral difficulties. FM.

31.1.82. Much chattier these days, too. ZF.

2.2.82 Coming out of himself more and more. FM.

8.2.82 Mother & Aunt visited. Mum says she's being discharged on Thursday. Andrew was very pleased to see her and kept saying so, afterwards. ZF.

8.2.82 Finding him very sneaky and sly at times. worthwhile observing him more closely and keeping

him [redacted] down a bit more. I went to his parents/teachers night and was told by most of his teachers that he was underachieving at present time. His school attendance has been bad and this has obviously contributed to this. He was described by a couple of teachers as being odd? when asking them in what way odd! they were not awfully sure, but said he surprised them at times when he got good marks for exams when they thought it not possible for him? Miss Harris English teacher was concerned about the crowd he hangs around with in Kirkton and says they are a "bad influence" on Andrew. She is also concerned about his homework, she has given him it 7 times and has only ever had it back twice. She says she asks them to have it signed but Andrew never has this done. The general opinion of teachers is Andrew is not particularly bright but he is lazy and doesn't try nearly hard enough. I've spoken to Andrew today about his homework and he admits to dodging it. I've told him he must tell us when he has work and we will help him all we can if he gets stuck. He's been told that he must do this work before being allowed any recreational activities and he accepts this.
